Social Control in the People's Republic of China Ronald J. Troyer, John P. Clark, Dean G. Rojek, 1989-09-07 Where other books have discussed selected social practices in China this volume is unique in its coverage of the entire social control apparatus of that country The contributors to this comprehensive study describe the design and operation of the Chinese social control system Drawing on data gathered in China the book introduces readers to China s unusual blend of formal and informal devices at the individual and neighborhood level up through the formal criminal justice system This social control approach stresses citizen involvement and emphasizes prevention rather than reaction The various chapters describe how the criminal justice system operates when these devices fail The book s primary conclusion is that the low rates of deviance in China are a consequence of extensive social control efforts at the grassroots level These grassroots devices are carefully controlled by the government At the same time however China is rapidly changing There is an extensive development of a formal criminal justice system and rapid economic development The contributors predict that China s crime rate will rise as these trends continue Professional criminologists as well as students and scholars of criminology delinquency and comparative criminal justice systems will find this book a valuable resource

Political and Social Control in China Ben Hillman, Chien-wen Kou, 2024-03-26 During the past decade Xi Jinping has reasserted the Chinese Communist Party s dominance of state and society tightening political and social controls to consolidate the Party s monopoly on political power in China This volume brings leading China experts together to

examine the changing mechanics of authoritarian rule in China and the Party's systematic efforts to neutralise potential threats. The book examines critical but little understood changes to the architecture of state which enables more effective top down rule and the efficient operation of an increasingly professional bureaucracy. It also explores the policies and mechanisms the Party has used to squash dissent and prevent criticisms. This volume will be of interest to anyone who wants to understand how the CCP has consolidated its rule at home and how it relates to the Party's global ambitions for China's great national rejuvenation. **The People's Republic of China After 50 Years** Richard Louis Edmonds, 2000-03-09

Leading scholars in various fields give their views of development in the People's Republic of China since 1949 with emphasis on recent decades. After a broad overview of progress and setbacks specific topics covered include national political reform the Chinese Communist Party in power the economy rural reform urban systems the environment foreign relations the People's Liberation Army the legal system social welfare reform intellectuals art and literature. Overall the volume presents a picture of the PRC that is not as healthy as optimists maintain nor in such a disastrous state as many pessimists have put forward. Increasingly external developments will be shaping the pace of change in the People's Republic. The ability of the government to continue to respond in a measured fashion to change will be necessary if the PRC is to thrive in the twenty first century.

Implementation of Law in the People's Republic of China Jianfu Chen, Yuwen Li, Jan Michiel Otto, 2021-08-04 China after some twenty years of reform is no longer a country without law Indeed one may legitimately complain that there are too many laws that are changing too rapidly However law acquires no life nor performs its intended social functions without proper implementation and enforcement Here few people Chinese or foreign are content with the general situation of implementation of law in China The problems and difficulties in implementing and enforcing laws and regulations are reported and discussed in the various forums of the Chinese media almost on a daily basis and often reported in Western media also Academics in China are filling the pages of various legal journals with their diagnoses and analyses of the causes of and solutions to the lack of proper implementation of law and legal regulations and policy measures are being issued to deal with these problems and to overcome the difficulties The future of the rule of law in China as we are so often reminded by scholars of Chinese politics and law largely depends on the proper implementation and enforcement of law This is a book about law in action in China that is it focuses on the administration of the law as a process through which law in the

books is put into action and hence is made to perform its intended social functions. It deals with the process, the institutional settings, the players and the political, economic, social and cultural settings, the factors involved in the administration of law in China. Throughout the book, we will see a variety of problems and difficulties involved in implementing and enforcing laws and regulations that are identified and analyzed by the contributors. We will also see analyses on legal regulations and policy measures that have been issued to rectify the many identified problems, to raise the standard of actual implementation of law and to improve the functioning of the various law implementing/enforcing authorities. Additionally, the book provides various case studies on implementation of law in China. The present book, we believe, is among the first collective efforts at a systematic and comprehensive study of the implementation of law in China, and we hope that it will stimulate many more such studies on the actual operation and impact of law on society and on individuals.

Demonstrating how old ideologies are increasingly in conflict with the values and lifestyles of a new mentality, the book discusses steps that can be taken to improve professionalism. The final chapters highlight the importance of understanding the Chinese people, culture, values and interests in order to truly effectuate successful police reform.

The China Record

Fei-Ling Wang, 2023-03-01 The China Record provides readers with an ambitious, detailed and wide-ranging examination of the People's Republic of China (PRC) under the Chinese Communist Party (CCP), both as an alternative mode of political system and a distinctive model of socioeconomic development. Fei-Ling Wang assesses the record of the economy under the CCP, people's lives and rights, and China's spiritual and physical ecology. He focuses on issues of political representation, criminal justice, fiscal and monetary policies, state-led growth, living standards, academia and education, inequality and poverty, disaster relief and pandemic prevention, culture and ethics, and the protection of antiquities and the environment. Using both quantitative and qualitative data, The China Record seeks to provide a solid and balanced yet unflinching view about the nature, strengths, weaknesses and implications of the PRC as an emerging superpower and a potential world leader. It is an effort to introduce a holistic evaluation of the CCP, PRC's overall efficacy, efficiency, power, sustainability and desirability, or the lack thereof.

Handbook of Asian Criminology Jianhong Liu, Bill Heberton, Susyan Jou, 2012-12-09 The Handbook of Asian Criminology aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general and the Asian region in particular. Contextualization is a key theme in this book. The role of context is often underemphasized in international criminology, so the Handbook of Asian Criminology's premise is that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them.
