An Introduction to Sociolinguistics Sharon K. Deckert, Caroline H. Vickers, 2011-05-19 This unique work analyzes the crisis in modern society building on the ideas of the Frankfurt School thinkers Emphasizing social evolution and learning processes it argues that crisis is mediated by social class conflicts and collective learning the results of which are embodied in constitutional and public law First the work outlines a new categorical framework of critical theory in which it is conceived as a theory of crisis It shows that the Marxist focus on economy and on class struggle is too narrow to deal with the range of social conflicts within modern society and posits that a crisis of legitimization is at the core of all crises It then discusses the dialectic of revolutionary and evolutionary developmental processes of modern society and its legal system This volume in the Critical Theory and Contemporary Society by a leading scholar in the field provides a new approach to critical theory that will appeal to anyone studying political sociology political theory and law

Language and Society in South Asia Michael C. Shapiro, Harold F. Schiffman, 2008-09-30 During the past two decades there has been a significant amount of research and publication concerning the sociolinguistics of South Asian languages Language and Society in South Asia is the first major attempt to assess the impact of this new literature It exposts the methodological and theoretical assumptions of sociolinguistic

descriptions of south Asian languages and contrasts them with the assumptions of earlier characterizations of these languages. An important feature of this book is its detailed examination of numerous schools of linguistic analysis within which most past descriptive work on South Asian languages has been carried out. This is done in language accessible both to the professional linguist and to non linguists interested in social aspects of language use in South Asia. Among the topics treated in this book are traditional taxonomies of South Asian languages, South Asia as a linguistic area, social dialectology, bi and multilingualism in South Asia, pidginization, creolization, and South Asian English, ethnographic semantics, and the ethnography of speaking. The work also contains an extensive bibliography of the scholarly literature pertinent to the study of South Asian languages in their social contexts.

Sociolinguistics Widya Catherine Perdhani, Isti Purwaningtyas, Emy Sudarwati, 2021-07-31. As an effort to portray the richness of how language is used by the society, the book entitled *Sociolinguistics: A Social Linguistics Reality* is a book worth reading to highlight the recent issues on language development. This book overviews important sources of materials as the background knowledge followed by some authentic samples of linguistics reality for both the teachers and the students to engage in classroom settings. The authors have chosen the most common topics found in the research on Sociolinguistics, covering the scope of Sociolinguistics studies: language codes in multilingual society, language variation, language and culture, language and politeness, and also the shift, the change, and the maintenance of language. These topics would be of valuable insights to develop students' awareness on their surrounding language phenomena and are considered to be helpful to invite more ideas to do research in Sociolinguistics. English teachers, students, researchers, as well as people in general will find this book beneficial since it gives some ideas, samples, activities, and projects which are open for discussion and collaboration. Language shapes the way we think and determine what we can think about. Benjamin Lee Whorf. *Language, Society and Power*. This fourth edition has been completely revised to include recent developments in theory and research and offers the following features: A range of new and engaging international examples drawn from everyday life, including material from social media and newspapers, cartoons, YouTube, and television. Two new chapters which cover Linguistic Landscapes, including signs, graffiti, and the internet, and Global Englishes, exploring variation in and attitudes to English around the world. Updated and expanded student research projects and further reading sections for each chapter.
