ICLSSE 2022 I Gede Astra Wesnawa, Agus Machfud Fauzi, Laely Armiyati, Ahmad Ginanjar Purnawibawa, 2023-01-09 The rise of technology and ease of spread of information has facilitated the diaspora of new ideas in the community The penetration of new ideology and new values challenges the status quo of value and morality in our community While this can be seen as an opportunity to evolve as a nation the introduction of radical and separatism brings chaos to the community This issue is not only experienced in Indonesia but also in the whole world The needs for a solution and academic forum to discuss this postmodernity in society bring us to the The 4th International Conference on Law Education and Social Sciences ICLSSE

2022 This conference is an international forum to disseminate knowledge and research development among researchers scholars professionals and those interested in research interests in Law and Social Sciences and Social Education This conference was organized by the Faculty of Law and Social Sciences Universitas Pendidikan Ganesha The theme of this fourth conference is Race Ethnicity and Nationalism in Postmodern Society Opportunities and Challenges *Dialogue and Difference in a Teacher Education Program* Marilyn Johnston-Parsons, 2012-05-01 This book is a longitudinal study of a 10 year experimental teacher education program Follow up studies and writing continued for 6 years after the program closed This case study describes a search for effective and socially just practices within a long term reform initiative intended to prepare teachers for urban schools The program was run through a Professional Development School a collaboration between a university program and a diverse group of practicing teachers and the book was written collaboratively by many of the participants faculty mentor teachers doctoral students and teacher candidates graduates There are few longitudinal studies of teacher education programs especially ones that focus on what was learned and told by those who did the learning The narratives here are rich diverse and multivocal They capture the complexity of a reform initiative conducted within a democratic context It s difficult messy and as varied as is democracy itself The program was framed by a sociocultural perspective and the focus was on learning through difference Dialogue across difference which is more than just talk was both the method for doing research and the means for learning The program described here began in the ferment of teacher education reform in the early 1990s responding to the critics of the mid 1980s and this account of it is finished at a time when teacher education is again under attack from a different direction Criticized earlier for being too progressive teacher education is now seen as too conservative The longitudinal results of this program show high retention rates and ground the argument that quality teacher preparation programs for teaching in urban schools may well be cost effective as well as provide increased student learning This is counter to the current move to shorten teacher preparation programs at a time of low teacher retention in our under resourced urban schools The book does not advocate a model for teacher education but it aims to provide principles for practice that include school university collaboration democratic dialogue across differences and inquiry as a way to guide reform
