American Folklife Center, 1977 *From Sacrament to Contract, Second Edition* John Witte Jr., 2012-01-31 This newly revised and enlarged edition of John Witte's authoritative historical study explores the interplay of law, theology, and marriage in the Western tradition. Witte uncovers the core beliefs that formed the theological genetic code of Western marriage and family law. He explores the systematic models of marriage developed by Catholics, Lutherans, Calvinists, Anglicans, and Enlightenment thinkers and the transformative influence of each model on Western marriage law. In addition, he traces the millennium-long reduction of marriage from a complex spiritual, social, contractual, and natural institution into a simple private contract with freedom of entrance, exercise, and exit for husband and wife alike. This second edition updates and expands each chapter and the bibliography. It also includes three new chapters on classical biblical and patristic sources.

Experiencing Philosophy - Second Edition Anthony Falikowski, Susan Mills, 2022-11-22 Experiencing Philosophy begins with the assumption that philosophy is not merely something you know but also something you experience and participate in. The book presents philosophical theories and ideas with reference to their practical relevance to the lives of student readers. To this end, a number of engaging features and inserts are provided. Original Sources: Numerous primary readings are included, introducing students directly to the philosophical work of diverse thinkers ranging from Plato to Martin Luther King Jr. Each reading is thoughtfully excerpted and is followed by reflective questions. Philosopher Profiles: Abstract ideas are connected to the lives of real historical figures through fascinating biographical profiles. Take It Personally: To illustrate how philosophy can be useful and relevant, each chapter begins by placing the material in a personal context. Know Thyself Diagnostics: This book takes seriously, as did Socrates, the Delphic Oracle's dictum to know thyself. Students are given self-diagnostics to explore their own philosophical values, ideals, and beliefs. Philosophers in Action: Philosophy is something you do, not just something you know. Prompts are provided throughout the text, inviting students to conduct thought experiments, analyze concepts, and discuss and debate controversial points. Thinking about Your Thinking: These metacognitive prompts require students to engage in higher-order thinking, not only about the presented readings and ideas but also with respect to their own values, assumptions, and beliefs. Plus: Built-in study guides, diagrams, famous philosophical quotations, comics, feature boxes, and more.

Aboriginal Customary Law: A Source of Common Law Title to Land Ulla Secher, 2014-12-01 Described as ground-breaking in Kent

McNeil's Foreword this book develops an alternative approach to conventional Aboriginal title doctrine. It explains that aboriginal customary law can be a source of common law title to land in former British colonies whether they were acquired by settlement or by conquest or cession from another colonising power. The doctrine of Common Law Aboriginal Customary Title provides a coherent approach to the source, content, proof and protection of Aboriginal land rights which overcomes problems arising from the law as currently understood and leads to more just results. The doctrine's applicability in Australia, Canada and South Africa is specifically demonstrated. While the jurisprudential underpinnings for the doctrine are consistent with fundamental common law principles, the author explains that the Australian High Court's decision in *Mabo* provides a broader basis for the doctrine, a broader basis which is consistent with a re-evaluation of case law from former British colonies in Africa as well as from the United States, New Zealand and Canada. In this context, the book proffers a reconceptualisation of the Crown's title to land in former colonies and a reassessment of conventional doctrines including the doctrine of tenure and the doctrine of continuity. With rare exceptions, the existing literature does not probe as deeply or question fundamental assumptions as thoroughly as Dr Secher does in her research. She goes to the root of the conceptual problems around the legal nature of Indigenous land rights and their vulnerability to extinguishment in the former colonial empire of the Crown. This book is a formidable contribution that I expect will be influential in shifting legal thinking on Indigenous land rights in progressive new directions.
