Charles Barron McIntosh has devoted a lifetime of scholarship to the history of human activity on Nebraska s Sand Hills the spare beautiful land that occupies much of western Nebraska From carefully deciphering Native American occupancy through rigorous analysis of thousands of arrowheads to patiently combing through decades of courthouse land title transaction records McIntosh has mastered the sweep of centuries of human interaction with the land We learn how the land shapes humankind far more than pride would have us believe and we see that perhaps our real success lies in learning how to live with the land rather than attempting to master it The Nebraska Sand Hills reflects McIntosh s lifetime of learning reading questioning analyzing in short everything it means to be a scholar seldom are these efforts so well demonstrated His affection for this unique landscape is present on every page **Surface Water Records of Kansas** ,1962 **Spirit Leveling in Missouri, 1896-1938** John George Staack,1938 **Geological Survey Bulletin** ,1973 *Geological Survey Water-supply Paper* Geological Survey (U.S.),1969 **Spirit Leveling in Missouri: (Ch.
