Story Of Hillebrand Estates Winery:

The Story of Hillebrand Estates Winery Peter G. Mielzynski-Zychlinski, 2001 From one of the founders of Hillebrand Estates comes a fascinating account of the development and establishment of this award winning Niagara winery The story of how Hillebrand Estates Winery became one of the top producers of world class wines in Canada is truly amazing When it was founded in 1982 only four other estate wineries existed in the Niagara region now there are over forty Clearly Hillebrand Estates is one of the pioneers in the art of winemaking in this country From the beginning Hillebrand's goal was to develop high quality Ontario wines that would rival the European imports appearing on store shelves Hillebrand's innovation and expertise has ensured that it is one of the leading producers of top quality wine in the Niagara region The winery was the first to develop contracts for Niagara growers guaranteeing ten years of crop purchases Hillebrand was also the first Canadian winery to bring Icewine to market They have won many prestigious national and international awards for their wines and their wine tasting tours and European style wine market stores have been instrumental in developing a market for Canadian wines A wonderful introduction to the art of winemaking in Canada The Story of Hillebrand Estates Winery is recommended reading for all wine lovers

Wines of Eastern North America Hudson Cattell, 2014-01-15 In 1975 there were 125 wineries in eastern North America By 2013 there were more than 2 400 How and why the eastern United States and Canada became a major wine region of the world is the subject of this history Unlike winemakers in California with its Mediterranean climate the pioneers who founded the industry after Prohibition 1933 in the United States and 1927 in Ontario had to overcome natural obstacles such as subzero cold in winter and high humidity in the summer that favored diseases devastating to grapevines Enologists and viticulturists at Eastern research stations began to find grapevine varieties that could survive in the East and make world class wines These pioneers were followed by an increasing number of dedicated growers and winemakers who fought in each of their states to get laws dating back to Prohibition changed so that an industry could begin Hudson Cattell a leading authority on the wines of the East in this book presents a comprehensive history of the growth of the industry from Prohibition to today He draws on extensive archival research and his more than thirty five years as a wine journalist specializing in the grape and wine industry of the wines of eastern North America The second section of the book adds detail to the history in the form of multiple appendixes that can be referred to time and again Included here is information on the origin of grapes used for wine in the East the crosses used in developing the French hybrids and other varieties how the grapes were named and the types of wines made in the East and when Cattell also provides a state by state history of the earliest wineries that led the way

Nation Builders and Enemy Aliens Gerhard P. Bassler, 2021-11-09 Today German Canadians are among Canada's most assimilated citizens often distinguishable from other Canadians by their name only For centuries their pioneer farmers economic developers industrialists professionals musicians artists missionaries fisherman boat builders and soldiers have acquired an acknowledged reputation as nation

builders in Canada Not too long ago however they were also associated with Canada's enemy in two world wars discriminated against and subjected to infringements of their citizenship rights Virtually overnight Canadians of German speaking background were recast into disloyal enemy aliens Anti German sentiments and stigmas unknown in Canada before World War I became firmly entrenched and have obliterated their legacy as nation builders This book documents and illustrates how German Canadians have experienced Canada and how Canada has experienced German Canadians over the course of four centuries It shows what influence Canada's relations with Germany had on this development This is the first comprehensive synopsis of the German experience in Canada **Meaningful Pasts** Russell Johnston, Michael

Ripmeester, 2024-01-31 In *Meaningful Pasts* Russell Johnston and Michael Ripmeester explore two strands of identity making among residents of the Niagara region in Ontario Canada First they describe the region's official narratives most of which celebrate the achievements of white settlers with a mix of storytelling rituals and monuments Despite their presence in local lore and landmarks these official narratives did not resonate with the nearly one thousand residents who participated in five surveys conducted over eleven years Instead participants drew on contemporary people places and events Second the authors explore the emergence of Niagara's wine industry as a heritage narrative The book shares how the survey participants embraced the industry as a local identifier and indicates how the industry's efforts have rekindled the residents' interest in agriculture as a significant element of regional heritage and local identities Revealing how the profiles of local narratives and commemorations become entwined with social cultural economic and political power *Meaningful Pasts* illuminates the fact that local narratives retain their relevance only if residents find them meaningful in their day to day lives

Wine East ,2000 *The World of Niagara Wine* Michael Ripmeester, Phillip Gordon Mackintosh, Christopher Fullerton, 2013-07-01 *The World of Niagara Wine* is a transdisciplinary exploration of the Niagara wine industry In the first section contributors explore the history and regulation of wine production as well as its contemporary economic significance The second section focuses on the entrepreneurship behind and the promotion and marketing of Niagara wines The third introduces readers to the science of grape growing wine tasting and wine production and the final section examines the social and cultural ramifications of Niagara's increasing reliance on grapes and wine as an economic motor for the region The original research in this book celebrates and critiques the local wine industry and situates it in a complex web of Old World traditions and New World reliance on technology science and taste as well as global processes and local sociocultural reactions Preface by Konrad Ejbich *Quill & Quire* ,2001 **Canadian Books in Print.
