Pontos Hellenic Research Center**

Smyrna 1922 The Destruction Of A City:

Smyrna 1922 Marjorie Housepian Dobkin, 1988 On one level Smyrna 1922 is a modern Greek tragedy replete with the elements of irony and horror The Greeks one of the victorious Allied powers during World War 1 were betrayed by their allies and their army driven into the sea at Smyrna by the forces of Mustapha Kemal an insurgent leader to whom his former enemies had given considerable covert help There followed an enactment of the week of orgy after the fall of Constantinople in 1453 pillage rape and massacre culminating in this instance in the spectacular destruction by fire of Smyrna now Izmir considered an infidel city by the Turks because of its predominantly Greek character and population Dobkin's study is a definitive work concerning a debacle deliberately soft pedalled and almost expunged from the memory of modern day man in the words of Henry Miller in *The Colossus of Maroussi* **Smyrna 1922. The Destruction of a City** Marjorie Housepian, 1972

Paradise Lost Giles Milton, 2008 On Saturday 9th September 1922 the victorious Turkish cavalry rode into Smyrna the richest and most cosmopolitan city in the Ottoman Empire What happened over the next two weeks must rank as one of the most compelling human dramas of the twentieth century Almost two million people were caught up in a disaster of truly epic proportions PARADISE LOST is told with the narrative verve that has made Giles Milton a bestselling historian It unfolds through the memories of the survivors many of them interviewed for the first time and the eyewitness accounts of those who found themselves caught up in one of the greatest catastrophes of the modern age *The Greek Genocide, 1913-1923: New Perspectives* George Shirinian, Asia Minor and Pontos Hellenic Research Center, 2019-01-01 The deportation mass killing and ultimate expulsion of citizens of the Ottoman Empire of Greek ethnicity during the waning years of that empire and its transition to the Turkish Republic are well documented but perhaps not widely known The numerous archival sources and secondary works cited in these carefully researched studies are rich source of evidence and testimony many not available in the English language This collected research by a group of scholars young and old of different countries and different ethnicities strives to delve more profoundly into this history to explore new aspects of it to broaden our knowledge of what happened and to deepen our understanding of its significance **The Vanquished** Robert Gerwarth, 2016-11-15 An account of the continuing ethnic and state violence after the end of WWI conflicts that more than anything else set the stage for WWII

Provided by publisher **America and the Armenian Genocide of 1915** Jay Winter, 2004-01-08 Before Rwanda and Bosnia and before the Holocaust the first genocide of the twentieth century happened in Turkish Armenia in 1915 when approximately one million people were killed This volume is an account of the American response to this atrocity The first part sets up the framework for understanding the genocide Sir Martin Gilbert Vahakn Dadrian and Jay Winter provide an analytical setting for nine scholarly essays examining how Americans learned of this catastrophe and how they tried to help its victims Knowledge and compassion though were not enough to stop the killings A terrible precedent was born in 1915 one which has come to haunt the United States and other Western countries throughout the twentieth century and beyond To

read the essays in this volume is chastening the dilemmas Americans faced when confronting evil on an unprecedented scale are not very different from the dilemmas we face today

American-Turkish Claims Settlement American-Turkish Commission, Fred Kenelm Nielsen, 1937

The New Ottoman Greece in History and Fiction Trine Stauning

Willert, 2018-09-04 This book explores the increasing interest in the Ottoman past in contemporary Greek society and its cultural sphere. It considers how the changing geo-political balances in South East Europe since 1989 have offered Greek society an occasion to re-examine the transition from cultural diversity in the imperial context to efforts to homogenize culture in the subsequent national contexts. This study shows how contemporary immigration and better relations with Turkey led to new directions in historiography, fiction and popular culture in the beginning of the twenty-first century. It focuses on how narratives about cultural co-existence under Ottoman rule are used as a prism of national self-awareness and argues that the interpretations of Greece's Ottoman legacy are part of the cultural battles over national identity and belonging. The book examines these narratives within the context of tension between East and West and not least Greece's place in Europe.

Places of Memory and Legacies in an Age of Insecurities and Globalization Gerry

O'Reilly, 2020-12-03 In this book practitioners and students discover perspectives on landscape, place, heritage, memory, emotions and geopolitics intertwined in evolving citizenship and democratization debates. This volume shows how memorialization can contribute to wider inclusive interpretations of history, tourism and human rights promoted by the European Project. Its geographies of memories can foster cooperation as witnessed throughout Europe during the 2014-18 WWI commemorations. Due to new world orders, geopolitical reconfigurations and ideals that emerged after 1918, many countries ranging from the Baltic and Russia to the Balkans, Turkey and Greece, eastern and central Europe to Ireland are continuing with commemorations regarding their specific memories in the wider Europe. Shared memorial spaces can act in post-conflict areas as sites of reconciliation; nonetheless, the peace cannot be taken for granted with insecurities, globalization and nationalisms in the USA and Russia, the UK's Brexit stress and populist movements in Western Europe, Visegrád and Balkan countries. Citizen fatigue is reflected in socio-political malaise mirrored in France's Yellow Vest movement and elsewhere. Empathy with other peoples' places of memory can assist citizens learn from the past. Memory sites promoted by the EU, Council of Europe and UNESCO may tend to homogenize local memories; nevertheless, they act as vectors in memorialization, stimulating debate and re-evaluating narratives. This textbook combines geographical, inter-cultural and inter-disciplinary approaches and perspectives on spaces of memory by a range of authors from different countries and traditions, offering the reader diverse and holistic perspectives on cultural geography, dynamic geopolitics, globalization and citizenship.

The New Book of Christian Martyrs Johnnie Moore, Jerry Pattengale, 2023-03 An inspiring keepsake that honors the heroic sacrifice of today's martyrs for the Christian faith and shows how their actions mirror the courage of a long line of brave Christians. In the twenty-first century we are witnessing an escalation in Christian persecution like we have rarely seen since

the first century Many people don't realize that today thousands of Christians are dying cruel deaths throughout much of the world There were in fact more martyrs in the last century than in all the previous Christian centuries combined Millions have given their lives since the fall of Rome and today tens of thousands die annually for their faith in Jesus Most of these modern stories are not legendary in fact many are unknown The New Book of Christian Martyrs commemorates those modern day heroes In this update to Foxe's Book of Martyrs Johnnie Moore and Jerry Pattengale highlight key martyrs of past centuries and feature stories of contemporary martyrs around the world Through tears Johnnie and Jerry offer this compendium of heroes from the first century to the twenty first century from Europe to Africa and from Asia to the Americas to inspire Christians around the globe Today we live in solidarity with them and in the next life we will rejoice by their side We will never forget their sacrifice for the truth

Not Even My Name Thea Halo, 2007-04-01 The harrowing story of the slaughter of two million Pontic Greeks and Armenians in Turkey after WWI comes to vivid life eloquent and powerful Publishers Weekly

Not Even My Name exposes the genocide carried out during and after WWI in Turkey which brought to a tragic end the 3000 year history of the Pontic Greeks named for the Pontic Mountain range below the Black Sea During this time almost 2 million Pontic Greeks and Armenians were slaughtered and millions of others were exiled Not Even My Name is the unforgettable story of Sano Halo's survival as told to her daughter Thea and of their trip to Turkey in search of Sano's home seventy years after her exile Sano Halo was a 10 year old girl when she was torn from her ancient pastoral way of life in the mountains and sent on a death march that annihilated her family Stripped of everything she had ever held dear even her name Sano was sold by her surrogate family into marriage when she was fifteen to a man three times her age Not Even My Name follows Sano's marriage the raising of her ten children in New York City and her transformation from an innocent girl to a nurturing mother and determined woman in twentieth century New York City An important and revealing book Library Journal What illuminates the writing is Halo's heartfelt love for her brave mother An unforgettable book Booklist

The Armenian Genocide Alan Whitehorn, 2015-05-26 With its analytical introductory essays more than 140 individual entries a historical timeline and primary documents this book provides an essential reference volume on the Armenian Genocide The Armenian Genocide has often been considered a template for subsequent genocides and is one of the first genocides of the 20th century As such it holds crucial historical significance and it is critically important that today's students understand this case study of inhumanity This book provides a much needed long overdue reference volume on the Armenian Genocide It begins with seven introductory analytical essays that provide a broad overview of the Armenian Genocide and then presents individual entries a historical timeline and a selection of documents This essential reference work covers all aspects of the Armenian Genocide including the causes phases and consequences It explores political and historical perspectives as well as the cultural aspects The carefully selected collection of perspective essays will inspire critical thinking and provide readers with insight into some of the most controversial and significant issues of the Armenian Genocide Similarly the primary source

documents are prefaced by thoughtful introductions that will provide the necessary context to help students understand the significance of the material

The Politics of Self-Determination Volker Prott, 2016-09-08 The Politics of Self-Determination examines the territorial restructuring of Europe between 1917 and 1923 when a radically new and highly fragile peace order was established. It opens with an exploration of the peace planning efforts of Great Britain, France, and the United States in the final phase of the First World War. It then provides an in-depth view on the practice of Allied border drawing at the Paris Peace Conference of 1919, focussing on a new factor in foreign policymaking: academic experts employed by the three Allied states to aid in peace planning and border drawing. This examination of the international level is juxtaposed with two case studies of disputed regions where the newly drawn borders caused ethnic violence, albeit with different results: the return of Alsace-Lorraine to France in 1918-19 and the Greek-Turkish War between 1919 and 1922. A final chapter investigates the approach of the League of Nations to territorial revisionism and minority rights, thereby assessing the chances and dangers of the Paris peace order over the course of the 1920s and 1930s. Volker Prott argues that at both the international and the local levels, the temptation of violence drove key actors to simplify the acclaimed principle of national self-determination and use ethnic definitions of national identity. While the Allies thus hoped to avoid uncomfortable decisions and painstaking efforts to establish an elusive popular will, local elites, administrations, and paramilitary leaders soon used ethnic notions of identity to mobilise popular support under the guise of international legitimacy. Henceforth, national self-determination ceased to be a tool of peace-making and instead became an ideology of violent resistance.

The Greek Genocide in American Naval War Diaries Savvas Koktzoglou, Robert Shenk, 2021-05-14 This book is a gripping collection of American naval war diaries recently found in the National Archives about what was happening on the northern coast of Turkey in 1921-1922. At the time, a series of American destroyers were continuously stationed at the port of Samsun, and the destroyer captains describe here many of the atrocities then being perpetrated upon the Asia Minor Greek minority by the ruling Nationalist Turks, along with local Greek reactions.

Population Displacements and Multiple Mobilities in the Late Ottoman Empire, 2023-05-25 The long-lasting Ottoman Empire was a theatre of armed conflict and human displacement. Whereas military victories in the early modern period enabled its territorial expansion and internal consolidation, the later centuries were shaped by military defeat and domestic turmoil, setting hundreds of thousands, sometimes even millions of people in motion. Spanning from Europe to Asia, the book reassesses these movements. Rather than adopting a teleological approach to the study of the Ottoman defeat, it connects late Ottoman history to wider dynamics, extending or challenging existing concepts and narratives.

Twice a Stranger Bruce Clark, 2006 In the dismantling of the Ottoman Empire following World War I, nearly two million citizens in Turkey and Greece were expelled from homelands. The Lausanne treaty resulted in the deportation of Orthodox Christians from Turkey to Greece and of Muslims from Greece to Turkey. The transfer was hailed as a solution to the problem of minorities who could not coexist. Both governments saw the exchange as a chance

to create societies of a single culture The opinions and feelings of those uprooted from their native soil were never solicited In an evocative book Bruce Clark draws on new archival research in Turkey and Greece as well as interviews with surviving participants to examine this unprecedented exercise in ethnic engineering He examines how the exchange was negotiated and how people on both sides came to terms with new lands and identities Politically the population exchange achieved its planners goals but the enormous human suffering left shattered legacies It colored relations between Turkey and Greece and has been invoked as a solution by advocates of ethnic separation from the Balkans to South Asia to the Middle East This thoughtful book is a timely reminder of the effects of grand policy on ordinary people and of the difficulties for modern nations in contested regions where people still identify strongly with their ethnic or religious community *The Education of an Anti-Imperialist* Richard Drake,2013-12-19 Robert M La Follette 1855 1925 the Republican senator from Wisconsin is best known as a key architect of American Progressivism and as a fiery advocate for liberal politics in the domestic sphere But Fighting Bob did not immediately come to a progressive stance on foreign affairs In *The Education of an Anti Imperialist* Richard Drake follows La Follette s growth as a critic of America s wars and the policies that led to them He began his political career with conventional Republican views of the era on foreign policy avidly supporting the Spanish American and Philippine American Wars La Follette s critique of empire emerged in 1910 during the first year of the Mexican Revolution as he began to perceive a Washington Wall Street alliance in the United States dealings with Mexico La Follette subsequently became Congress s foremost critic of Woodrow Wilson fiercely opposing United States involvement in World War I Denounced in the American press as the most dangerous man in the country he became hated and vilified by many but beloved and admired by others La Follette believed that financial imperialism and its necessary instrument militarism caused modern wars He contended they were twin evils that would have ruinous consequences for the United States and its citizens in the twentieth century and beyond An excellent book As Drake fully documents La Follette s warnings about World War I profiteers and the lust for power were fully justified Then as now the American people were lied to by the government and media and manipulated into the stink and blood of war Mark Taylor *The Daily Call* Scholars will value the insights into La Follette s foreign policy education *The Historian* **Cities Into Battlefields** Stefan Goebel,Derek Keene,2011-01-01 This book explores the cultural imprint of military conflict on metropolises worldwide in the First and Second World Wars It brings together cultural and urban historians and scholars of anthropology education geography and urban planning and examines how the emergence of total warfare blurred the boundaries between home and front and transformed cities into battlefields The central contention of this volume that total war in the twentieth century has a significant but often overlooked metropolitan dimension is addressed filling a gap in the currently available literature **The Amusement Park** Jason Wood,2017-01-20 Jason Wood is Director of Heritage Consultancy Services Lancaster UK and former Professor of Cultural Heritage at Leeds Metropolitan University UK **Twentieth-Century War and Conflict** Gordon

Martel, 2014-07-28 TWENTIETH CENTURY WAR AND CONFLICT With rich entries that highlight the political context strategic significance and tactical detail of each conflict this encyclopedia is an essential reference for students of military history and strategic studies Theo Farrell King's College London Drawn from the award winning five volume Encyclopedia of War Choice Outstanding Academic Title 2013 the single volume Twentieth Century War and Conflict provides an essential guide to the conflicts and concepts that shaped warfare in the twentieth century and up to the present day This concise reference contains a range of entries from 1 000 to 6 000 words long each written by a leading international scholar This concise encyclopedia provides full coverage of global conflicts and themes in twentieth century war World Wars I and II are covered by 10 separate entries Lesser conflicts are also incorporated in this volume including the Russo Japanese War the Greco Turkish War the Falklands War the Soviet War in Afghanistan the Gulf Wars and more Issues such as chemical warfare ethnic cleansing psychological warfare and women and war also receive substantial treatment making this an invaluable resource for students and general readers alike

Yeah, reviewing a books **Smyrna 1922 The Destruction Of A City** could go to your close friends listings. This is just one of the solutions for you to be successful. As understood, expertise does not recommend that you have fabulous points.

Comprehending as well as union even more than supplementary will have enough money each success. next-door to, the statement as with ease as insight of this Smyrna 1922 The Destruction Of A City can be taken as competently as picked to act.
