Southeast Asia Donald E. Weatherbee, 2009 This balanced comprehensive guide to Southeast Asian politics offers a sensible but nondogmatic realist approach to the region's international relations In this revised second edition Donald E Weatherbee lucidly explains the dynamics of the Southeast Asian subsystem as a struggle for autonomy in pursuit of national interests He explores three important questions the answers to which will shape the future Southeast Asia Will democratic regimes transform international relations in Southeast Asia Will national leaders succeed in reinventing ASEAN as a more effective collaborative mechanism Finally how will the evolving Chinese position balancing and perhaps displacing the United States as Asia's great power affect Southeast Asia's struggle for autonomy **Southeast Asia (Routledge Revivals)** Jonathan

Rigg, 2013-09-13 **Southeast Asia A Region in Transition** first published in 1991 is a contemporary human geography of the market economies of the region usually defined by membership of the Association of Southeast Asian Nations ASEAN. Organized thematically the chapters deal with the environment and development plural societies agrarian change and urbanization. This thematic approach provides a comprehensive picture of the ASEAN countries and gives a depth of coverage often lacking in other regional geographies. With a detailed introduction dealing with the physical environment and history of the region this work will be of great value to students studying the human geography of Southeast Asia as well as those with a more general interest in the issues and developments affecting the ASEAN region. **Southeast Asia** United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on East Asian and Pacific Affairs, 1980. **ASEAN and the Responsibility to Protect** Thida Chanthima Neth, 2024-11-13 This book adopts a sociolegal and interdisciplinary approach to examine how the Responsibility to Protect R2P has been understood within the Association of Southeast Asian Nations ASEAN. Historically the international community has struggled to effectively address humanitarian crises worldwide. The concept of the Responsibility to Protect R2P has emerged over the past two decades as a principle that could guide states efforts to prevent and respond to humanitarian crises. However R2P's interpretation varies across different regions and it remains to be established whether it can successfully achieve its goals. This book adopts an interdisciplinary approach to analyse how R2P has been perceived and applied within the Association of Southeast Asian Nations ASEAN and China. In particular it explores ASEAN's ASEAN member states and China's understanding and implementation of R2P paying special attention to the 1999 East Timor crisis the Rohingya crisis and the West Papua conflict. The book assesses whether R2P has influenced the actions of ASEAN its member states and China. At a broader level the book also explores regional approaches to international law shedding light on Southeast Asian states perspectives on this aspect of global governance. This book will be of much interest to students of Responsibility to Protect Asian politics human rights international law and International Relations in general. **Reconfiguration of the Global South** Eckart Woertz, 2016-10-04 Since the 1980s there has been a steady shift from West to East in the international system economically politically and culturally. Emerging markets in Asia have moved up the value chain of industrial production processes while the share of Western industrialized countries in global gross domestic product has declined. Countries such as China and India are asserting themselves in security matters and seeking new avenues for investment flows and development co operation. China's expected shift from export led growth to domestic consumption might further change patterns of trade and capital flows and it is an open debate whether the growth dynamics of India might outstrip those of China. While the rise of China and other Asian powers has been studied extensively much less work has been done on how Africa and Latin America position themselves in this process. What will the role be of Africa and Latin America in the Asian Century and associated reconfigurations of global value chains. Will these regions be able to assert themselves and find a voice of their own. Will they manage to develop industries of their own and

diversify trade relations Will they launch new ways of regional south south co operation What is the role of migrant communities and cultural exchange Do Western and Asian approaches to these regions differ Washington vs Beijing consensus This book brings together renowned academics from Africa Latin America Europe and the USA who bring refreshing perspectives on an under researched topic ranging from a conceptualization of the issue within new theoretical approaches to unique case studies based on field work ASEAN and the Diplomacy of Accommodation Michael Antolik, 2020-07-24 This book studies the activities undertaken by the ASEAN states and reflects the inspiration and support of many individuals The ASEAN phenomenon is about the successful consultative process the accommodation that these states used in managing tensions and dealing with external environments
