Liturgy, Theurgy, and Active Participation Kjetil Kringlebotten,2023-09-08 Providing a metaphysical grounding for liturgical participation this book argues that active participation in the liturgy must be understood principally as our participation in God s act particularly in the act of Christ and only secondarily as our ritual involvement Utilizing Neoplatonist philosophy Kjetil Kringlebotten proposes that this should be understood in terms of theurgy which is the human participation in divine action which finds its consummation in the incarnation of Christ Without the incarnation all acts will remain extrinsic and imposed but acts can become real and intrinsic precisely because the incarnation makes possible true union with the divine a metaphysical union in distinction without confusion because this union is not extrinsic Through union with Christ as the one common focus of the divine human relation we can have true union with God and may offer true worship In order to make sense of active participation then we need to understand theology in theurgic terms where theurgy is understood not as a mechanical coercion of God but as a participation in His act in creation and through Christ as the true theurgist the master theurgist Whose work transforms our act and the liturgy
