but at the same time underlines the fact that in Senghor's words Negritude is a myth and therefore has to do with the construction of an identity and is the expression of an imaginary creation. It envisaged for example the creation of an African form of socialism within a unique interpretation of Marxism. In this volume African and Caribbean writers who are concerned with contemporary issues demonstrate the vitality of Negritude as a poetic philosophical and literary movement and as an ideological response to oppression that is still relevant in its presentation of cultures. Clearly it is necessary to go beyond the notion of race implied in the term and to focus on the cultural philosophical and aesthetic elements in order to appreciate the relevance of Negritude today. Most notably in the Caribbean or Brazil Negritude has been transformed into original ideological and aesthetic projects.

Les Industries lithiques taillées de Franchthi (Argolide, Grèce), Volume 3 Catherine Perlès, 2018-10-26 This fascicle is the thirteenth in the series of Level One publications of the excavations at Franchthi Cave and is the third and final installment of the report on the site's chipped stone industries. The objective of Catherine Perlès's study is to make sense of the chronology of the site in its economic technological and typological dimensions. All phases of the Neolithic are represented at Franchthi Cave. Rich with more than 3 000 reconstructed pieces, this study offers a representative and technical typology that is unequalled today. The first part of the analysis offers diagnostic elements to facilitate comparisons between the lithic sequence and surface dating and is more descriptive than interpretive. The second part is dedicated to a step by step analysis of the Franchthi material in a well defined chrono stratigraphical framework. The third and most interpretive portion of the study addresses itself more specifically to those who are interested in the socio economic organizational problems of Neolithic societies. Politique et Société en Sicile, XIIe-XVe Siècles Henri Bresc, 2024-10-28 In the 12th century under its Norman rulers Sicily stood as one of the most flourishing regions of the Mediterranean. By the late 15th century it had sunk into the state of semi colonial depression and dependence that has characterized so much of its modern history. It is this transformation a process of socio economic change that went hand in hand with political turmoil that forms the subject of this volume. Henri Bresc approaches this both from the viewpoint of particular topics such as the notarial class or the tiny island of Pantelleria and that of larger themes. One of these is the composition of Sicily's population. These articles trace the deteriorating status of the Arabs and Greeks on the island the demographic circumstances that brought in new immigrants notably Albanians but also corsairs and the emergence of a society now dominated by its Latin and Italian components. Other articles contrast the intensive suburban agriculture with the empty spaces of the large estates and throw light on the development of a new landowning structure based on these estates which were given over to cereals grown for export in order to meet the financial demands of the long conflict with the

Angevins Au 12^e siècle sous le règne de rois normands la Sicile était une des régions les plus prospères de la Méditerranée. À la fin du 15^e siècle elle avait sombré dans l'état de dépendance semi coloniale qui est devenu la marque d'une grande partie de son histoire moderne. Cette transformation, un processus de changement socio économique accompagné de bouleversements politiques, forme le sujet de cet ouvrage. L'approche d'Henri Bresc se fait à deux niveaux selon l'angle de sujets spécifiques tels la classe notariale ou encore la minuscule île de Pantelleria et, partant de thèmes plus vastes, parmi ces derniers se trouve la composition de la population sicilienne. Ces articles retracent la détérioration du
