Liberalism Jan Narveson, Susan Dimock, 2013-03-09 No theory is more passionately and widely defined or decried than is liberalism in contemporary Anglo American philosophy But what is this theory on which so much ink is spilled This collection of original essays by leading specialists in political philosophy legal theory and economics offers answers to that question by exploring the theoretical commitments of liberals and some of the practical implications of their view Among the topics explored is the distinction between liberalism and conservatism and the degree to which liberals must be committed to neutrality individualism equality freedom and a contractarian theory of justification The practical implications of liberalism are further examined by considerations of the proper role of the liberal state in undertaking egalitarian redistribution the provision of public goods and retributive punishment The papers assembled by Narveson and Dimock will be of benefit to anyone working in the areas of political philosophy political theory or political economics

**Justice beyond 'Just Us'** Gregory W. Streich, 2016-04-22 Notions of justice and community in the United States are increasingly challenged by trends like immigration multiculturalism and economic inequality as well as historical legacies like Jim Crow era racial segregation These dynamics continually re shape the communities in which people live whether by generating new forms of interdependency and inequality creating new social cleavages or exacerbating existing ones or generating new spaces in which cross boundary contact conflict or cooperation is possible Revealing the ways in which notions of justice and community overlap in American politics and public discourse through concrete political questions which emerge when considering dimensions of time place and difference Gregory W Streich offers a fresh re examination of the normative ideas of justice and community He encourages Americans to move from a view of justice that applies only to people who are like us to a view of justice that applies to people beyond just us

*A Social Philosophy of Housing* Peter King, 2017-11-22 This title was first published in 2003 This text seeks to

show the importance of housing to individuals and in the broader context of social welfare It offers a universal philosophical justification for housing provision based on a detailed theoretical consideration of need choice rights and responsibility The implications of basing housing policies on these concepts are considered Dr Peter King suggests that we should see housing as above all a pre requisite for human flourishing As such it is an essentially private activity As a consequence he argues housing policy should be limited to a consideration of the enhancement of the personal fulfilment of individuals rather than seeking to further collective or utilitarian ends Dr King s purpose in this book is to explore housing using the techniques and methods of social philosophy He seeks to combat relativist approaches to housing discourse with a theoretical appreciation of housing based on universalist principles derived from Kant and Nozick The book therefore addresses housing issues with a philosophical rigour but without ignoring key policy debates
