Wright Mills and the Criminological Imagination** Jon Frauley, 2016-03-03 In spite of its widespread use within criminology the term criminological imagination as derived from C

Wright Mills classic *The Sociological Imagination* has yet to be fully developed and clarified as an analytic concept capable of guiding theorizing or empirical enquiry This volume with a preface by Elliot Currie engages with and reflects on this concept exploring C Wright Mills work for criminological enquiry Bringing together the latest work of leading scholars in the fields of criminology and sociology from around the world C Wright Mills and the *Criminological Imagination* investigates the emergence and lineage of a criminological concept indebted to Mills thought adapting and applying it to a specifically criminological context With attention to theoretical concerns and as well as the application of the criminological imagination in concrete empirical research this volume sheds new light on the methodological and analytical aspects of the criminological imagination as a multifaceted concept and explores the possibilities that it offers for the emergence of an imaginative criminological practice As such it will appeal to scholars across the social sciences with interests in sociology and social theory criminology criminal justice studies law and research methods

Alison Bashford, Carolyn Strange, 2003-09-02 This book examines the coercive and legally sanctioned strategies of exclusion and segregation undertaken over the last two centuries in a wide range of contexts The political and cultural history of this period raises a number of questions about coercive exclusion The essays in this collection examine why isolation has been such a persistent strategy in liberal and non liberal nations in colonial and post colonial states and why practices of exclusion proliferated over the modern period precisely when legal and political concepts of freedom were invented In addition to offering new perspectives on the continuum of medico penal sites of isolation from the asylum to the penitentiary *Isolation* looks at less well known sites from leper villages to refugee camps to Native reserves

Prevention Henry Shafte, 2017-03-14 Much of the debate about how to prevent crime feeds off misinformation and moral panics This lively and thought provoking book aims to get to the core of the debates surrounding the prevention of crime Taking an inter disciplinary approach to this complex topic it illustrates the key role to be played in the prevention of crime by a number of professions such as housing managers planners teachers youth workers social workers health visitors and equally importantly by lay citizens Accessibly written and introducing a wide range of theories and issues from both academic literature and field based research Crime Prevention provides a balanced and wide ranging account for all concerned with crime and its prevention Dealings with God Francisca Loetz, 2016-05-13 Early modern European society

took a serious view of blasphemy and drew upon a wide range of sanctions including the death penalty to punish those who cursed swore and abused God Whilst such attitudes may appear draconian today this study makes clear that in the past blasphemy was regarded as a very real threat to society Based on a wealth of primary sources including court records theological and ecclesiastical writings and official city statutes Francisca Loetz explores verbal forms of blasphemy and the variety of contexts within which it could occur Honour conflicts theological disputation social and political provocation and religious self questioning all proved fertile ground for accusations of blasphemy and her contention that blasphemers often meant more than they said reveals the underlying complexity of an apparently simple concept This innovative approach interprets cases of verbal blasphemy as speech actions that reflect broader political social and religious concerns Cases in Protestant Zurich are compared with the situation in Catholic Lucerne and related to findings in other parts of Europe Germany France England Italy to provide a thorough discussion of different historical approaches to blasphemy ecclesiastical legal intellectual social and cultural in the Early Modern period In so doing the book offers intriguing suggestions about what a cultural history of religiousness could and should be By linking a broad overview of the issue of blasphemy with case studies from Zurich and Lucerne this book provides a fascinating insight into a crucial but often misunderstood aspect of early modern society The conclusions reached not only offer a much fuller understanding of the situation in Zurich but also have resonance for all historians of Reformation Europe Security Lucia Zedner, 2009-05-07 Just a decade ago security had

little claim to criminological attention Today a combination of disciplinary paradigm shifts policy changes and world political events have pushed security to the forefront of the criminological agenda Distinctions between public safety and private protection policing and security services national and international security are being eroded Post 9 11 the pursuit of security has been hotly debated not least because countering terrorism raises the stakes and licenses extraordinary measures Security has become a central plank of public policy a topical political issue and lucrative focus of private venture

but it is not without costs problems and paradoxes As security governs our lives governing security become a priority This book provides a brief authoritative introduction to the history of security from Hobbes to the present day and a timely guide to contemporary security politics and dilemmas It argues that the pursuit of security poses a significant challenge for criminal justice practices and values It defends security as public good and suggests a framework of principles by which it might better be governed Engaging with major academic debates in criminology law international relations politics and sociology this book stands at the vanguard of interdisciplinary writing on security **Crime and Security** Benjamin

Goold,2017-07-05 The pursuit of security is now central to the development of public policy and a driving force behind the spread of private policing Just as new theoretical frameworks are needed to deal with the increasing tendency of crime control policies to focus on risk reduction new forms of governance are also required to deal with the rapid growth of the private security industry This volume brings together a wide range of contributions from leading scholars in the field and includes international and comparative perspectives on the challenges posed by the rise of the security society **The**

David Moxon,2020-01-28 This book explores the work of criminologist Colin Sumner It re presents his arguments and ideas on Marxism ideology censure deviance crime underdevelopment social control and the media situating them in their wider social context Moxon argues that Sumner should be restored within the criminology discipline as a pioneer who has produced works of great theoretical sophistication and insight By systematically considering Sumner s entire output the book shows how his thought involved a gradually deepening understanding of his core notion of ideological censure His writing is also marked by a growing unease with the effects of late modern capitalism and the quagmire of censoriousness rife in the 21st century This book makes clear that Sumner s work was remarkably prescient and his ideas may help up to make sense of complicated times **Surveillance, Crime and Social Control** Dean Wilson,Clive Norris,2017-05-15 Post 9 11 the need

for an expansion of surveillance and greater expenditure on surveillance capabilities has been argued for by government and industry to help combat terrorism This has been coupled with increasing incorporation of surveillance technologies into the

routine practice of criminal justice This important collection draws together key contemporary writings to explore how the surveillance gaze has been directed in the name of crime control Key issues include theories on surveillance CCTV undercover police surveillance bodies databases and technologies and surveillance futures It will be an essential collection for law librarians and criminologists *Urban Governance in Europe* Felix Eckhardt, Ingemar Elander, 2011-06-28

Money Laundering Counter-measures in the European Union Valsamis Mitsilegas, 2003-01-01 The past fifteen years witnessed the emergence globally of a plethora of legislative measures aimed at countering money laundering These developments have been inextricably linked with the growing international focus on newly perceived and or prioritised global security threats such as organised crime and terrorism with money laundering counter measures deemed essential to counter these threats Taking these developments into account this book examines in detail the evolution and content of money laundering counter measures in the European Union These measures constitute a new paradigm of security governance achieved through three principal methods criminalisation consisting in the emergence of new criminal offences responsabilisation consisting in the mobilisation of the private sector to co operate with the authorities in the fight against money laundering and the emphasis on the administration of knowledge through the establishment of new institutions the financial intelligence units with extensive powers to administer a wide range of information provided by the private sector This paradigm may pose significant challenges to fundamental legal principles and to well established social structures and the book attempts to address this balance This up to date analysis includes the provisions of the new EU money laundering Directive which was formally adopted in December 2001
