Socialism For A Sceptical Age:

Socialism for a Sceptical Age Ralph Miliband, 1995 The final book by the noted British Marxist and sociologist father of British Labour Party politicians David and Ed Miliband Labour's Economic Ideology Since 1900 Christopher Kirkland, 2022-09-20 This book traces the economic ideology of the UK Labour Party from its origins to the current day Through its analysis the book emphasises key crises including the 1926 General Strike the 1931 Great Depression the 1979 Winter of Discontent and the 2007 2008 economic crisis In analysing this history the ideology of the Labour Party is examined through four core themes the party's definition of socialism the role of the state in economic decision making the party's understanding of inequalities and its relationship with the trade union movement The result is a systematic exploration of the drivers and key ideas behind the Labour Party's economic ideology In demonstrating how crises have affected the party's economic policy the book presents a historical analysis of the party's evolution since its formation and offers insights into how future changes may occur **Economics and Utopia** Geoffrey M Hodgson, 2002-01-04 Since the fall of the Berlin Wall we have been told that no alternative to Western capitalism is possible or desirable This book challenges this view with two arguments First the above premise ignores the enormous variety within capitalism itself Second there are enormous forces of transformation within contemporary capitalisms associated with moves towards a more knowledge intensive economy These forces challenge the traditional bases of contract and employment and could lead to a quite different socio economic system Without proposing a static blueprint this book explores this possible scenario *The Socialist Manifesto* Bhaskar Sunkara, 2019-04-30 The success of Jeremy Corbyn's left led Labour Party and Bernie Sanders's 2016 presidential campaign revived a political idea many had thought dead But what exactly is socialism And what would a socialist system look like today In *The Socialist Manifesto* Bhaskar Sunkara editor of Jacobin magazine argues that socialism offers the means to achieve economic equality and also to fight other forms of oppression including racism and sexism The ultimate goal is not Soviet style planning but to win rights to healthcare education and housing and to create new democratic institutions in workplaces and communities The book both explores socialism's history and presents a realistic vision for its future A primer on socialism for the 21st century this is a book for anyone seeking an end to the vast inequities of our age

Political Ideas in Modern Britain Rodney Barker, 2013-01-11 The rise of the New Right and the collapse of state communism in 1989 has fundamentally changed political thinking in the late twentieth century Rodney Barker has revised and extended his classic text *Political Ideas in Modern Britain* in the light of these changes His accessible account of political thinking in Britain since the 1880s now includes detailed analysis of the demise of traditional conservatism and socialism the rise and decline of the New Right the growth of feminism liberalism and pluralism *Political Ideas in Modern Britain* charts the changing intellectual landscape of political thinking illustrating how contemporary political thought is both rooted in tradition and a radical transformation of it Whether the future is liberal communitarian pluralist or simply uncertain this is an

essential guide for students of British politics Rodney Barker is Senior Lecturer in Government at the London School of Economics and Political Science *Lifelong Learning and the University* Richard Taylor, David Watson, 2003-08-29 The Report of the National Committee of Inquiry into Higher Education chaired by Sir Ron Dearing was published in July 1997 It represents the first officially sponsored systematic examination of the United Kingdom's system of higher education since the Robbins Report over 25 years ago This book is an authoritative evaluation of the cogency relevance and prospects for success of the Dearing vision and recommendations Like the members of the committee the authors have sought to take a holistic view to consider the underlying implications of genuine lifelong learning for the university system and how institutions and the system will need to adjust The outcomes are threefold a description of what a UK higher education system that is genuinely part of a national learning society might look like as well as the impetus this provides for radical reform identification of features of its historical especially recent development as well as wider social forces which might inhibit or encourage its performance in this way and an assessment of the coherence desirability and practicality of the Dearing proposals in bringing about this end The Promise of the Third Way O. Newman, R. De Zoysa, Richard De Zoysa, 2001-05-16 Aiming to transcend the outdated conflict between Left and Right the Third Way was welcomed by leading figures on the world stage Its programme of modernisation flexibility and community regeneration indicated a way forward for the New Age Within a firm market emphasis equality of opportunity and social inclusion were given a prominent place However its lack of direction and disinclination to face hard decisions have left its promise unfulfilled This book puts forward a rigorous rethinking towards making the Third Way an effective instrument of progress for Britain as well as abroad **Class, Power and the State in Capitalist Society** P. Wetherly, C. Barrow, P. Burnham, 2007-12-14 This collection of new essays re-examines and evaluates central themes in the work of Ralph Miliband a leading contributor to Marxist political theory in twentieth century It provides an essential reference point for research within the Marxist tradition and a valuable resource for students on a range of courses in political and social theory **The Twilight of Globalization** Boris Kagarlitsky, 1999-12-20 In the second of his studies of globalisation and capitalism Boris Kagarlitsky assesses the role of the state in the globalised world He argues that far from being powerless and irrelevant the state can and should play a significant role in the twenty first century Kagarlitsky challenges the notion that globalisation is a completely new phenomenon However transformation of the state in response to globalisation is according to Kagarlitsky urgently needed and in order for the state to once again play a key role in the economy it must change radically Kagarlitsky examines questions of state intervention in the economy and draws on examples from Russia and the Czech Republic to show new ways in which the state sector is being recreated He demonstrates that even without the participation of the left a spontaneous recreation of the state sector is emerging in response to neo liberalism Kagarlitsky also discusses the national question and looks at cases in the former USSR Eastern Europe and the Balkans He argues that failure of socialists to link the question of self determination to other democratic

rights has meant socialists have been slow to respond in the wake of the developing nationalist movements

Structure, Agency and Theory Ib Gram-Jensen, 2021-04-20 Structure Agency and Theory challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism

Citizenship and Identity John Schwarzmantel, 2003-08-29 Citizenship and Identity offers an analysis of contemporary politics and of the scepticism and apathy which characterise the political life of modern democracies Starting from exploration of liberal democracy and a critique of the fragmentation of contemporary politics this book develops a republican perspective as an alternative framework for political institutions and civic participation

The New Class War Michael Lind, 2020-01-21 In both Europe and North America populist movements have shattered existing party systems and thrown governments into turmoil The embattled establishment claims that these populist insurgencies seek to overthrow liberal democracy The truth is no less alarming but is more complex Western democracies are being torn apart by a new class war In this controversial and groundbreaking new analysis Michael Lind one of America s leading thinkers debunks the idea that the insurgencies are primarily the result of bigotry traces how the breakdown of mid century class compromises between business and labor led to the conflict and reveals the real battle lines On one side is the managerial overclass the university credentialed elite that clusters in high income hubs and dominates government the economy and the culture On the other side is the working class of the low density heartlands mostly but not exclusively native and white The two classes clash over immigration trade the environment and social values and the managerial class has had the upper hand As a result of the half century decline of the institutions that once empowered the working class power has shifted to the institutions the overclass controls corporations executive and judicial branches universities and the media The class war can resolve in one of three ways The triumph of the overclass resulting in a high tech caste system The empowerment of populist resulting in no constructive reforms A class compromise that provides the working class with real power Lind argues that Western democracies must incorporate working class majorities of all races ethnicities and creeds into decision making in politics the economy and culture Only this class compromise can avert a never ending cycle of clashes between oligarchs and populists and save democracy
