Of the great incidents of History none has attracted more attention or proved more difficult of interpretation than the French Revolution. The ultimate significance of other striking events and their place in the development of mankind can be readily estimated. It is clear enough that the barbarian invasions marked the death of the classical world already mortally wounded by the rise of Christianity. It is clear enough that the Renaissance emancipated the human intellect from the trammels of a bastard mediaevalism that the Reformation consolidated the victory of the new learning by including theology among the subjects of human debate. But the French Revolution seems to defy complete analysis. Its complexity was great its contradictions numerous and astounding. A movement ostensibly directed against despotism culminated in the establishment of a despotism far more complete than that which had been overthrown. The apostles of liberty proscribed whole classes of their fellow citizens drenching in innocent blood the land which they claimed to deliver from oppression. The apostles of equality established a tyranny of horror labouring to extirpate all who had committed the sin of being fortunate. The apostles of fraternity carried fire and sword to the farthest confines of Europe demanding that a continent should submit to the arbitrary dictation of a single people. And of the Revolution were born the most rigid of modern codes of law that spirit of militarism which to day has caused a world to mourn that intolerance of intolerance which has armed anti clerical persecutions in all lands. Nor were the actors in the drama less varied than the scenes enacted. The Revolution produced Mirabeau and Talleyrand Robespierre and Napoleon Siey s and H bert. The marshals of the First Empire the doctrinaires of the Restoration the journalists of the Orleanist monarchy all were alike the children of this generation of storm and stress of high idealism and gross brutality of changing fortunes and glory mingled with disaster.

Historical Dictionary of the French Revolution Paul R. Hanson, 2015-01-15 The French Revolution remains the most examined event or period in world history It was most historians would argue the first modern revolution an event so momentous that it changed the very meaning of the word revolution from restoration as in the Glorious Revolution of 1688 in England to its modern sense of connoting a political and or social upheaval that marks a decisive break with the past one that moves a society in a forward or progressive direction No revolution has occurred since 1789 without making reference to this first revolution and most have been measured against it One cannot utter the date 1789 without thinking of revolution and so significant were the changes unleashed in that year that it has come to mark the dividing line between early modern and late modern European history Kings This second edition of Historical Dictionary of the French Revolution covers its history through a chronology an introductory essay and an extensive bibliography The dictionary section has over 400 cross referenced entries on the causes and origins the roles of significant persons crucial events and turning points important institutions and organizations and the economic social and intellectual factors involved in the event that gave birth to the Declaration of the Rights of Man and Citizen This book is an excellent access point for students researchers and anyone
