Lee, Susan Rochette-Crawley, 2000-12-30 While the short story has existed in various forms for centuries it has particularly flourished during the last hundred years and especially in recent decades Though many outstanding novels have been written in the 20th century most of these writers have also published short fiction And in many cases their short stories exhibit a greater degree of coherence and integrity than their longer works The rise of creative writing programs in the 1960s helped fuel the growth of the short story and brought academic attention to it So too the emergence of multiculturalism encouraged authors of diverse backgrounds to write about their cultures This reference is a guide to the contemporary English language short story Included are alphabetically arranged entries for roughly 50 English language short story writers from around the world such as Chinua Achebe John Barth Jamaica Kincaid Salman Rushdie and Amy Tan More than half the American writers profiled are from historically marginalized groups such as Jewish Americans African Americans and Asian Americans Most of these authors have been active since 1960 and they reflect a wide range of experiences and perspectives in their works Each entry is written by an expert contributor and includes biographical material a brief review of existing criticism a lengthier analysis of specific works and a selected bibliography of primary and secondary sources The volume begins with a detailed introduction to the short story genre and concludes with an annotated bibliography of major works on short story theory

The Stories We Are William Lowell Randall, 2014-01-01 William Lowell Randall explores the links between literature and life and speculates on the range of storytelling styles through which people compose their lives In doing so he draws on a variety of fields including psychology psychotherapy theology philosophy feminist theory and literary theory *British Women Short Story Writers* Emma Young, 2015-06-30 Essays tracing the evolving relationship between British women writers and the short story genre from the late Nineteenth Century to the present day **Litro 103 - The 'Anti-Love Issue' - Short Stories and Short Fiction**, **Anti-colonial research praxis** Caroline Lenette, 2025-04-22 How can anti colonial research methodologies be transformative and achieve knowledge justice This book brings together leading scholars from around the world to share methodological knowledge grounded in First Nations and majority world expertise and wisdom The authors challenge western centric and colonial approaches to knowledge production redefining the possibilities of what we can achieve through social research The First Nations and majority world perspectives highlighted here share a common aim of disrupting established beliefs about research methodologies and unquestioned norms in the academy Authors in this edited collection describe how they draw on Indigenous knowledge systems feminist frameworks and creative methodologies

as forms of anti colonial research praxis Spanning development studies geography education sexual and reproductive health humanitarian studies and social work the authors reflexively discuss the specific factors shaping how they engage in research ethically The book reimagines social research through an anti colonial lens concluding with a set of provocations for anti colonial research praxis that situate this important work in the context of ongoing colonial violence and institutional constraints This book is an essential guide for researchers and scholars within and beyond the academy on how anti colonial research praxis can produce meaningful outcomes especially in violent and troubled times Cover art courtesy of Tawny Chatmon
