Socialist Welfare In A Market Economy Social Security Reforms In Guangzhou China:

Socialist Welfare in a Market Economy Yongxin Zhou, Nelson Chow, Yeubin Xu, 2017-11-22 This title was first published in 2001 Using the city of Guangzhou as a case study this text looks at how China has adopted a market economy whilst still maintaining state owned enterprises and an all embracing social security system which protects the majority of Chinese workers This volume examines three questions can socialist social welfare co exist with the market economy can state owned enterprises survive in a market economy and has China succeeded in creating a market economy without sacrificing its socialist ideals The study demonstrates that compromises have been necessary to accomodate both socialist and market objectives continuing to support workers with social security benefits has for example made enterprises less competitive and disparities in benefits arise as workers are allowed to supplement the minimum guaranteed income through savings in individual accounts

Social Policy Reform in China Catherine Jones Finer, 2017-11-01 This title was first published in 2003 The People s Republic of China PRC is a timely example of social policy reform in a socialist market economy This important and topical edited collection brings together leading Chinese and Western experts to introduce and integrate policy issues of the PRC into the mainstream of cross national social policy debate Drawing upon comparativist expertise in relevant aspects of social policy the book explores the ways in which the PRC has or has not taken lessons from abroad in key social policy respects and illustrates policy relevant relations between Chinese and Western perspectives The contributors identify those aspects of China s recent social policy reforms that seem the most and least likely to appeal to Western societies The collection therefore represents a substantial advance in two way East West lesson learning in social and public policy

Social Investment and Social Welfare James Midgley, Espen Dahl, Amy Conley Wright, 2017-05-26 This book contributes to the growing literature on social investment by discussing the way social investment ideas have been adopted in different countries and in various academic and professional fields including social policy development studies and non profit management Documenting the experience of implementing social investment in different communities it encourages a One World perspective that integrates these diverse experiences and promotes policy learning between different nations

Rural Welfare in China Yi Pan, 2017-06-14 This comprehensive reference views China s welfare system through a cultural historical lens to integrate its complex story into the global study of welfare Focusing on the mainland s vast mainly rural population and its long and complicated history it analyzes rural welfare from the imperial dynasties to the socialist planned economy under Mao Zedong to its recent history in the current market economy Findings from government and academics explore salient topics such as urban rural inequity the situation of migrant workers change of social security system the community development of the countryside and the relationships of rural welfare policy with social structure cultural background economic development and political institution This broad and deep knowledge gives readers the tools necessary for understanding the relationship of China s unique and nuanced past to its prominent status in the evolving global economy

Among the book's topics: Welfare studies in the West and China; Welfare practice in the period of 1840-1949; Creation of the Socialist Welfare System; socialist reformation and construction; The Social Security system in rural China; 1979-1998 Re-collectivized process in welfare and economy; Welfare's political contexts; rural grass roots democracy. With its accessible up-to-date coverage and holistic approach to its subject, *Rural Welfare in China* will find a diverse, interested audience including sociologists, political economists, and social policymakers.

Aging in China Sheying Chen, Jason L. Powell, 2012-02-02
China, which is fast on its way to becoming the most powerful economic force in the world, has four unique characteristics that distinguish it from other countries in Asia: 1. The proportion of aging population is growing faster than that of Japan, the country previously recognized as having the fastest rate, and much faster than nations in western Europe. 2. An early arrival of an aging population before modernization has fully taken place with social policy implications. It is certain that China will face a severely aged population before it has sufficient time and resources to establish an adequate social security and service system for older people. 3. There will be fluctuations in the total dependency ratio. The Chinese government estimates are that the country will reach a higher dependent burden earlier in the twenty-first century than was previously forecast. 4. The government's fertility policy, single child per family, and its implementation has a strong influence on the aging process. Fewer children are being born, but with more elderly people, a conflict arises between the objectives to limit population increase and yet maintain a balanced age structure. Peng and Guo (2001) The intersection of these fourfold factors means that the increased aging population is giving rise to serious concerns among Chinese social policy makers. There is a chronic lack of good resource materials that attempt to make sense of social policy in its relationship to examining the problems and possibilities of human aging grounded in an analysis of economic and social policy in China and impact on rural and urban spaces. Such analysis of China will be covered by conceptual, theoretical, and empirical approaches. The book will also discuss substantive topics of housing, community care, family care, pensions, and mental health. The book brings together a truly world-class array of researchers to provide discussions of critical implications of aging, social policy, and the economic impact in China.

Social Policy for Development Anthony L. Hall, James Midgley, 2004-03-31
Strong social policy is essential for sustainable growth. This book is an extremely useful overview of social policy issues for policy makers and anyone who wants to understand the true roots of successful sustainable development. Ian Johnson, Vice President for Sustainable Development, The World Bank. Throughout the world, issues of social development have now taken centre stage. There is no more comprehensive and readable guide to the choices and conflicts of this global drama. This book is essential reading for all students and practitioners of social development and for every World Bank economist. David Piachaud, Professor of Social Policy, London School of Economics. This much-needed textbook fulfils a major gap in providing a complete up-to-date guide and introduction to the increasingly important role of social policy in the context of development processes and practice. Across a number of key sectors and areas of social policy concern, the authors accessibly introduce and explain the main conceptual debates, the

most recent policy discussions and provide applied examples to illustrate the latest developments in the social policy and planning field Central topics covered include poverty rural development urban development education health social work social welfare international development and cooperation Social Policy for Development is an essential text for all students and practitioners alike seeking a deeper understanding of the issues of poverty social exclusion and deprivation across social policy and development studies internationally

Social Policy and Poverty in East Asia James Midgley, Kwong Leung Tang, 2009-09-11 This book looks at the role of social policy and particularly social security in addressing the ongoing challenge of poverty in East Asia despite the region's spectacular experience of economic growth in recent decades The East Asian miracle resulted over the last four decades in a transformation of the region's traditional agrarian economies and significant increases in standards of living for many ordinary people Even though it was given little attention poverty has remained an ongoing problem The problem became particularly evident however with the Asian financial crisis of 1997 when many low income and middle class workers became unemployed As a result of this crisis the need for effective social policies and social security programs were recognized The idea that economic growth would solve the problem of poverty was increasingly challenged Even in China today where rapid growth has created new employment opportunities and the promise of prosperity for many the government has recognized that the problem of poverty cannot be addressed only through economic growth but that comprehensive social policies must be formulated and this includes the development of an effective security system

Welfare, Environment and Changing US-Chinese Relations Maria Weber, 2004-01-01 Scholars of political economy and international economics as well as academics and researchers of Asian particularly Chinese studies will find this book of great value Since the People's Republic of China began to promote an open door policy to foreign investment in 1979 economic results have been startling In twenty years China recorded at least eight percent growth in gross domestic product annually Since 1978 the number of Chinese living in poverty dropped from 270 million to 60 million China's economy could By adopting a wide ranging perspective this book addresses the key issues relevant to contemporary China providing a valuable tool with which to understand the challenges and opportunities facing political and economic actors both domestic and foreign over the next decades The book addresses key issues now subject to considerable debate such as sustainable growth the imbalances in society deriving from growing inequalities and environmental threats Concluding this section is an overview of how Chinese US relations and China's geopolitical role at the international level have evolved at the turn of the 21st century The book then goes on to analyse those issues linked to the impacts of recent welfare system reforms In particular those impacts on the health care and pension systems growing unemployment deriving from reform of state owned enterprises and the related phasing out of the cradle to grave welfare system The closing chapter looks at the potential provided by a fast growing insurance market in conjunction with WTO opening measures to assess whether increased opportunities are likely to arise for foreign insurance suppliers

Handbook of Asian Aging Hyunsook

Yoon, Jon Hendricks, 2018-10-26 In western countries the rising tide of population aging took 100 years to alter the face of societies but Asia is experiencing comparable changes in not much more than a quarter of a century Contributors to The Handbook of Aging describe the magnitude of these changes and their effects on the aged and on societies attempting to adapt to the dramatic improvements in life expectancy brought on by rapid economic and social transformations Asia encompasses a vast reach from Pakistan and India to Japan the Philippines and Indonesia and in this book including Australia The Handbook of Aging provides a framework for making sense of the meeting between reverential views of the elderly and contemporary priorities as Asia arrives at the crossroads The need for innovative approaches to social policy and personal practices is nowhere more evident than in Asian countries where modern marketing economies have forced hard political choices The economic tigers of the Asian Pacific region experienced the aging of their populations ahead of other Asian countries but solutions reached during times of financial boom are being re examined as economies come back to earth with soft or hard landings The Handbook of Asian Aging provides an atlas of the far reaching changes that are afoot and that will become even more pronounced in the near future China's Changing Welfare Mix Beatriz Carrillo, Jane

Duckett, 2011-06-10 This book draws attention to two neglected areas in the growing body of research on welfare in China subnational variation and the changing mix of state and non state provision The contributors to this volume demonstrate the diversity of local welfare provision that lies behind broad national policies and programmes Their focus on local diversity is particularly relevant to understanding the welfare system in China because national state programmes are so often organized by local governments in line with the specifics of their economic and social development At the same time that social and economic development is itself independently creating an array of different conditions that shape non state family business and third sector welfare roles Through chapters that draw on original research in eight provinces the book adopts a local perspective to illustrate and explain some of the transformations that are under way and discuss not only local government initiatives and programmes but also the services and support provided by families informal social networks and community or third sector organizations as well as those delivered by private businesses on a commercial for profit basis This book will be of interest to students and scholars of Chinese society social policy and Chinese studies more widely Beatriz Carrillo is Lecturer in Asian Studies at the University of Technology Sydney Australia Jane Duckett is Professor of Chinese and Comparative Politics at the University of Glasgow UK **The Palgrave Handbook of Global Social Work Education**

Sajid S.M., Rajendra Baikady, Cheng Sheng-Li, Haruhiko Sakaguchi, 2020-10-23 This handbook addresses the issues and challenges of the delivery of social work education in the contemporary world It provides an authoritative overview of the key debates switching the lens away from a Western centric focus to engage with a much broader audience in countries that are in the process of modernization and professionalization alongside those where social work education is more developed Chapters tackle major challenges with respect to curriculum teaching practice and training in light of globalization providing

a thorough examination of the practice of social work in diverse contexts This handbook presents a contribution to the process of knowledge exchange which is essential to global social work education It brings together professional knowledge and lived experience both universal and local and aims to be an essential reference for social work educators researchers and students *China's New Underclass* Xinying Hu,2013-07-03 This book examines the implications of China s economic

reforms for domestic work and domestic workers The author examines the factors that give rise to paid domestic work in a socialist economy and goes on to look at the need for social protection of domestic workers within cities in contemporary China Using a socialist feminist approach the book investigates how China s economic restructuring has deliberately crafted a domestic service sector from the top down Through the analysis of the situation of paid domestic labour it demonstrates how the changes in socialist ideology under a market economy have justified the state s support for paid domestic labour the large role of the state in these ideological changes and how domestic labour is related to economic changes and the market economy itself The book argues that state s economic reforms have changed gender and class relations in Chinese society Based on interviews with domestic workers their employers their social advocates and government officials this book examines the economic and social security of domestic workers and provides information about their precarious working conditions that could be improved through public policy It also explores women s agency and activism and the current role of NGOs and trade unions in labour protection **Local Governance Innovation in China** Jessica C. Teets,William

Hurst,2014-10-30 Despite a centralized formal structure Chinese politics and policy making have long been marked by substantial degrees of regional and local variation and experimentation These trends have if anything intensified as China s reform matures Though often remarked upon the politics of policy formation diffusion and implementation at the subnational level have not previously been comprehensively described let alone satisfactorily explained Based on extensive fieldwork this book explores how policies diffuse across China today the mechanisms through which local governments actually arrive at specific solutions and the implications for China s political development and stability in the years ahead The chapters examine how local level institutions solve governance challenges such as rural development enterprise reform and social service provision Focusing on diverse policy areas that include land use state owned enterprise reform and house churches the contributors all address the same overarching question how do local policymakers innovate in each issue area to address a governance challenges and how if at all do these innovations diffuse into national politics As a study of local governance in China today this book will appeal to both students and scholars of Chinese politics comparative politics governance and development studies and also to policy makers interested in authoritarianism and governance **The Routledge**

Handbook of Chinese Citizenship Zhonghua Guo,2021-11-29 Two assumptions prevail in the study of Chinese citizenship one holds that citizenship is unique to the Western political culture and China has historically lacked the necessary conditions for its development the other implies that China is an authoritarian regime that has always been subject to

autocratic power in which citizens and citizenship play a limited role This volume negates both assumptions On the one hand it shows that China has its own unique and rich experiences of the emergence development rights obligations acts culture education and sites of citizenship indicating the need to widen the scope of citizenship studies to include non Western societies On the other hand it aims to show that citizenship has been a core issue running through China s political development since the modern period urging scholars to bring citizenship into consideration in the study of Chinese politics This Handbook sets a new agenda for citizenship studies and Chinese politics Its clear accessible style makes it essential reading for students and scholars interested in citizenship and China studies

Social Cohesion in Greater China Ka-Ho Mok, Yeun-wen Ku, 2010 Introduction the quest for a balanced economic growth and social development ideas and practices promoting social cohesion in greater China Ka Ho Mok Ka Kuen Leung and Yeun Wen Ku pt I Concepts of social cohesion and policy response ch 1 Social cohesive efforts to meet youth development needs in Tin Shui Wai Hong Kong Sandra K M Tsang and Yiu Kong Chu ch 2 In search of harmonious society in China a social policy response Kinglun Ngok and Yapeng Zhu ch 3 Social cohesion in a divided society lessons from Taiwan s welfare politics Yeun Wen Ku ch 4 One country two cities a comparison of perceived cohesion in Guangzhou and Hong Kong Simon T M Chan Sammy W S Chiu and Marcus Y L Chiu pt II Social change and urban governance ch 5 Governing a global city in the context of political transition Tai Lok Lui ch 6 Embracing the market examining the consequences for education housing and health in Chinese cities Ka Ho Mok et al ch 7 Urban governance from below a case study of Kaohsiung Taiwan Shihuh Shen Chien and Yeilong Wu pt III Economic well being urban poverty and pension reforms ch 8 Elderly poverty and old age pension reform in Hong Kong issues and prospects Ernest Chiu and Lisanne Ko ch 9 Is welfare restructuring and economic development in post 1997 Hong Kong in search of a cohesive society Maggie Lau and Ka Ho Mok ch 10 Economic development and household economic well being in urban China Xiulan Zhang Terry Lum and Yuebin Xu ch 11 The fragmentation of the old age security system the politics of pension reform in Taiwan Shih Jiunn Shi

Social Protection as Development Policy Sarah Cook, Naila Kabeer, 2016-01-21 The Asian crisis of the late 1990s severely affected some of the most successful economies in the region placing the issue of social protection high on the regional and international agenda Subsequently growth rates revived but the fruits of growth have not been evenly distributed and inequality has risen Behind this trend lie deeply entrenched forms of poverty and social exclusion as well as new forms of vulnerability resulting from the liberalisation of markets and growing exposure to the global economy This volume deals with issues of poverty vulnerability and social exclusion in the Asian context The articles deal with different groups of vulnerable people exploring some of the characteristics of vulnerability in different contexts and reflecting on appropriate policy responses Collectively they emphasise a broad based systemic approach to the problems of vulnerability and insecurity where social protection needs to be rescued from its dominant current conceptualisation as a response to risk and crisis and instead be integrated into the mainstream of development policy This book will interest

scholars of economics politics development studies development economics sociology social policy and South Asian studies

States' Gains, Labor's Losses Dorothy J. Solinger, 2018-07-05 In this explicitly comparative work Dorothy J Solinger examines the effects of global markets on the domestic politics of major states In the late 1970s leaders around the world faced a need both to continue productive investment and to cut labor costs to compete internationally in a changed world market To accommodate forces seemingly beyond their control they often opted to reduce social protections and benefits that citizens had come to expect in the process recalibrating their established political economic coalitions For countries whose governance was built on a coalition between workers and the state the political conundrum was particularly intense States Gains Labor's Losses concentrates on three countries China France and Mexico where revolution inspired political compacts between labor and the state had to be renegotiated In all three cases choices to forge a deepened dependence on international capital markets required the ruling parties to fire large numbers of workers and cut social benefits while attempting not to provoke widespread social unrest or even full scale revolt among their supporters China France and Mexico also shared strong legacies of protectionism and state intervention in the economy so the decision of each to join a supranational economic organization France and the EU China and the GATT WTO Mexico and NAFTA in the hope of alleviating crises of capital shortage involved submission to a new set of liberal economic rules that further compromised their sociopolitical compacts Examining a fundamental question about the dynamics of globalization and worker protest through an innovative comparative perspective States Gains Labor's Losses emphasizes the growing tensions and new compromises between the working class and their political leaders in the face of intense international economic pressures

Corporate Social Responsibility and the Three Sectors in Asia Samiul Hasan, 2017-03-31 This volume investigates how much governmental control is needed to reign in corporate and business greed and to make business socially responsible in Asia It also questions whether business entities need to be reigned in by the government itself or if other social religious or economic dynamics shape business entities in Asia Moreover it looks at how the Asian third sector influences BSR CSR activities

China's Child Contracts Bao-Er, 2007

After the Postcolonial Caribbean Brian Meeks, 2023-01-20 Examines the history and possible futures of radical politics in the postcolonial Caribbean A book of rare beauty Bill Schwarz Professor at Queen Mary University of London Across the Anglophone Caribbean the great expectations of independence were never met From Black Power and Jamaican Democratic Socialism to the Grenada Revolution the radical currents that once animated the region recede into memory More than half a century later the likelihood of radical change appears vanishingly small on the horizon But what were the twists and turns in the postcolonial journey that brought us here And is there hope yet for the Caribbean to advance towards more just democratic and empowering futures After the Postcolonial Caribbean is structured into two parts In Remembering Brian Meeks employs an autobiographical form drawing on his own memories and experiences of the radical politics and culture of the Caribbean in the decades following the end of colonialism

In *Imagining* he takes inspiration from the likes of Edna Manley, George Lamming and Stuart Hall in reaching toward a new theoretical framework that might help forge new currents of intellectual and political resistance. Meeks concludes by making the case for reestablishing optimism as a necessary cornerstone for any reemergent progressive movement.
