Sources Of Law Legal Change And Ambiguity:

Sources of Law, Legal Change, and Ambiguity Alan Watson, 2016-12-09 Why is the law notoriously unclear arcane slow to change in the face of changing circumstances In this sweeping comparative analysis of the lawmaking process from ancient Rome to the present day Alan Watson argues that the answer has largely to do with the mixed ancestry of modern law the confusion of sources custom legislation scholarly writing and judicial precedent from which it derives **Legal**

Origins and Legal Change Alan Watson, 1991-01-01 [Encyclopedia of Historians and Historical Writing](#) Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **The**

Boundaries of Meaning and the Formation of Law Sharron Gu, 2006-04-18 Gu's original perspective on legal history challenges established theories of law based on political science sociology and philosophy She argues that language at a specific time and place determines how the law works in each culture As each language accumulates too many meanings and connotations the law becomes inflated by rulings interpretations and codified cases that overlap and contradict one another

Legal Reform in the Contemporary Socialist World Ngoc Son Bui, 2024-08-12 Legal Reform in the Contemporary Socialist World explores four decades of legal reform in the socialist countries of China Vietnam Laos North Korea and Cuba from a comparative perspective Spanning the late 1970s to the present it examines various projects methods strategies contents driving forces and limitations of legislative reform administrative reform judicial reform and reform of the legal profession Legal reform in these countries is the project of the political elite to improve the legal system while retaining its core socialist principles It is carried out through legislative enactments amendments and replacements which the political elite adopt using incremental strategies to reform the legal system sporadically or systematically Socialist legal reform is animated by the political aspiration to create the rule of law the impact of social economic change and the influence of transnational and comparative law Despite significant reforms the socialist principles of the legal systems in these countries largely remain intact This legal reform however varies considerably by country Legal Reform in the Contemporary Socialist World offers a holistic view of understudied jurisdictions in comparative law essential for anyone studying or working in these areas in law politics or policy **Living Law** Roger Cotterrell, 2017-07-05 Living Law presents a comprehensive overview of relationships between legal and social theory and of current approaches to the sociological study of legal ideas It explores the nature of

legal theory and sociolegal studies today as teaching and research fields and the work of many of the major sociolegal theorists In addition it sets out the author's distinctive approach to sociological analysis of law applying this in a range of studies in specific legal fields such as the law of contract property and trusts constitutional analysis and comparative law

Regulating International Sport Lloyd Freeburn, 2018-08-07 In a fresh and original account Lloyd Freeburn challenges the conventional conception of contracts as the consent based legal foundation of international sports law The prevailing legal orthodoxy is shown to be untenable failing to explain or justify international sports governing bodies regulatory power or their control over the livelihoods and liberty of participants in sport The non consensual jurisdiction of the Court of Arbitration for Sport is similarly tainted But this significant challenge is not made simply to undermine international sport's regulatory regime A sound legal foundation for regulatory authority in sport is both desirable and necessary Consequently effective reform is urgently required to support the regime's legality and to give it legitimacy by resolving the regime's democratic deficit

Vagueness in Normative Texts Vijay K. Bhatia, 2005 Normative texts are meant to be highly impersonal and decontextualised yet at the same time they also deal with a range of human behaviour that is difficult to predict which means they have to have a very high degree of determinacy on the one hand and all inclusiveness on the other This poses a dilemma for the writer and interpreter of normative texts The author of such texts must be determinate and vague at the same time depending upon to what extent he or she can predict every conceivable contingency that may arise in the application of what he or she writes The papers in this volume discuss important legal and linguistic aspects relating to the use of vagueness in legal drafting and demonstrate why such aspects are critical to our understanding of the way normative texts function

Diversity and Tolerance in Socio-Legal Contexts Vijay K. Bhatia, 2016-05-23 Why is there so much resistance to recent issues of tolerance and diversity Despite efforts of the international community to encourage open mindedness recent attempts at international political and economic integration have shown that religious cultural and ethnic tolerance and diversity remain under threat The contributions in the volume reflect the growing importance of these issues and why resistance is so widespread Part I addresses the relationship between the language of law and its power whilst Part II explores the interplay of tolerance and diversity under various legislative and interpretative perspectives This collection as a whole offers a combination of varied perspectives on the analysis application and exploitation of laws and will be a valuable source of information for those interested in the general area of language and the law

Legal Hermeneutics Gregory Leyh, 2023-09-01 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992
