Fictioning Namibia as a Space of Desire Renzo Baas,2019-03-28 Modern day Namibian history has largely been shaped by three major eras German colonial rule South African apartheid occupation and the Liberation Struggle It was however not only military conquest that laid the cornerstone for the colony but also how the colony was imagined the dream of this colony As a tool of discursive worldmaking literature has played a major role in providing a framework in which to dream Namibia first from outside its borders and then from within In Fictioning Namibia as a Space of Desire Renzo Baas employs Henri Lefebvre's city countryside dialectic and reworks it in order to uncover how fictional texts played an integral

part in the violent acquisition of a foreign territory Through the production of myths around whiteness German and South African authors designed a literary space in which control destruction and the dehumanisation of African peoples are understood as a natural order one that is dictated by history and its linear continuation These European texts are offset by Namibia s first novel by an African offering a counter narrative to the colonial invention that was German South West Africa

My Lion's Heart
Gareth Patterson, 2014-09-15

Environmentalist independent researcher and author Gareth Patterson has spent his entire adult life working tirelessly for the greater protection of African wildlife and more particularly for that of the lion Born in England in 1963 Gareth grew up in Nigeria and Malawi From an early age he knew where his life's path would take him it would be in Africa and his life's work would be for the cause of the African wilderness and its wild inhabitants His is an all encompassing African story From his childhood in West and East Africa to his study of a threatened lion population in a private reserve in Botswana to his work with George Adamson celebrated as the Lion Man of Africa we witness Gareth's growing commitment to his life's mission This is nowhere more evident than in his account of his life as a human member of a lion pride experiencing life and death through its eyes as he successfully rehabilitated three famous orphaned lion cubs back into a life in the wilds At considerable risk to his own personal safety he exposed the sordid canned lion industry in South Africa bringing this shameful practice to international attention After moving to the Western Cape he took up the fight for the African elephant notably the unique endangered Knysna population and published his astonishing findings in his 2009 book *The Secret Elephants* Perhaps unsurprisingly given the stressful nature of his work Gareth suffered a massive physical and mental breakdown in his forties which he discusses here for the first time with an openness that underlines his courage Lesser men might have been broken but his lion's heart fought back and he ultimately overcame his illness Gareth Patterson's long awaited autobiography is a moving account of one man's single minded dedication to the preservation of Africa's wildlife It is also a stark reminder that if the human race does not want to lose Africa's priceless wild heritage there is no
