Social Indicator Models Kenneth C. Land, Seymour Spilerman, 1975-02-14 Deals in comprehensive fashion with a diverse array of objective and subjective social indicators and shows how these indicators can be used potentially to inform and perhaps guide social policy Written with clarity and authority it will be of paramount interest to those concerned with the interpretation and analysis of social indicators and to those interested in their use For the former it serves as an illuminating introduction to some of the analytical tasks that lie ahead in the study of social indicators For the latter it provides a solid foundation upon which future policy analysis may be based [Social Indicators](#), 1980 Introductory material and statistical tables on 11 topics e.g public safety social participation and use of leisure time Appendixes include sources used and glossary Index [Society at a Glance 2001 OECD Social Indicators](#) OECD, 2001-08-21 OECD's new annual publication that provides statistical data on such topics as fertility asylum seekers and refugees employment retirement early childhood education and care replacement rates poverty the gender wage gap social expenditure health suicide group membership and prisoners

Social Indicators Tony Atkinson, Bea Cantillon, Eric Marlier, Brian Nolan, 2002-03-07 Social indicators are an important tool for evaluating a country's level of social development and for assessing the impact of policy Such indicators are already in use in investigating poverty and social exclusion in several European countries and have begun to play a significant role in advancing the social dimension of the European Union as a whole The purpose of this book is to make a scientific contribution to the development of social indicators for the purposes of European policy making It considers the principles underlying the construction of policy relevant indicators the definition of indicators and the issues that arise in their implementation including that of the statistical data required It seeks to bring together theoretical and methodological methods in the measurement of poverty social exclusion with the empirical practice of social policy The experience of Member States is reviewed including an assessment of the National Action Plans on Social Inclusion submitted for the first

time in June 2001 by the fifteen EU governments The key areas covered by the book are poverty including its intensity and persistence income inequality non monetary deprivation low educational attainment unemployment joblessness poor health poor housing and homelessness functional illiteracy and innumeracy and restricted social participation In each case the book assesses the strengths and weaknesses of different indicators relevant to social inclusion in the European Union and makes recommendations for the indicators to be employed Indicators for Social Inclusion in the European Union is being published at a critical stage in the evolution of the social agenda of the European Union It is hoped that the report will play a role in widening public debate about the social dimension of Europe and that it will be of value to the social partners to non governmental and grass roots organizations and to those living in poverty and social exclusion It seeks to provide both a constructive background document at a crucial juncture in the evolution of the social dimension of the European Union and a reference work of continuing value

Social Indicators Anthony Barnes Atkinson,2002 This book describes the Action Plans on Social Inclusion submitted to the European Union by national governments in June 2001 and investigates the indicators that can be used to assess social progress

Social Measurement and

Social Indicators Michael Carley,2025-06-30 For the early pioneers of the social indicator movement the possibilities of doing social good by developing the tools of social measurement seemed endless However in the early 1980s these high and

perhaps naive hopes remained unfulfilled especially for the data needs of the policy maker. If not pessimistic administrators and public policy makers were at least guarded about the usefulness of social indicators as an aid to increasingly complex decision making. These difficulties reflected both policy related and methodological issues. Originally published in 1981, *Social Measurement and Social Indicators* is not a how to guide on the construction of social indicators but rather a critical and optimistic view of these central issues as embodied in the literature and in practice at the time. Michael Carley contrasts some of the basic problems of social measurement with government's needs for reliable information organised by their policy usefulness and statistical sophistication. The book then discusses the critical relationship between social indicators and social theories and models as well as the role of social information in the policy process. Later chapters look at the audience, the problems and the prospects for national social reports and explore in detail three different applications of social indicators to urban analysis. Throughout the book helpful examples are drawn from North American, UK and European experience. *Social Measurement and Social Indicators* is aimed at a cross disciplinary audience in government and the universities. For students it will serve as a compact introduction to the broad field of social indicators; for administrators it explores philosophical and measurement problems and suggests criteria for interpretation; for researchers it places social indicator efforts into a wider policy analysis perspective with its inescapable political, value judgemental and bureaucratic aspects. *Society at a Glance 2016 OECD Social Indicators* OECD, 2016-10-05. This is the eighth edition of *Society at a Glance* with 25 indicators in total and data for the 34 OECD member countries and select key partners: Brazil, China, India, Indonesia, Russia and South Africa and other G20 countries: Argentina and Saudi Arabia. [A Research Agenda for Ageing and Social Policy](#) Kai Leichsenring, Alexandre Sidorenko, 2024-02-12. Foreword by Alan Walker, Professor of Social Policy and Social Gerontology, University of Sheffield, UK. Written by a global collective of scholars from a wide variety of backgrounds including health studies, psychology and economics as well as social policy and gerontology, this timely Research Agenda highlights the challenges and opportunities of rising longevity and population ageing for social policy, providing clear directions for future research.
