The Six Great Humanistic Essays of John Stuart Mill John Stuart Mill, 1969 **THE SIX GREAT HUMANISTIC ESSAYS OF JOHN STUART MILL. WITH AN INTRODUCTION BY ALBERT WILLIAM LEVI.** John Stuart Mill, 1969

John Stuart Mill : Six great humanistic essays A.W. Levi (intro), 1963 **Persuasion after Rhetoric in the Eighteenth Century and Romanticism** Yasmin Solomonescu, Stefan H. Uhlig, 2024-07-18 While the question of how rhetoric lost authority to modern philosophical and scientific inquiry has drawn much scrutiny we have paid less attention to how values that were once bound up with rhetoric were rearticulated after its demise This volume explores how persuasion ceased to be the seemingly self evident objective of rhetoric and became instead a variable and substantive focus for discussion in its own right After rhetoric ceded much of its centrality to logic and empirical procedures the significance and implications of persuasion were the subject of renewed attention in a range of different fields including philosophy law poetry novels botany cultural criticism historiography political thought and public lecturing *Persuasion after Rhetoric in the Eighteenth Century and Romanticism* maps how values of persuasion were adapted and diversified in ways that still resonate with current arguments about conviction understanding and belief Contributors address the figurations of persuasion in a range of theorists and writers from Jean Jacques Rousseau Adam Smith Immanuel Kant Edmund Burke and Mary Wollstonecraft to Samuel Richardson Jane Austen Thomas De Quincey Thomas Campbell William Hazlitt Heinrich Heine William Lloyd Garrison and Frances Ellen Watkins Harper This collection offers a detailed account of persuasive interests at the threshold of modernity It also prompts us to rethink persuasion now that its continued efficacy seems at risk in a fragmented public sphere Young Charles Lamb 1775-1802 Winifred F. Courtney, 1984-06-18 **Routledge Handbook of Well-Being** Kathleen Galvin, 2018-05-15 The Routledge Handbook of Well Being explores diverse conceptualisations of well being providing an overview of key issues and drawing attention to current debates and critiques Taken as a whole this important work offers new clarification of the widely used notion of well being focusing particularly on experiential perspectives Bringing together leading authors from around the world Routledge Handbook of Well Being reflects on What it is that is experienced by humans that can be called well being What we know about how to understand it How well being is manifested in human endeavours through a wide range of disciplines including the arts This comprehensive reference work will provide an authoritative overview for students practitioners researchers and policy makers working in or concerned with well being health illness and the relation between all three across a range of disciplines from sociology healthcare and economics to philosophy and the creative arts **Freedom in Practice** Moises Lino e Silva, Huon Wardle, 2016-11-25 Freedom is one of the most fiercely contested words in contemporary global experience This book provides an up to date overview from an anthropological perspective of the diverse ways in which freedom is understood and practised in everyday life including the emergent relationships between governance autonomy and liberty The contributors offer a wealth of ethnographic insight

from a variety of geographic cultural and political contexts Taken together the essays constitute a radical challenge to assumptions about what freedom means in today s world *The System of Liberty* George H. Smith,2013-04-22 Liberal individualism or classical liberalism as it is often called refers to a political philosophy in which liberty plays the central role This book demonstrates a conceptual unity within the manifestations of classical liberalism by tracing the history of several interrelated and reinforcing themes Concepts such as order justice rights and freedom have imparted unity to this diverse political ideology by integrating context and meaning However they have also sparked conflict as classical liberals split on a number of issues such as legitimate exceptions to the presumption of liberty the meaning of the public good natural rights versus utilitarianism the role of the state in education and the rights of resistance and revolution This book explores these conflicts and their implications for contemporary liberal and libertarian thought *Carnal Rhetoric* Lana Cable,1995-02-28 In recent years New Historicists have situated the iconoclasm of Milton s poetry and prose within the context of political cultural and philosophical discourses that foreshadow early modernism In *Carnal Rhetoric* Lana Cable carries these investigations further by exploring the iconoclastic impulse in Milton s works through detailed analyses of his use of metaphor Building on a provocative iconoclastic theory of metaphor she breaks new ground in the area of affective stylistics not only as it pertains to the writings of Milton but also to all expressive language Cable traces the development of Milton s iconoclastic poetics from its roots in the antiprelatical tracts through the divorce tracts and *Areopagitica* to its fullest dramatic representation in *Eikonoklastes* and *Samson Agonistes* Arguing that like every creative act metaphor is by nature a radical and self transgressing agent of change she explores the site where metaphoric language and imaginative desire merge Examining the demands Milton places on metaphor particularly his emphasis on language as a vehicle for mortal redemption Cable demonstrates the ways in which metaphor acts for him as that creative and radical agent of change In the process she reveals Milton s engagement at the deepest levels of linguistic creativity with the early modern commitment to an imaginative and historic remaking of the world An insightful and synthetic book *Carnal Rhetoric* will appeal to scholars of English literature Milton and the Renaissance as well as to those with an interest in the theory of affective stylistics as it pertains to reader response criticism semantics epistemology and the philosophy and psychology of language Social Studies for Secondary Schools Alan J. Justice and Health Care E.E. Shelp, 2012-12-06 Bioethics is a discipline still not fully explored in spite of its rather remarkable expansion and sophistication during the past two decades The proliferation of courses in bioethics at educational institutions of every description gives testimony to an intense academic interest in its concerns The media have catapulted the dilemmas of bioethics out of the laboratory and library into public view and discussion with a steady report of the so called miracles of modern medicine and the moral perplexities which frequently accompany them The published work of philosophers

theologians lawyers and others represents a substantial and growing body of literature which explores relevant concepts and issues Commitments have been made by existing institutions and new institutions have been chartered to further the discussion of the strategic moral concerns that attend recent scientific and medical progress This volume focuses attention on one of the numerous topics of interest within bioethics Specifically an examination is made of the implications of the principle of justice for health care Apart from four essays in *Ethics and Health Policy* edited by Robert Veatch and Roy Branson 4 the discussion of justice and health care has been occasional almost non-existent and scattered The paucity of literature in this area is regrettable but perhaps understandable On the one hand Joseph Fletcher one of the contemporary pioneers in bioethics can hold that distributive justice is the core or key question for biomedical ethics 1 p 102 *Shaping Character* Arthur Frank Holmes, 1991 This is a print on demand book and is therefore non-returnable The teaching of ethics and the transmission of values once performed an integrative function in the Christian college curriculum however they have gradually become relegated to a subspecialty status within the philosophy or religion department Arguing that ethics is everybody's business Arthur Holmes presents in this book a concise survey of moral education its goals and methods in the Christian college Arising out of a three-year Christian College Consortium project *Shaping Character* reflects the insights of a rich variety of experts writers and faculty members Holmes first orients his readers to the present ethical climate to theological dimensions and distinctive in ethics and to moral development theory He then poses three overall objectives of ethics education forming the conscience making moral decisions and developing character and fleshes out each objective with particular goals Throughout the book Holmes makes suggestions about the role of faculty and staff paying special attention to teaching methods and noting the context and dynamics of college life in general The final chapter summarizes how the Bible functions in ethics *Shaping Character* is meant for all Christian college teachers professors and administrators concerned about student values and the moral condition of our society The book will serve as a valuable and practical guide for teaching ethics in every department *Jeremy Bentham* Bhikhu C. Parekh, 1993 *The Anthropologist as Writer* Helena Wulff, 2016-03-01 Writing is crucial to anthropology but which genres are anthropologists expected to master in the 21st century This book explores how anthropological writing shapes the intellectual content of the discipline and academic careers First chapters identify the different writing genres and contexts anthropologists actually engage with Second this book argues for the usefulness and necessity of taking seriously the idea of writing as a craft and of writing across and within genres in new ways Although academic writing is an anthropologist's primary genre they also write in many others from drafting administrative texts and filing reports to composing ethnographically inspired journalism and fiction **The Modern Idea of the University** Jo Ann Gerdeman Thompson, 1984 Originally presented as the author's thesis University of Kentucky 1983 **Axiological Approach to the Vedas** Sahebrao Genu Nigal, 1986 A creative and systematic Axiology of Vedic ideas and ideals It is an independent Axiological study which gives an integral system of values in the Vedas The

attempt made by the Author is novel and adventurous and its findings are profound The author has made use of the well known concept of four Purusarthas Dharma Artha Kama and Moksa This method has enabled the author to grasp the value core of the Vedas with freshness of vision and he has brought out the main value affirmations in the Vedas The present volume is a study of the most ancient book of mankind but in advanced form It is an exploration that leads to the development of the Vedic Axiology Reviews invaluable for students of Vedas and to Indologists The thought provoking comments on the topics are presented in rather unusual manner Dr Varadachari Review Projector India Vol 7 Nos 7 9 Nonetheless this book will be of an immense help both to the student and the researcher and is therefore a must for libraries Dr S R Sehgal Organiser January 1 1989 **The Decline of the Secular University** C. John Sommerville, 2006-06-29
