Probing diaries letters business journals and newspapers for morsels of information food historian Jackie Williams here follows pioneers from the earliest years of settlement in the Northwest when smoldering logs in a fireplace stood in for a stove and water had to be hauled from a stream or well to the times when railroads brought Pacific Northwest cooks the latest ingredients and implements The fifty year journey described in The Way We Ate documents a change from a land with few stores and inadequate housing to one with business establishments bursting with goods and homes decorated with the latest finery Like she did in her earlier acclaimed volume Wagon Wheel Kitchens Food on the Oregon Trail Williams has in her latest book shed important new light on a little understood aspect of our past These tales of a pioneer wife bemoaning her husband's gift of a cookbook when she really needed more food or preparing sweets and savories for holiday celebrations when the kitchen was just a tiny space in a one room log cabin show another side of the grim faced pioneers portrayed in movies Here we encounter real American history and culture one that vividly portrays the daily lives of the people who won the West not in Hollywood gun battles but in the kitchens and fields of a world that has disappeared Interlacing a lively narrative with the pioneers own words The Way We Ate is truly a feast for those who believe that much depends on dinner

Myth and Memory John Sutton Lutz, 2011-11-01 The moment of contact between two peoples two alien societies marks the opening of an epoch and the joining of histories What if it had happened differently The stories that indigenous peoples and Europeans tell about their first encounters with one another are enormously valuable historical records but their relevance extends beyond the past Settler populations and indigenous peoples the world over are engaged in negotiations over legitimacy power and rights These struggles cannot be dissociated from written and oral accounts of contact moments which not only shape our collective sense of history but also guide our understanding of current events For all their importance contact stories have not been systematically or critically evaluated as a genre Myth and Memory explores the narratives of indigenous and newcomer populations from New Zealand and across North America from the Lost Colony of Roanoke on the Atlantic seaboard of the

United States to the Pacific Northwest and as far as Sitka Alaska It illustrates how indigenous and explorer accounts of the same meetings reflect fundamentally different systems of thought and focuses on the cultural misunderstandings embedded in these stories The contributors discuss the contemporary relevance production and performance of Aboriginal and European contact narratives and introduce new tools for interpreting the genre They argue that we are still in the contact zone striving to understand the meaning of contact and the relationship between indigenous and settler populations
