Socialist Register 92:

The Socialist Register, 2005 **Socialist Register** Ralph Miliband (red.), Leo Panitch, 1992 **forum for inter-american research Vol 1** Wilfried Raussert, 2023-07-20 Volume 1 of 6 of the complete premium print version of journal forum for inter american research fiar which is the official electronic journal of the International Association of Inter American Studies IAS fiar was established by the American Studies Program at Bielefeld University in 2008 We foster a dialogic and interdisciplinary approach to the study of the Americas fiar is a peer reviewed online journal Articles in this journal undergo a double blind review process and are published in English French Portuguese and Spanish **The capitalist mode of destruction** Costas Panayotakis, 2021-02-09 The capitalist mode of destruction traces contemporary capitalism s economic ecological and democratic crises Combining insights from a range of disciplines including psychology sociology and political economy Panayotakis interprets these crises as manifestations of a previously unrecognized contradiction over time the benefits of capitalism s technological dynamism tend to decline even as its threats to humanity and the planet continue to mount To explain this contradiction the book analyzes the production and distribution of surplus in capitalist societies and rethinks the concept of surplus itself Identifying the public sector and households as sites of production no less important than the workplace this book attributes capitalism s contradictions to working people s lack of control over the surplus they produce This lack of control is undemocratic and threatens the planet Only a classless society in which working people democratically determine the size and use of the surplus they produce can effectively respond to our current predicament Recognizing such a democratic classless society as the essence of the communist ideal the book argues that far from becoming obsolete this ideal is ever more indispensable But since the necessity of this ideal does not guarantee its realization the book also investigates the conditions necessary for the formation of an anti capitalist alliance for social justice democracy and ecological sustainability **The International Politics of Russia and the Successor States** Mark Webber, 1996 This textbook examines the external relations of the fifteen new states which emerged from the ashes of the Soviet Union in 1991 Mark Webber examines the consequences of the Soviet collapse and the emergence of a new system of international relations embracing Russia and the other former Soviet republics The author explores both relations between the new states themselves and between these states and the wider world He pinpoints the daunting challenges facing the new states the invention of foreign policy orientations the management of the Red Army s material legacy including nuclear weapons the resolution of regional conflicts and the need for economic revival Two key themes emerge the reassertion of national identities and the special position of Russia which has assumed to some extent the rights and the obligations of the Soviet Union on the world stage whilst having to tackle the chaos of local wars and internal economic collapse
Intellectual Radicalism after 1989 Sebastian Berg, 2017-03-15 Left wing intellectuals in Britain and the US had long repudiated the Soviet regime Why was the collapse of the Eastern Bloc experienced as a shock that destabilised their

identities and political allegiances then What happened to a collective project that had started out to formulate a socialist vision different from both really existing socialism and social democracy This study endeavours to answer both questions focusing on generational networks rather than individuals and investigating political academic journals after 1989 to paint the picture of a Left deeply troubled by the triumph of a capitalism unfettered by any counter force **Communism, Capitalism and the Mass Media** Colin Sparks, Anna Reading, 1997-12-08 Colin Sparks provides a challenging reassessment of the impact of the collapse of communism on the media systems of Eastern Europe He analyzes both the changes themselves and their implications for the ways in which we think about the mass media while also demonstrating that most of the orthodox accounts of the end of communism are seriously flawed There are much greater continuities between the old system and the new than are captured by the theories that argue that there has been a radical and fundamental change Instead of marking the end of critical inquiry or the end of history as some have suggested Sparks argues that the collapse of the communist systems demonstrates how very limited and frequently incorrect the main ways of discussing the mass media are He concludes with a provocative discussion of the ways in which we need to modify our thinking in the light of these developments **Class, States and International Relations** Adrian Budd, 2013-06-19 This book provides an outline and a critique of neo Gramscian international relations theory from a Marxist perspective Focusing on the pioneering work of Robert Cox but also drawing on the wider neo Gramscian literature this book presents a comprehensive account of neo Gramscian international relations theory It highlights the neo Gramscian critique of mainstream Realist theory and the theoretical innovations that resulted from the mobilisation of Gramsci's ideas and Cox's emphasis on the social forces underpinning forms of state and world orders The author explains how this is especially relevant in the current period of war and crisis when the international dimensions of social existence continue to exercise a major influence over domestic politics and economics and when the interest in Marxism can be expected to grow The book continues to provide a critique of the neo Gramscians and of what the author argues is their one sided reading of Gramsci Placing coercion at the centre of a mode of production analysis of world order the author elaborates a Marxist alternative to neo Gramscianism that provides more robust explanations of world order dynamics and change Using a combination of IR theory and historical explanation including of contemporary world order dynamics and US power this book will appeal to both students and scholars of International Relations international studies and international history **Theories of the Information Society** Frank Webster, 2014-03-21 Information is regarded as a distinguishing feature of our world Where once economies were built on industry and conquest we are now part of a global information economy Pervasive media expanding information occupations and the development of the internet convince many that living in an Information Society is the destiny of us all Coping in an era of information flows of virtual relationships and breakneck change poses challenges to one and all In Theories of the Information Society Frank Webster sets out to make sense of the information explosion taking a sceptical look at what

thinkers mean when they refer to the Information Society and critically examining the major post war approaches to informational development The fourth edition of this classic study brings it up to date with new research and with social and technological changes from the Twitter Revolutions of North Africa to financial crises that introduced the worst recession in a life time to the emergence of social media and blogging and reassesses the work of key theorists in the light of these changes More outspoken than in previous editions Webster urges abandonment of Information Society scenarios preferring analysis of the informatization of long established relationships This interdisciplinary book is essential reading for those trying to make sense of social and technological change in the post war era It addresses issues of central concern to students of sociology politics geography communications information science cultural studies computing and librarianship

Theories of the Information Society , **Theories of the Information Society** Professor Frank Webster, Frank Webster, 2002-05-03 Information has come to be regarded as a symbol of the age in which we live Talk nowadays is of an information technology revolution even of an information society But just what does this mean In Theories of the Information Society Frank Webster sets out to make sense of the information explosion He examines and assesses a variety of images of the information society and takes a sceptical look at what thinkers mean when they do refer to an information society He looks closely at different approaches to informational developments and provides critical commentaries on all the major post war theories Varieties of Capitalism, Varieties of Approaches D. Coates, 2005-01-25 Though the emerging sub discipline of comparative political economy is now rich in studies of different advanced capitalisms it still lacks a systematic consideration of the organizing frameworks and methodologies underpinning those studies This definitive volume outlines the two great debates currently shaping the analysis of advanced capitalism It makes the case for a greater awareness of underlying theoretical issues in the design of empirical research and demonstrates the value of exploring the interconnections between competing intellectual approaches **South American Free Trade Area or Free Trade Area of the Americas?** Mario Carranza, 2017-11-22 This title was first published in 2000 This work examines the hemispheric diplomacy after the Summits of the America in Miami December 1994 and Santiago April 1998 focusing on the strengthening of the South American position in the FTAA negotiations and the Brazilian proposal for a South American Free Trade Area SAFTA The book also looks at the implications of the preceding analysis for regional integration theory and international relations theory The conclusion looks beyond open regionalism and considers three scenarios for US South American relations after the Santiago Summit First reassertion of US hegemony and signing of an FTAA agreement on schedule second erosion of US hegemony but continuing negotiations between North and South America for a distant FTAA and finally breakdown of the FTAA negotiations and emergence of SAFTA as an alternative to the FTAA **The European Union and Global Capitalism** Magnus Ryner, Alan Cafruny, 2016-12-16 This book draws on critical theory to introduce readers to ways of exploring questions about the EU from a political economy perspective questions like Does the EU help or hinder Europe s

social models to face the challenges of globalization Does the EU represent a break from Europe's imperial past What were the causes of the Eurozone crisis Palgrave Advances in Peacebuilding O. Richmond, 2010-01-20 The quality of the peace arrived at via liberal peacebuilding approaches has been poor The related statebuilding praxis has generally been unable to respond to its critics What is at stake is a recognition of peacebuilding's everyday political social economic and cultural dynamics This indicates the emergence of a post liberal form of peace **Fifty Key Thinkers in International Relations** Martin Griffiths, Steven C. Roach, M. Scott Solomon, 2008-11-28 Now in its second edition Fifty Key Thinkers in International Relations has been thoroughly updated with several new entries and a new preface to reflect the latest developments There are new sections on Constructivism International Political Theory and English School as well as a range of new thinkers They include Samuel Huntington Christine Sylvester Jürgen Habermas John Rawls Barry Buzan Fully cross referenced throughout this book has everything for students of politics and international relations or indeed anyone who wants to gain an understanding of how nations can work together successfully **Globalization** Robert Went, 2000-08-20 Putting globalization into a historical perspective Went convincingly demonstrates that it is not an unavoidable process but one that the Left can successfully mobilise against **Class, Power and the State in Capitalist Society** P. Wetherly, C. Barrow, P. Burnham, 2007-12-14 This collection of new essays re-examines and evaluates central themes in the work of Ralph Miliband a leading contributor to Marxist political theory in twentieth century It provides an essential reference point for research within the Marxist tradition and a valuable resource for students on a range of courses in political and social theory Renewing Socialism Leo Panitch, 2019-06-18 Renewing Socialism opens with an exploration of the contemporary meaning of revolution and reform beginning by stressing the appropriation of both terms into the rhetoric of the political right Panitch examines the failure to realize socialism's revolutionary promise through an analysis of social democratic parties and the politics of compromise Party Formation in East-Central Europe Gordon Wightman, 1995 a welcome addition to our stock of knowledge regarding the process of democratization the real value of the book lies in the empirical details and occasional suggestive comparisons rather than in a consistently convincing conceptual rendering of the opening pages of the new chapter in East Central European history Frank A Kunz Canadian Journal of Political Science Party Formation in East Central Europe is an excellent book It is encouraging that many of the articles were written by scholars who are of Eastern European origins and live in the area Ann Griffiths International Insights Party Formation in East Central Europe is one of the first books to present detailed studies of politics in Czechoslovakia Hungary Poland and Bulgaria during the initial three years of post communist rule
