Kosmische Strahlung II / Cosmic Rays II K. Sitte, 2012-12-06 **Fascism's Return** Richard Joseph

Golsan, 1998-01-01 In *Fascism's Return* eleven leading American and European scholars examine the resurgence of fascism from many angles providing an essential and timely view of this troubling moment in European political cultural and intellectual history Intellectual and public scandals surrounding the fascist past including the highly publicized Barbie and Touvier trials in France are addressed Other writers focus on controversial efforts to revise the historical representation of fascism in Germany and France The reemergence of the new fascist movements and ideologies in various European nations is also examined A final essay considers the controversial U S support during the 1980s of Central American dictatorships

Ernst Jünger Justin Clemens, Nicolas Hausdorf, Birgit Lang, Marilyn Stendera, Giles Fielke, 2021-12-01 More than twenty years after Ernst Jünger's death in 1998 the controversial German writer's work continues to compel the attention of readers critics and scholars In early 2019 Jünger's diaries the *Strahlungen* written while he was an officer in occupied Paris during World War II were published in English to wide acclaim These intimate accounts of high literary and philosophical quality reveal Jünger negotiating compliance with acts of subversion and resistance against the Nazi regime His life is evidence that history can be both real and unrealistic at once crystallising something essential about a twentieth century that witnessed the rise of total mobilisation global war and unprecedented technologies of mass extermination This volume presents four new essays by established and emerging scholars on Jünger's work and legacy Together they provide biographical philosophical psychological and aesthetic access points to a major twentieth century German intellectual who like few others invites us to investigate the ambiguities constraints and imperatives of our own times **European Memories of the**

Second World War Helmut Peitsch, Charles Burdett, Claire Gorrara, 2006 During the fifty years since the end of hostilities European literary memories of the war have undergone considerable change influenced by the personal experiences of writers as well as changing political social and cultural factors This volume examines changing ways of remembering the war in the literatures of France Germany and Italy changes in the subject of memory and in the relations between fiction autobiography and documentary with the focus being on the extent to which shared European memories of the war have been constructed **A Literary Occupation** William J. O'Keeffe, 2013-12-01 Pax in Bello peace in the midst of war was the motto one writer chose to signify the private dilemma how could the humanist clad in the uniform of the occupier write of liberal values see with a liberal eye and publish or hope to From the armistice peace of occupied France from the partisan war and incipient civil war of Greece from the all out warfare in southern Russia came writing that revealed not just the everyday split consciousness resulting from the overlay of Nazi ideology but writing also that circumvented and in places subverted the propaganda imperative which then governed everything in print For a European community that now sees itself as exemplar and upholder of liberal democratic values the study of that first great test of modern liberal conscience is

instructive Some essayed the test in the craft of writing and came away with some honour Their works are examined in this book

Corpuscles and Radiation in Matter II / Korpuskeln und Strahlung in Materie II R. Kollath, R. D. Birhoff, Lennart Simons, E Merzbacher, Ward Whaling, 2012-12-06

The Representation of War in German Literature Elisabeth Krimmer, 2010-06-10 The history of literature about war is marked by a fundamental paradox although war forms the subject of countless novels dramas poems and films it is often conceived as indescribable Even as many writers strive towards an ideal of authenticity they maintain that no representation can do justice to the terror and violence of war Readings of Schiller Kleist J nger Remarque Grass B ll Handke and Jelinek reveal that stylistic and aesthetic features gender discourses and concepts of agency and victimization can all undermine a text s martial stance or its ostensible pacifist agenda Spanning the period from the Revolutionary and Napoleonic Wars to the recent wars in Yugoslavia and Iraq this book investigates the aesthetic theoretical and historical challenges that confront writers of war

Disciplining Germany Jaimey Fisher, 2007-06-20 A look at how the discussions debates and controversies in Germany about youth and reeducation after World War II helped Germans come to terms with their Nazi past negotiate Allied occupation and construct postwar German identity During Hitler s reign the Nazis deliberately developed and exploited a youthful image and used youth to define their political and social hierarchies After the war with Hitler gone but still requiring cultural exorcism many intellectuals authors and filmmakers turned to these images of youth to navigate and negotiate the most difficult questions of Germany s recent nefarious past Focusing on youth education and crime allowed postwar Germans to claim one last realm of sovereignty against the Allies own emphatic project of reeducation Youth reeducation and reconstruction became important sites for the occupied to confront not only the recent past but to negotiate the present occupation and ultimately direct the future of the German nation Disciplining Germany analyzes a variety of media including literature news media intellectual history and films in order to argue that youth and education played a central role in Germany s coming to terms with the Nazi past Although there has been a recently renewed interest in Germany s coming to terms with the past this attention has largely ignored the role of youth and reeducation This lacuna is particularly perplexing given that the Allies reeducation project became in many ways a cipher for the occupational project as a whole Disciplining Germany opens up the discussion and points toward more general conclusions not only about youth and education as sites for wider socio political and cultural debates but also about the complexities of occupation and the intertwining of different national cultures In this investigation the study attends to both high and low cultural text to specialized versus popular texts to examine how youth was mobilized across the generic spectrum With these interdisciplinary approaches and timely interventions Disciplining Germany will find a diverse readership including upper division and graduate courses in German studies and German history as well as those general readers interested in Nazi

Germany cultural history film and literary studies youth culture American studies and post conflict and occupational situations **Hitler's Generals** Correlli Barnett, 1989 With essays from Carlo D Este Martin Blumenson Walter Goerlitz Gen John Hackett and Martin Middlebrook Hitler's Generals probes the central mystery of why a generation of the world's most able commanders and staff officers came to be seduced by Hitler and why they failed to deflect him from his disastrous decisions From Kenneth Macksey's essay on Heinz Guderian who created the Panzer divisions and innovated the use of dive bombers to Earl Ziemke's portrait of Karl Gerd von Runstedt whose stalling of the German blitzkrieg allowed 338 000 Allied troops enough time to fall back on Dunkirk and escape to fight again these are bold and incisive assessments of the twentieth century's greatest strategists and villains Book jacket
