permeated the entire social fabric Supermarkets and shopping malls must be interpreted in the light of their ritual significance as temples and holy cities of a new symbolic order In the consumeristic era many people are led to think and imagine in consumer terms to identify themselves through consumption rituals The impact of consumerism on culture from literature to art should not be underestimated Many artists have tried to develop their aesthetics by triggering a dialectical or openly critical confrontation with consumerism This book also takes into account the development of violence and the effects of consumerism on childhood and new generations The book contains a preface by the German anthropologist Christoph Wulf and the images illustrating the text are by Belgian artist Michel Couturier
