## **Story Power:**

*Story Power* Elizabeth Cervini Manvell, 2011-01-16 Not every teacher loves history and the same can be said about students. It doesn't have to be that way. People love a good story. History is a collection of stories that trace the path people famous and little known took as they faced the challenges of life. The choices they made teach us about human nature and help us better understand the world each other and ourselves. When students hear something interesting something they connect to personally they pay attention and want to know more. The stories in primary materials a diary letter census record photograph official report breathe life into history and invite critical thinking and conceptual understanding. *Story Power* teaches us where to find stories to assess the quality of sources and to go past shallow summaries to the complicated story below the surface. Readers share in the author's personal journey beginning with discovery of Civil War letters to piecing together the true story of the soldier's lives and to a more complete understanding of America during the Civil War. **Story**

*Love Is a Story* Robert J. Sternberg, 1999-06-03 In this groundbreaking work Robert Sternberg opens the book of love and shows you how to discover your own story and how to read your relationships in a whole new light What draws us so strongly to some people and repels us from others What makes some relationships work so smoothly and others burst into flames Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us Drawing on extensive research and fascinating examples of real couples Sternberg identifies 26 types of love story including the fantasy story the business story the collector story the horror story and many others each with its distinctive advantages and pitfalls and many of which are clashingly incompatible These are the largely unconscious preconceptions that guide our romantic choices and it is only by

becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships As long as we remain oblivious to the role our stories play we are likely to repeat the same mistakes again and again But the enlivening good news this book brings us is that though our stories drive us we can revise them and learn to choose partners whose stories are more compatible with our own Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner Are you a traveler a gardener a teacher or something else entirely Love is a Story shows you how to find out
