Story Of Gullivers Travels As Adapted Fr:

Doctor Who and the Art of Adaptation Marcus K. Harmes, 2014-05-01 Although it started as a British television show with a small but devoted fan base Doctor Who has grown in popularity and now appeals to audiences around the world In the fifty year history of the program Doctor Who s producers and scriptwriters have drawn on a dizzying array of literary sources and inspirations Elements from Homer classic literature gothic horror swashbucklers Jacobean revenge tragedies Orwellian dystopias Westerns and the novels of Agatha Christie and Evelyn Waugh have all been woven into the fabric of the series One famous storyline from the mid 1970s was rooted in the Victoriana of authors like H Rider Haggard and Arthur Conan Doyle and another was a virtual remake of Anthony Hope s *The Prisoner of Zenda* with robots In *Doctor Who and the Art of Adaptation* Fifty Years of Storytelling Marcus Harmes looks at the show s frequent exploration of other sources to create memorable episodes Harmes observes that adaptation in Doctor Who is not just a matter of transferring literary works to the screen but of bringing a diversity of texts into dialogue with the established mythology of the series as well as with longstanding science fiction tropes In this process original stories are not just resituated but transformed into new works Harmes considers what this approach reveals about adaptation television production the art of storytelling and the long term success and cultural resonance enjoyed by Doctor Who *Doctor Who and the Art of Adaptation* will be of interest to students of literature and television alike and to scholars interested in adaptation studies It will also appeal to fans of the series interested in tracing the deep cultural roots of television s longest running and most literate science fiction adventure

Adaptation Dennis Cutchins, Laurence Raw, James M. Welsh, 2010-02-23 From All Quiet on the Western Front and Gone with the Wind to No Country for Old Men and Slumdog Millionaire many of the most memorable films have been adapted from other sources And while courses on film studies are taught throughout the world The Pedagogy of Adaptation makes a strong case for treating adaptation studies as a separate discipline What makes this book unique is its claim that adaptation is above all a creative process and not simply a slavish imitation or reproduction of an original This collection of essays focuses on numerous contexts to emphasize why adaptations matter to students of literature It is the first such volume devoted exclusively to teaching adaptations from a practical teacher centered angle Many of the essays show how adaptation as a discipline can be used to prompt reflection on cultural historical and political differences Written by specialists in a variety of fields ranging from film radio theater and even language studies the book adopts a pluralistic view of adaptation showing how its processes vary across different contexts and in different disciplines Defining new horizons for the teaching of adaptation studies these essays draw on such disparate sources as Frankenstein Moby Dick and South Park This volume not only provides a resource book of lesson plans but offers valuable pointers as to why teaching literature and film can help develop students skills and improve their literacy *The Road to Science Fiction: From Gilgamesh to Wells* James
