Southern Front History And Politics In The Cultural War

John Hope Franklin, Loren Schweninger

Southern Front History And Politics In The Cultural War:

In the Image of God David Brion Davis, Sterling Professor of History and Director of the Gilder Lehrman Center for the Study of Slavery Resistance and Abolition David Brion Davis, 2001-01-01 In this broad ranging book the preeminent authority on the history of slavery meditates on the origins experience and legacy of this peculiar institution David Brion Davis begins with a substantial and highly personal introduction in which he discusses some of the major ideas and individuals that have shaped his approach to history He then presents a series of interlocking essays that cover topics including slave resistance the historical construction of race and the connections between the abolitionist movement and the struggle for women's rights The book also includes essays on such major figures as Reinhold Niebuhr and Martin Luther King Jr as well as appreciations of two of the finest historians of the twentieth century C Vann Woodward and Eugene D Genovese Gathered together for the first time these essays present the major intellectual historical and moral issues essential to the study of New World slavery and its devastating legacy Book jacket

Runaway Slaves John Hope Franklin, Loren Schweninger, 2000-07-20 This new bold precedent setting study conclusively demonstrates that contrary to popular belief significant numbers of slaves did quite frequently rebel against their masters and struggled to attain their freedom By surveying a wealth of documents such as planters records petitions to county courts and state legislatures and local newspapers the book shows readers how slaves resisted when where and how they escaped where they fled to how long they remained in hiding and how they survived away from the plantation Of equal importance it also examines the reactions of the white slaveholding class revealing how they marshaled considerable effort to prevent runaways meted out severe punishments and established patrols to hunt down escaped slaves Reflecting a lifetime of thought by one of our leading authorities on African American history *Runaway Slaves* illuminates as never before the true nature of that most peculiar institution of the South

Radical Conversion Christopher M. Duncan, 2021-07-13 *Radical Conversion* utilizes both analytic and normative philosophic theoretical frameworks to study the relationship between Christian Catholic conceptualizations of politics citizenship faith and religion as viewed through a quasi theological lens The work is situated in the context of the American liberal tradition and in conversation and debate with the public philosophy that attempts to sustain it and provide a rationale for its perpetuation In a single sentence the book's thesis is that for America to fully realize its authentic and unique moral and political mission and secure it into the future it will need to become both more Catholic and more catholic Concordantly that mission properly understood is nothing less than the recognition and protection of the idea of the sacredness of every individual human person and their right to flourish and realize the fullness of their particular vocation as a child of God

Unitarianism in the Antebellum South John Allen Macaulay, 2016-07-15 Macaulay challenges the prevailing belief that religion in the south developed solely through revivalistic emotion and not by religious rationalism

The Last Generation Peter S. Carmichael, 2015-12-01 Challenging the popular conception of Southern youth on the eve

of the Civil War as intellectually lazy violent and dissipated Peter S Carmichael looks closely at the lives of more than one hundred young white men from Virginia's last generation to grow up with the institution of slavery He finds them deeply engaged in the political economic and cultural forces of their time Age he concludes created special concerns for young men who spent their formative years in the 1850s Before the Civil War these young men thought long and hard about Virginia's place as a progressive slave society They vigorously lobbied for disunion despite opposition from their elders then served as officers in the Army of Northern Virginia as frontline negotiators with the nonslaveholding rank and file After the war however they quickly shed their Confederate radicalism to pursue the political goals of home rule and New South economic development and reconciliation Not until the turn of the century when these men were nearing the ends of their lives did the mythmaking and storytelling begin and members of the last generation recast themselves once more as unreconstructed Rebels By examining the lives of members of this generation on personal as well as generational and cultural levels Carmichael sheds new light on the formation and reformation of Southern identity during the turbulent last half of the nineteenth century

Minorities and Reconstructive Coalitions Willie Gin, 2017-07-06 As with Muslims today Catholics were once suspected of being antidemocratic oppressive of women and supportive of extremist political violence By the end of the twentieth century Catholics were considered normal and sometimes valorized as exemplary citizens Can other ethnic racial and religious minorities follow the same path *Minorities and Reconstructive Coalitions* provides an answer by comparing the stories of ethnic Catholics political incorporation in Australia Canada and the United States Through comparative and historical analysis the book shows that reconstructive coalitions such as labor and pan Christian moral movements can bring Catholics and Protestants together under new identities significantly improving Catholic standing Not all coalitions are reconstructive or successful and institutional structures such as regional autonomy can enhance or inhibit the formation of these coalitions The book provides overviews of the history of Catholics in the three countries reorients the historiography of Catholic incorporation in the United States uncovers the phenomenon of minority overrepresentation in politics and advances unique arguments about the impact of coalitions on minority politics

Slavery, Religion, and Race in Antebellum Missouri Kevin D. Butler, 2023-01-09 Antebellum Missouri's location at the intersection of North South and West makes it a location that allows one to examine regionalism in the United States in one location since Missouri contained characteristics of each region Missouri also provides a view of how religion functioned for people in the antebellum United States The institution of slavery transformed evangelical Christianity in the South from an influence with potential to erode slavery into an institution that was a bulwark for slavery For African Americans religion constituted part of their cultural resistance against the dehumanization of slavery Through conjure their traditional religion they sought control over their own lives and practical tools to aid them with everyday issues Christianity also provided control over their destiny and a belief system that in their hands affirmed the sinfulness of slavery and confirmed that it was their right and their destiny to be free

War and

Revolution Domenico Losurdo, 2015-02-03 War and Revolution identifies and takes to task a reactionary trend among contemporary historians one that's grown increasingly apparent in recent years. It's a revisionist tendency discernible in the work of authors such as Ernst Nolte who traces the impetus behind the Holocaust to the excesses of the Russian Revolution or François Furet who links the Stalinist purges to an illness originating with the French Revolution. The intention of these revisionists is to eradicate the revolutionary tradition. Their true motives have little to do with the quest for a greater understanding of the past but lie in the climate of the present day and the ideological needs of the political classes as is most clearly seen now in the work of the Anglophone imperial revivalists Paul Johnson and Niall Ferguson. In this vigorous riposte to those who would denigrate the history of emancipatory struggle, Losurdo captivates the reader with a tour de force account of modern revolt providing a new perspective on the English, American, French, and twentieth-century revolutions.

I May Not Get There with You Michael Eric Dyson, 2000 A private citizen who transformed the world around him, Martin Luther King Jr. was arguably the greatest American who ever lived. Now, after more than thirty years, few people understand how truly radical he was. In this groundbreaking examination of the man and his legacy, provocative author, lecturer, and professor Michael Eric Dyson restores King's true vitality and complexity and challenges us to embrace the very contradictions that make King relevant in today's world.

Fears and Fascinations Thomas Fredrick Haddox, 2005 Looking at the works of diverse writers as the *gens de couleur libre* poets of antebellum New Orleans, this book focuses on the shifting and contradictory ways Catholicism has signified within southern literature and culture. It contributes to a more nuanced understanding of American and southern literary and cultural history.

The Enigmatic Realm of **Southern Front History And Politics In The Cultural War**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Southern Front History And Politics In The Cultural War** a literary masterpiece penned by way of a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of people who partake in its reading experience.
