Political Philosophy: All That

Matters Johanna Oksala, 2013-08-30 What is political philosophy A philosophical study of political ideas such as authority freedom justice and democracy An inquiry into the best form of government An attempt to rationally justify forms of authority Johanna Oksala asks exactly these questions as she opens this brilliant new guide to political philosophy Rather than attempting to provide the reader with a definite answer the book invites readers to recognize many of the issues encountered in everyday life as political the outcome of human practices that incorporate power relations social norms and obligations It suggests that political philosophy should be understood as an open ended critical project that to some extent concerns everyone The book employs an original structure which will be a huge help to both students and general readers seeking to understand the topic Each chapter which moves chronologically from antiquity to the twentieth century focuses on selected classic texts in political philosophy which are briefly introduced and analysed The texts then function as a springboard for a discussion of central contemporary issues in political philosophy

The Cambridge Companion to Liberalism Steven Wall, 2015-02-19 An expert survey of liberal approaches and liberal responses to diverse topics and controversies in contemporary political thought and practice

Ethics Harry J. Gensler, 2011 *Contemporary Introduction to Sociology* Jeffrey C. Alexander, Kenneth Thompson, Laura Desfor Edles, 2016-01-08 The first edition of A Contemporary Introduction to Sociology was the first truly new introductory sociology textbook in decades Written by two leading sociologists at the cutting edge of theory and research the text reflected the idioms and interests of contemporary American life and global social issues The second edition continues to invite students to reflect upon their lives within the context of the combustible leap from modern to postmodern life The authors show how culture is central to understanding many world problems as they challenge readers to confront the risks and potentialities of a postmodern era in which the futures of both the physical and social environment seem uncertain As culture rapidly changes in the 21st century the authors have broadened their analysis to cover developments in social media and new data on gender and transgender issues

Political Philosophy Anthony C. Patton, 2017-11-10

Theories of Distributive Justice Jeppe Platz, 2020-02-14 How should we design our economic systems Should we tax the rich at a higher rate than the poor Should we have a minimum wage Should the state provide healthcare for all These and many related questions are the subject of distributive justice and different theories of distributive justice provide different ways to think about and answer such questions This book provides a thorough introduction to the main theories of distributive justice and reveals the underlying sources of our disagreements about economic policy It argues that the universe of theories of distributive justice is surprisingly simple yet complicated It is simple in that the main theories of distributive justice are just four in number and in that these theories each offer a distinct well defined theoretical approach to distributive justice yet it is complicated in that the main theories disagree at several distinct fundamental levels and in that it is possible to spin innumerable new theories from the elements of the four main theories

Key Features Covers the four major theories of distributive justice and their leading philosophers elucidating the

attractions and drawbacks of each Friedrich A von Hayek and right liberalism John Rawls and left liberalism Robert Nozick and libertarianism Gerald A Cohen and socialism Explains why these four theories have come to dominate most philosophical discussions on distributive justice highlighting the essential answer provided in each that is lacking in other theories Written for any reader interested in the topic with an annotated reading list at the end of each chapter and helpful glossary at the back of the book **African Women's Liberating Philosophies, Theologies, and Ethics** Beatrice Okyere-Manu, Léocadie

Lushombo, 2024-05-02 This volume explores the ethical and philosophical paradigms presented by most of the influential Matriarchs of the Circle of African Women Theologians It critically evaluates the effectiveness of their ethical and philosophical theories models and frameworks in pursuing justice and liberation for women in Africa and globally The authors address critical questions How have African women theologians reimaged existing ethical paradigms What original ethical and philosophical ideas have they generated How have their ethical frameworks influenced the theologies and interpretations they have developed What purposes do their ethical and philosophical paradigms serve How do these renderings intersect with various social categories including gender race class sexuality capitalism and colonialism What liberating frameworks do they propose The volume further explores the dialogue between distinct African contexts and universal experiences and values It explores how universal themes such as humanity human dignity rights justice motherhood and more can coexist with communal African concepts and themes It contemplates how embracing African approaches engages these themes more globally bringing together particular African contexts of women and the universal ethical philosophical and theological theories models and frameworks to advance the cause of justice and liberation for African women and women worldwide into the future **Freedom After the Critique of Foundations A.**

Kioupkiolis, 2012-07-25 An exploration of the contemporary re conception of freedom after the critique of objective truths and ideas of an unchanging human nature in which modern self determination was grounded This book focuses on the radical theorist Cornelius Castoriadis and the new paradigm of agonistic autonomy is contrasted with Marxian and liberal approaches *Positive Freedom* John Philip Christman, 2022
