Hinman, 2000-12-15 An outstanding research guide for undergraduate students of American literature this best selling book is essential when it comes to researching American authors Bracken and Hinman identify and describe the best and most current sources both in print and online for nearly 300 American writers whose works are included in the most frequently used literary anthologies Students will know exactly what information is available and where to find it      Faulkner in the Eighties John Earl Bassett, 1991 This bibliography brings up through 1989 the comprehensive listing of scholarship and criticism on William Faulkner begun by Bassett in two earlier books William Faulkner An Annotated Checklist of Criticism 1972 and Faulkner An Annotated Checklist of Recent Criticism 1983 Since the latter over a hundred books on Faulkner have been completed along with hundreds of articles and dissertations This work lists all new items often with extensive annotations and provides separate entries for chapters of books that cover individual novels and stories Bassett's introductory essay provides an overview of the last decade of Faulkner studies the first in which post structuralist and other newer forms of criticism had a major impact on Faulkner studies      **Humanities**, 1991      The William Faulkner Collection at West Point and the Faulkner Concordances United States Military Academy. Abadie, 2009-09-18 In 1952 Faulkner noted the exceptional nature of the South when he characterized it as the only really authentic region in the United States because a deep indestructible bond still exists between man and his environment The essays collected in Faulkner and the Ecology of the South explore Faulkner's environmental imagination seeking what Ann Fisher Wirth calls the ecological counter melody of his texts Ecology was not a term in common use outside the sciences in Faulkner's time However the word environment seems to have held deep meaning for Faulkner Often he repeated his abiding interest in man in conflict with himself with his fellow man or with his time and place his environment Eco criticism has led to a renewed interest among literary scholars for what in this volume Cecelia Tichi calls humanness within congeries of habitats and environments Philip Weinstein draws on Pierre Bourdieu's notion of habitus Eric Anderson argues that Faulkner's fiction has much to do with ecology in the sense that his work often examines the ways in which human communities interact with the natural world and Francois Pitavy sees Faulkner's wilderness as unnatural in the ways it represents reflections of man's longings and frustrations Throughout these essays scholars illuminate in fresh ways the precarious ecosystem of Yoknapatawpha County      William Faulkner Thomas L.
