

Social Work Interviews

Congratulations. If you received a call for a job interview that means your resume got your foot in the door. The interview is important for two reasons: 1) this is your chance to convince the agency that you are the best social worker for the job; 2) this is the time to learn more about whether the agency and position are a good fit for you.

Here are ten tips to help you stand out from the pack and make a good choice for your career.

1 DO YOUR PREP WORK.

- Ask peers, professors, and colleagues if they have any direct experience with the agency or know someone who does. Through a direct resource, you can get to know the kind of person that does well there and let them know of your sincere interest.
- Use the website to better understand the work and the mission of the agency. Who do they serve? Whom do they partner with in the community? Are people on their management team social workers? Identify specific questions about the work that you can ask in the interview; this will show your investment.
- From the website or a contact, you might recognize someone you know or find that you are the alumni from the same school. It shows you've done your homework if you can say to the person who interviews you, "I saw you attended UCLA School of Social Welfare; how did you like the program?"
- Make sure to contact your references to let them know you are applying for the job and ask them if they are still comfortable giving you a reference. You should also email them a description of the job before they are called to give a reference.

2 BE FRIENDLY AND INTERESTED.

- You're not just being hired to do a job, you are also joining a team. Use your social work relationship-building skills from the time you're first called and in the interview itself.
- Learn people's names. Even the person at the front desk. You never know who is going to have the ear of the person who hires. When you meet people, ask them their names and what they are responsible for at the agency. Make sure to repeat their name at least one time, even if it is to say, "It was so great to meet you, Donna."

3 DRESS PROFESSIONALLY.

- Even if the job you're interviewing for or the agency itself is casual, showing up for the interview looking professional shows you're taking the interview seriously.
- Business casual is your best bet. This means nice slacks and a button down shirt. Wear something you would wear in the job you are going to do. People make the mistake of being too dressy. Women—avoid low cut tops or skirts

Interviewing and Communication in Social Work Crispin P.

Cross, 1974 Interviewing and communication are central to the work of the social worker the psychotherapist and many other specialists yet little attempt has been made to explore their interrelationship and complexity The clear interplay between the two is discussed in this book with special reference to social work Its publication should be particularly welcome at this time in view of the enormous progress that has been made in the professionalization of social work and in the application of communication techniques to an increasing number of different areas in modern society Dr Cross has drawn upon his wealth of experience in the fields of psychology sociology and social work in organizing and presenting this collection of papers all of which were specially written for this volume The book emphasizes the important role that communication plays in the interviewing process especially but not only in social work and shows that there are important sociological and psychological factors involved in that process that require far more attention than they have received in the past The first five chapters deal with these essentially theoretical issues the rest of the book is concerned with their practical application in social work These essays should demonstrate to the social work student as well as to his more experienced colleague that interviewing and communication together provide the overall framework within which casework can be undertaken Such a demonstration should also be of real value to students of sociology personnel management and vocational guidance It should also appeal to the general reader with an interest in the interviewing process in modern society

Motivational Interviewing Jacqueline Corcoran, 2016-06-07. Motivational interviewing is a person centered collaborative method for exploring ambivalence and enhancing motivation to change. Compatible with social work values and ethics, it is applicable to the wide range of problems and helping situations with which direct practice social workers are involved. One such by-product of working with vulnerable and oppressed clients, people to whom social work is committed, is that social workers are often employed in public agencies with people who have been ordered by the courts to attend services. In order to work successfully with mandated populations, helpers have to consider how they will access those who initially appear unmotivated to change. Motivational interviewing provides the stance and the tools to be able to achieve this effectively while maintaining human dignity and respect of the individual. And although it can be used as a stand alone model, motivational

interviewing has also been employed as an initial intervention so that people become more motivated to participate in other services it can be used flexibly on its own or integrated with other more action oriented interventions This workbook with its infusion of examples and numerous exercises will help students and beginning practitioners develop the knowledge and skills to work collaboratively with clients and to build their motivation to change problem behaviors **Effective Interviewing in Social Work and Social Care** Gina Allen,Duncan Langford,2021-02-05 Communication and especially interviewing skills are vital to all areas of social care practice Clearly structured and filled with practical examples this book provides students and practitioners with a comprehensive guide to interviewing young people and adults *Generalist Social Work Practice* Janice Gasker,2023-02-12 Generalist Social Work Practice provides students with the foundational skills and knowledge needed to serve clients across micro mezzo and macro areas of practice Author Janice Gasker engages students through evidence based pedagogy self reflection opportunities application and reinforcement of concepts and an abundance of critical thinking sections including profession practice standards such as the 2018 NASW Code of Ethics and 2022 EPAS Updates to the Second Edition include an emphasis on Critical Race Theory greater coverage of issues related to race and intersectionality and a new section on institutional racism in social work Included with this title LMS Cartridge Import this title s instructor resources into your school s learning management system LMS and save time Don t use an LMS You can still access all of the same online resources for this title via the password protected Instructor Resource Site Learn more
