Sociological Methods In Context Hc:

Context and Method in Qualitative Research Gale Miller, Robert Dingwall, 1997-06-11 A critical examination of the principles and practice of qualitative research is provided in this book which examines the interplay between context and method making it invaluable for both the experienced and the beginning researcher A range of methodological and practical issues central to the concerns of qualitative researchers are addressed These include the validity and plausibility of qualitative methods the problems encountered using specific techniques in a range of social settings and the moral issues raised in qualitative research These themes are related to practical issues which are illustrated by a breadth of examples and in depth case studies The contributors look at the methods and strategies that they have used to study everyday life and make suggestions to readers on why and how they might conduct their own studies They raise issues that go beyond cookbook discussions of issues such as how to enter social settings manage the subjects of one's research and ask good questions in the process of formulating research strategies These issues are addressed within the framework of the larger purposes and uses of qualitative research where specific methodological problems are not used as ends in themselves

Environmental Stress Gary W. Evans, 1984-05-25 A systematic 1982 on human reactions to five environmental stress factors

Handbook of Ethnography Paul Atkinson, 2007-05-14 I wish the Handbook of Ethnography had been available to me as a fledgling ethnographer I would recommend it for any graduate student who contemplates a career in the field Likewise for experienced ethnographers who would like the equivalent of a world atlas to help pinpoint their own locations in the field Journal of Contemporary Ethnography No self-respecting qualitative researcher should be without Paul Atkinson's handbook on ethnography This really is encyclopaedic in concept and scope Many big names in the field have contributed so this has to be the starting point for anyone looking to understand the field in substantive topic theoretical tradition and methodology SRA News Ethnography is one of the chief research methods in sociology anthropology and other cognate disciplines in the social sciences This Handbook provides an unparalleled critical guide to its principles and practice The volume is organized into three sections The first systematically locates ethnography firmly in its relevant historical and intellectual contexts The roots of ethnography are pinpointed and the pattern of its development is

demonstrated The second section examines the contribution of ethnography to major fields of substantive research The impact and strengths and weaknesses of ethnographic method are dealt with authoritatively and accessibly The third section moves on to examine key debates and issues in ethnography from the conduct of research through to contemporary arguments The result is a landmark work in the field which draws on the expertise of an internationally renowned group of interdisciplinary scholars The Handbook of Ethnography provides readers with a one stop critical guide to the past present and future of ethnography It will quickly establish itself as the ethnographer s bible *Hankow* William T. Rowe,1992-12-01 This is the second volume of a two volume social history of nineteenth century Hankow a city of over one million inhabitants and the commercial hub of central China In the first volume *Hankow Commerce and Society in a Chinese City 1796 1889* 1984 the author emphasized the dynamism of late imperial commerce the relation of the metropolis to its hinterland and the corporate institutions of the city notably its guilds which assumed a number of functions we normally attribute to a municipal government In this volume the focus is on the people of Hankow in all their ethnic diversity occupational variety and constant mobility and on the social bonds that enabled this mass of people to live and work in a crowded city with much less disruptive social conflict than occurred in Hankow s counterparts in early modern Europe Built into the argument of the book is a running comparison nineteenth century Hankow with such cities as London and Paris in the somewhat earlier period when they too were experiencing the growing pains of nascent preindustrial capitalism How are we to account for the fact that the cities of early modern Europe were so much more prone to protest and social upheaval than Hankow was in a comparable stage of development The author finds the answer in the cultural hegemony of an activist elite that fostered moral consensus social harmony and an aura of solicitude for the well being of residents at every social level exemplified in such service institutions as poor relief firefighting and public security Toward the end of the nineteenth century however the social bonds that had held Hankow together were beginning to fragment as social polarization and growing class consciousness fostered an atmosphere of increasing unrest **Adoptees' Ethnic Identity Within Family and Social Contexts** Ellen E.

Pinderhughes,Rosa Rosnati,2015-12-15 This special issue addresses the construction of ethnic identity among international transracial adoptees which typically involve the placement of Black Asian Hispanic or Multiracial children with White parents International transracial adoptees similar to immigrants navigate a cultural and ethnic context other than their birth culture However they are unique in that they navigate these experiences within families who don t share their cultural ethnic and racial background Critical questions emerge about the construction and development of their ethnic identity These questions include the role that transracial adoptive parents play in providing cultural socialization exposure to children s birth culture the impact of culture camps designed to provide cultural socialization in the context of peers the intersection of adoptive identity and ethnic identity and youth adjustment whether relations between ethnic identity and adjustment are linear or curvilinear the role of bicultural identity integration as a link between ethnic identity and psychosocial adjustment and ethnic

identity processes among internationally transracially adopted young adults who mentor younger adoptees from similar cultures These questions are addressed in this special issue in a collection of studies that examine ethnic identity among diverse international transracial adoptees at different ages adopted into two countries and using differing sample sizes and methodologies International transracial adoptive families represent a microcosm of the growing international transracial and transethnic social transactions taking place in this diverse world The collective findings in this special issue about the multidimensionality of ethnic identity and its intersectionality with other identities across developmental eras not only enhance knowledge about identity development among international transracial adoptees but also expand understanding about identity development in general This is the 150th volume in this Jossey Bass series New Directions for Child and Adolescent Development Its mission is to provide scientific and scholarly presentations on cutting edge issues and concepts in this subject area Each volume focuses on a specific new direction or research topic and is edited by experts from that field
