Soviet and Chinese Communism Donald W. Treadgold, 1967 Ruling Communist Parties and Their Status Under Law Dietrich André Loeber, 1986-11-18 This is the first treatise on Russia's new legal system as it emerged from the dissolution of the Soviet Union. The first part of the book analyses in detail the political economic origins of perestroika indispensable for understanding the basic parameters of the evolution of Russian law. In the following chapters all major legal subjects are discussed against the background of their Soviet past as the result of the radical changes in the political social economic make up of the country. The appendices include the texts of the U S S R Russian Constitutions the Agreement of Minsk The Russian Federation Treaty bibliographical sources extensive indices of Soviet Russian legislation. The book has been written for legal practitioners comparative lawyers students of Russian law but will also be of interest to a wider audience of political scientists journalists etc *The Ideological Origins of Great Power Politics, 1789-1989* Mark L. Haas, 2018-09-05 How do leaders perceive threat levels in world politics and what effects do those perceptions have on policy choices? Mark L. Haas focuses on how ideology shapes perception. He does not delineate the content of particular ideologies but rather the degree of difference among them. Degree of ideological difference is he believes the crucial factor as leaders decide which nations threaten and which bolster their state's security and their own domestic power. These threat perceptions will in turn impel leaders to make particular foreign policy choices. Haas examines great power relations in five periods: the 1790s in Europe the Concert of Europe 1815-1848 the 1930s in Europe Sino-Soviet relations from 1949 to 1960 and the end of the Cold War. In each case he finds a clear relationship between the degree of ideological differences that divided state leaders and those leaders' perceptions of threat level and so of appropriate foreign policy choices. These relationships held in most cases regardless of the nature of the ideologies in question the offense-defense balance and changes in the international distribution of power **The Chinese Communist Treatment of Counterrevolutionaries, 1924-1949** Patricia E. Griffin, 2015-03-08 During the period 1924-1949 amid civil war with the KMT war with the Japanese internal leadership disputes and other chaotic conditions rapid shifts occurred in the political culture of China. Patricia Griffin contends that an understanding of how the Chinese Communists created a legal system at this time is essential to a grasp of more recent events. Focusing on the Communists' definition and treatment of counterrevolutionaries she describes and assesses the contribution of environment ideology and leadership in the development of legal techniques used by the Communists in their rise to power. In this book translations of the major statutes concerning counterrevolutionaries during the period together with an account of the growth of counterrevolutionary law and the legal structure explain how the counterrevolutionaries were dealt with and how their treatment changed in response to external and internal stimuli. The author analyzes the roles of ideology and experience as determinants of law toward counterrevolutionaries and in a final chapter discusses the implications of the early experience for future legal developments in China. Her topic is of vital

importance because of the politically sensitive nature of the subject matter and because of the time period examined Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Chinese Models of Development Tse-Kang Leng, Yu-Shan Wu, 2014-11-20 Discussion of the Chinese Model abounds with the rise of China This volume analyzes the Chinese case in a theoretical framework provides an evolutionary perspective and compares it with other models of development Instead of focusing on one specific case the book's contributors shed light on the application of theories of international relations comparative politics and development studies to the topic under deliberation This book reflects that the uniqueness of the Chinese model should also be put in an historical and evolutionary context It also provides insights into comparisons with other models of development such as the East Asian model and experiences of the former Soviet Union The authors in the book argue that while globalization constrains state power it may also open new windows of accommodation and adjustments Linkages between the domestic dynamics of development and external forces of change become pertinent in understanding the Chinese models of development
