Sixth Palenque Round Table 1986:

Sixth Palenque Round Table, 1986, 1991 **The Ancient Maya, 6th Edition** Robert J. Sharer, Loa P. Traxler, 2006

The rich findings of recent exploration and research are incorporated in this completely revised and greatly expanded sixth edition of this standard work on the Maya people. New field discoveries, new technical advances, new successes in the decipherment of Maya writing and new theoretical perspectives on the Maya past have made this new edition necessary.

Parallel Worlds Kerry M. Hull, Michael D. Carrasco, 2012-05-15. Despite recent developments in epigraphy, ethnopoetics, and the literary investigation of colonial and modern materials, few studies have compared glyphic texts and historic Maya literatures. *Parallel Worlds* examines Maya writing and literary traditions from the Classic period until today, revealing remarkable continuities across time. In this volume, contributions from leading scholars in Maya literary studies examine Maya discourse from Classic period hieroglyphic inscriptions to contemporary spoken narratives, focusing on parallelism to unite the literature historically. Contributors take an ethnopoetic approach, examining literary and verbal arts from a historical perspective, acknowledging that poetic form is as important as narrative content in deciphering what these writings reveal about ancient and contemporary worldviews. Encompassing a variety of literary motifs, including humor, folklore, incantation, mythology, and more specific forms of parallelism such as couplets, chiasms, kennings, and hyperbatons, *Parallel Worlds* is a rich journey through Maya culture and pre-Columbian literature that will be of interest to students and scholars of anthropology, ethnography, Latin American history, epigraphy, comparative literature, language studies, indigenous studies, and mythology.

Ancient Maya Political Economies Marilyn A. Masson, David A. Freidel, 2002. *Ancient Maya Political Economies* examines variation in systems of economic production and exchange and how these systems supported the power networks that integrated Maya society. Using models originally developed by William L. Rathje, the authors explore core-periphery relations, the use of household analysis to reconstruct political economy, and evidence for market development. In doing so, they challenge the conventional wisdom of decentralized Maya political authority and replace it with a more complex view of the political-economic foundations of Maya civilization.

2000 Years of Mayan Literature Dennis Tedlock, 2011-11-04. A chronological survey of Mayan literature covering two thousand years from the earliest hieroglyphic inscriptions to later works using the Roman alphabet.

[A Resource Bibliography for the Decipherment of Maya Hieroglyph and New Maya Hieroglyph Readings](#) John F. Harris, 1994-01-29

[The Archaeology and Politics of Food and Feasting in Early States and Empires](#) Tamara L. Bray, 2007-05-28. This volume examines the commensal politics of early states and empires and offers a comparative perspective on how food and feasting have figured in the political calculus of archaic states in both the Old and New Worlds. It provides a cross-cultural and comparative analysis for scholars and graduate students concerned with the archaeology of complex societies, the anthropology of food and feasting, ancient statecraft, archaeological approaches to micro-political processes, and the social interpretation of prehistoric pottery.

[Star Gods of the Maya](#) Susan

Milbrath,2010-01-01 A prodigious work of unmatched interdisciplinary scholarship on Maya astronomy and religion Journal of Interdisciplinary History Observations of the sun moon planets and stars played a central role in ancient Maya lifeways as they do today among contemporary Maya who maintain the traditional ways This pathfinding book reconstructs ancient Maya astronomy and cosmology through the astronomical information encoded in Pre Columbian Maya art and confirmed by the current practices of living Maya peoples Susan Milbrath opens the book with a discussion of modern Maya beliefs about astronomy along with essential information on naked eye observation She devotes subsequent chapters to Pre Columbian astronomical imagery which she traces back through time starting from the Colonial and Postclassic eras She delves into many aspects of the Maya astronomical images including the major astronomical gods and their associated glyphs astronomical almanacs in the Maya codices and changes in the imagery of the heavens over time This investigation yields new data and a new synthesis of information about the specific astronomical events and cycles recorded in Maya art and architecture Indeed it constitutes the first major study of the relationship between art and astronomy in ancient Maya culture Milbrath has given us a comprehensive reference work that facilitates access to a very broad and varied body of literature spanning several disciplines Isis Destined to become a standard reference work on Maya archaeoastronomy Utterly

comprehensive Andrea Stone Professor of Art History University of Wisconsin Milwaukee **The Memory of Bones** Stephen Houston,David Stuart,Karl Taube,2006-06-01 All of human experience flows from bodies that feel express emotion and think about what such experiences mean But is it possible for us embodied as we are in a particular time and place to know how people of long ago thought about the body and its experiences In this groundbreaking book three leading experts on the Classic Maya ca AD 250 to 850 marshal a vast array of evidence from Maya iconography and hieroglyphic writing as well as archaeological findings to argue that the Classic Maya developed a coherent approach to the human body that we can recover and understand today The authors open with a cartography of the Maya body its parts and their meanings as depicted in imagery and texts They go on to explore such issues as how the body was replicated in portraiture how it experienced the world through ingestion the senses and the emotions how the body experienced war and sacrifice and the pain and sexuality that were intimately bound up in these domains how words often heaven sent could be embodied and how bodies could be blurred through spirit possession From these investigations the authors convincingly demonstrate that the Maya conceptualized the body in varying roles as a metaphor of time as a gendered sexualized being in distinct stages of life as an instrument of honor and dishonor as a vehicle for communication and consumption as an exemplification of beauty and ugliness and as a dancer and song maker Their findings open a new avenue for empathetically understanding the ancient Maya as living human beings who experienced the world as we do through the body **Maya Narrative Arts** Karen Bassie-Sweet,Nicholas A. Hopkins,2019-01-15 In Maya Narrative Arts authors Karen Bassie Sweet and Nicholas A Hopkins present a comprehensive and innovative analysis of the principles of Classic Maya narrative arts and apply those principles to

some of the major monuments of the site of Palenque They demonstrate a recent methodological shift in the examination of art and inscriptions away from minute technical issues and toward the poetics and narratives of texts and the relationship between texts and images Bassie Sweet and Hopkins show that both visual and verbal media present carefully planned narratives and that the two are intimately related in the composition of Classic Maya monuments Text and image interaction is discussed through examples of stelae wall panels lintels benches and miscellaneous artifacts including ceramic vessels and codices Bassie Sweet and Hopkins consider the principles of contrast and complementarity that underlie narrative structures and place this study in the context of earlier work proposing a new paradigm for Maya epigraphy They also address the narrative organization of texts and images as manifested in selected hieroglyphic inscriptions and the accompanying illustrations stressing the interplay between the two Arguing for a more holistic approach to Classic Maya art and literature Maya Narrative Arts reveals how close observation and reading can be equally if not more productive than theoretical discussions which too often stray from the very data that they attempt to elucidate The book will be significant for Mesoamerican art historians epigraphers linguists and archaeologists

Lives of the Gods: Divinity in Maya Art Joanne Pillsbury, Oswaldo Chinchilla Mazariegos, James A. Doyle, 2022-11-14 An introduction to the complex stories of Mesoamerican divinity through the carvings ceramics and metalwork of the Maya Classic period Lives of the Gods reveals how ancient Maya artists evoked a pantheon as rich and complex as the more familiar Greco Roman Hindu Buddhist and Egyptian deities Focusing on the period between A D 250 and 900 the authors show how this powerful cosmology informed some of the greatest creative achievements of Maya civilization

Order, Legitimacy, and Wealth in Ancient States Janet Richards, Mary Van Buren, 2000-12-07 Three terms Order Legitimacy and Wealth delineate a comparative approach to ancient civilizations initially developed by John Baines Professor of Egyptology at the University of Oxford and Norman Yoffee Professor of Archaeology and Near Eastern Studies at the University of Michigan in 1992 In an influential paper they compared and contrasted the nature of social and political power in Egypt and Mesopotamia This was the first analysis of the impact of wealth and high culture on the development of states The contributors to the present book first published in 2000 apply the classic Baines Yoffee model to a range of ancient states around the world providing documentary and archaeological evidence on the production and uses of high culture literature and monumental architecture There are chapters on Mesoamerica the Andes the Indus Valley the Han Dynasty of China and Greece during the Roman empire while others expand on the original Egypt Mesopotamia comparison

Wearing Culture Heather Orr, Matthew Looper, 2013-12-15 Wearing Culture connects scholars of divergent geographical areas and academic fields from archaeologists and anthropologists to art historians to show the significance of articles of regalia and of dressing and ornamenting people and objects among the Formative period cultures of ancient Mesoamerica and Central America Documenting the elaborate practices of costume adornment and body modification in Panama Costa Rica Nicaragua Honduras Oaxaca the Soconusco

region of southern Mesoamerica the Gulf Coast Olmec region Olman and the Maya lowlands this book demonstrates that adornment was used as a tool for communicating status social relationships power gender sexuality behavior and political ritual and religious identities Despite considerable formal and technological variation in clothing and ornamentation the early indigenous cultures of these regions shared numerous practices attitudes and aesthetic interests Contributors address technological development manufacturing materials and methods nonfabric ornamentation symbolic dimensions representational strategies and clothing as evidence of interregional sociopolitical exchange Focusing on an important period of cultural and artistic development through the lens of costuming and adornment Wearing Culture will be of interest to scholars of pre Hispanic and pre Columbian studies

The Materialization of Time in the Ancient Maya World David A. Freidel, Arlen F. Chase, Anne S. Dowd, Jerry Murdock, 2024-01-09 This book discusses the range of ways the ancient Maya people expressed timekeeping in daily life through their architecture arts writing beliefs and practices

Reconsidering Olmec Visual Culture Carolyn E. Tate, 2012-08-24 Recently scholars of Olmec visual culture have identified symbols for umbilical cords bundles and cave wombs as well as a significant number of women portrayed on monuments and as figurines In this groundbreaking study Carolyn Tate demonstrates that these subjects were part of a major emphasis on gestational imagery in Formative Period Mesoamerica In Reconsidering Olmec Visual Culture she identifies the presence of women human embryos and fetuses in monuments and portable objects dating from 1400 to 400 BC and originating throughout much of Mesoamerica This highly original study sheds new light on the prominent roles that women and gestational beings played in Early Formative societies revealing female shamanic practices the generative concepts that motivated caching and bundling and the expression of feminine knowledge in the 260 day cycle and related divinatory and ritual activities Reconsidering Olmec Visual Culture is the first study that situates the unique hollow babies of Formative Mesoamerica within the context of prominent females and the prevalent imagery of gestation and birth It is also the first major art historical study of La Venta and the first to identify Mesoamerica's earliest creation narrative It provides a more nuanced understanding of how later societies including Teotihuacan and West Mexico as well as the Maya either rejected certain Formative Period visual forms rituals social roles and concepts or adopted and transformed them into the enduring themes of Mesoamerican symbol systems

Gender and Power in Prehispanic Mesoamerica Rosemary A. Joyce, 2009-06-23 Gender was a fluid potential not a fixed category before the Spaniards came to Mesoamerica Childhood training and ritual shaped but did not set adult gender which could encompass third genders and alternative sexualities as well as male and female At the height of the Classic period Maya rulers presented themselves as embodying the entire range of gender possibilities from male through female by wearing blended costumes and playing male and female roles in state ceremonies This landmark book offers the first comprehensive description and analysis of gender and power relations in prehispanic Mesoamerica from the Formative Period Olmec world ca 1500 500 BC through the Postclassic Maya and Aztec societies of the sixteenth century

AD Using approaches from contemporary gender theory Rosemary Joyce explores how Mesoamericans created human images to represent idealized notions of what it meant to be male and female and to depict proper gender roles She then juxtaposes these images with archaeological evidence from burials house sites and body ornaments which reveals that real gender roles were more fluid and variable than the stereotyped images suggest **Ancient Mesoamerican Warfare**

Kathryn M. Brown, Travis W. Stanton, 2003-10-07 The understanding of warfare in ancient Mesoamerica has blossomed in recent years In this volume the authors use recent empirical studies to help us understand the patterns and nature of Mesoamerican warfare Using evidence from ceramics settlement pattern epigraphy ethnohistory and ethnography these projects define the martial nature of Mesoamerican societies and link it to ritual political economy and other cultural systems The studies range from preclassic to post contact and from Belize to Central Mexico A comparison between this corpus and warfare studies in the American Southwest is also included This volume will be of interest to Mesoamericanists and other archaeologists anthropologists and historians of ancient warfare *Maya Cosmogenesis 2012* John Major

Jenkins, 1998-08-01 While researching the 2012 end date of the Maya Calendar John Major Jenkins decoded the Maya's galactic cosmology The Maya discovered that the periodic alignment of the Sun with the center of the Milky Way galaxy is the formative influence on human evolution These alignments also define a series of World Ages The fourth age ends on December 21 2012 when an epoch chapter in human history will come to an end *Maya Cosmogenesis 2012* reveals the Maya's insight into the cyclic nature of time and prepares us for our own cosmogenesis the birth of a new world *K'axob* Patricia A. McAnany, 2004-12-31

Shortly after 800 B C a village was founded in the wetland and riverine habitat of northern Belize Now called K'axob this Maya community grew and prospered through Formative and Classic times A millennial long record of Formative life has been investigated archaeologically by peeling back the closely stratified layers of superimposed domiciles These houses their domestic and mortuary features and associated artifacts reveal a conscious construction of identity and shed light on the manner in which materiality was manipulated in response to larger political dictates Longterm stasis in material remains suggests that artisan production played a key role in social reproduction yet the manner in which access to key resources was increasingly localized intimates a political landscape of crystallizing hierarchies Subfloor mortuary interments were spatially associated with cuisine related features such as sherd lined pits reflecting a cosmology in which ritual and work were closely integrated These insights and more are presented in individual chapters that examine the material remains of early K'axob An accompanying interactive CD provides complementary materials on a scale never before achieved and includes comprehensive data sets over one thousand images both photographs and line drawings a tour of K'axob and 3 D models of the excavation units **Thinking, Recording, and Writing History in the Ancient World** Kurt

A. Raaflaub, 2013-11-08 *Thinking Recording and Writing History in the Ancient World* presents a cross cultural comparison of the ways in which ancient civilizations thought about the past and recorded their own histories Written by an international

group of scholars working in many disciplines Truly cross cultural covering historical thinking and writing in ancient or early cultures across in East South and West Asia the Mediterranean and the Americas Includes historiography shaped by religious perspectives including Judaism early Christianity Islam and Buddhism
