

Lecture 3 Different approaches to risk: Sociology

- We now move on to sociological theories. Note the change of focus and methodology.
- The two central theories of sociological risk research which started to dominate the field in the early 1990s were the *Risk and Culture* approach of Douglas and Wildavsky (1982) and the *Risk Society* approach of Ulrich Beck (1986, 1992).
- Also Giddens approach of the “*Third way*” was significant: Giddens follows through the implications of a critical citizenry and a decline in the capacity of nation states to manage the political economy for the political order.
