Society Must Be Defended Michel Foucault, 2020-08-06 *Society Must Be Defended* is taken from a series of lectures given by Foucault at the College de France in 1975-76. Using war to analyse power relations, he contends that politics is ultimately a continuation of battlefield violence and that ingrained ideas of sovereignty and individual rights are attempts to refute the fact that all power relations are based on domination. Coloured with brilliant historical examples, Foucault draws from many periods in both England and France with wonderful digressions into subjects as diverse as classical French tragedy and the gothic novel.

"Society Must Be Defended" Michel Foucault, 2004-03-27 This text is a full transcript of the lectures given by Michel Foucault at the College de France in 1975-76. The main theme of the lectures is the contention that war can be used to analyze power relations. Foucault contends that politics is a continuation of war by other means. Thus, any constitutional theory of sovereignty and right is an attempt to refute the fact that power relations are based upon a relationship of conflict, violence, and domination.

Cosmopolitan Government in Europe Owen Parker, 2013-04-26 The invocation of the market has been omnipresent in media discussions of crisis Europe. On the one hand, the market is presented as that to which EU member states must collectively respond. It is the very purpose of a post-national government and that which dictates individual and collective identities. The expansion of the market is that which guarantees and constitutes peace in Europe. On the other hand, the market is that which government must seek to tame. It is the servant of government and ought not be permitted to undermine collective identities and solidarities associated with the juridical imaginary of social contract and sovereign nation state. It is from this perspective the expansion of the social institutions of nation state into the post-national arena that will constitute a lasting peace in Europe. *Cosmopolitan Government in Europe* uses a Foucauldian lens to consider the ethics of the scholarly and institutional discourses associated with these apparently divergent market and legal cosmopolitan visions of Europe. It reflects on attempts to reconcile or move beyond these discourses, particularly through the invocation of more pluralist modes of governance, but claims that such moves have been largely unsuccessful in both practice and theory. It argues that the very ambiguity in the relationship between the ideal subjects that these market and legal visions promote respectively, post-national entrepreneur and citizen, is that which permits a space for resistance and politics. Thus, the book argues for a pragmatic politics which is cognizant of the violent potential inherent in any cosmopolitan attempt to govern Europe while recognising the contemporary dangers associated with the dominance of a market cosmopolitan Europe. This work is an important and timely intervention in contemporary debates about democratic Europe and its shortcomings and will be of great interest to scholars of international political theory, European studies, and international political economy.

Space, Knowledge and Power Professor Stuart Elden, Dr Jeremy W Crampton, 2012-11-28 The first to engage Foucault's geographies in detail from a wide range of perspectives, this book is framed around his discussions with the journal *Hodoté* in the mid-1970s. The contributors, including a number of key figures

such as David Harvey Chris Philo Sara Mills Nigel Thrift John Agnew Thomas Flynn and Matthew Hannah discuss just what they find valuable and frustrating about Foucault's geographies This is a book which will both surprise and challenge

Critical Philosophy of Race Robert Bernasconi, 2023 The fifteen essays by distinguished philosopher of race Robert Bernasconi that are collected here demonstrate why the critical philosophy of race needs to take a historical turn Genealogies of the concepts of both race and racism clarify why some of the dominant strategies for combatting racism tend to be ineffective For example the Boasian UNESCO strategy that highlights biology's rejection of race neglects cultural racism Drawing on the work of Frantz Fanon the late Sartre and Michel Foucault Robert Bernasconi argues for a holistic approach that integrates the concrete experience of racism faced by individuals into the study of institutional structural and systemic racism His philosophical studies of such Black philosophers as Ottobah Cugoana Antenor Firmin and W E B Du Bois contribute to challenging the dominant philosophical canon This volume will be an essential resource for scholars and students interested in this resurgent topic

Inheritance in Psychoanalysis Joel Goldbach, James A. Godley, 2018-02-01 Anthology of recent cutting edge work in psychoanalysis and philosophy on the concept of inheritance In contrast to the way inheritance is understood in scientific discourse and culture more broadly inheritance in psychoanalysis is a paradox Although it's impossible strictly speaking for the unconscious to be inherited this volume demonstrates how the concept of inheritance can occasion a rich reassessment and reinvention of psychoanalytic theory and practice The collection enacts a critical traversal of inheritance for psychoanalysis from the most basic assumptions of natural or biological inheritance such as innateness heredity evolution and ontogenesis to analysis of the ways cultural traditions can be challenged and transformed and finally to the reinvention of psychoanalytic practice in which the ethics of inheritance is fully realized as the individual's responsibility to transform the social bond Featuring strong interdisciplinary

analysis rooted in both psychoanalysis and philosophy this volume further engages science politics and cultural studies and addresses contemporary political challenges such as autism and transgenderism Poststructuralism and Critical Theory's Second Generation Alan D. Foucault and Power Marcelo Hoffman, 2013-11-21 Michel Foucault is one of the most preeminent theorists of power yet the relationship between his militant activities and his analysis of power remains unclear The book explores this relationship to explain the development of Foucault's thinking about power Using newly translated and unpublished materials it examines what led Foucault to take on the question of power in the early 1970s and subsequently refine his thinking working through different models war and government and modalities disciplinary biopolitical and governmental Looking at Foucault's political trajectory from his immersion in the prisoner support movement to his engagements with the Iranian revolution and Solidarity in Poland the book shows the militant underpinning of his interest in the question of power and its various shifts and mutations This thorough account which includes the first translation of a report edited by Foucault on prison conditions will provide students in contemporary political theory with a better understanding of Foucault's thinking about power and of the interplay between political activities and theoretical productions
