James Lovelock,2001 With over fifty patents to his name and a stream of awards including one from the Queen of England
James Lovelock is a distinguished scientist who has been widely recognized by the international scientific community In this
inspiring autobiography Lovelock tells the story of his life as an independent scientist from his first job as a lab assistant to
his energetic crusade to save the ozone layer We see how Lovelock came to develop his inventions and theories he recounts
the history behind his famous Gaia theory and talks us through his many inventions We learn about the electron capture
detector which was extremely important in the development of environmental awareness revealing for the first time the
ubiquitous distribution of pesticide residues in the environment and the global distribution of CFCs He talks about his work
with NASA where his ideas were adopted in the program for planetary exploration And he tells about the work he has done
for organizations like the Ministry of Defence The Marine Biological Association and companies such as Shell and Hewlett
Packard Written in a sharp and energetic style James Lovelock s book will entertain and inspire anyone interested in science
or the creative spirit *Dodge City and the Birth of the Wild West* Robert R. Dykstra,Jo Ann Manfra,2017-07-15 Raised on
Gunsmoke Bat Masterson and The Life and Legend of Wyatt Earp we know what it means to get outta Dodge to make a hasty
escape from a dangerous place like the Dodge City of Wild West lore But why of all the notorious violent cities of old did
Dodge win this distinction And what does this tenacious cultural metaphor have to do with the real Dodge City In a book as
much about the making of cultural myths as it is about Dodge City itself authors Robert Dykstra and Jo Ann Manfra take us
back into the history of Dodge to trace the growth of the city and its legend side by side An exploration of murder statistics
court cases and contemporary accounts reveals the historical Dodge to be neither as violent nor as lawless as legend has it
but every bit as intriguing In a style that captures the charm and chicanery of storytelling in the Old West Dodge City and the
Birth of the Wild West finds a culprit in a local attorney Harry Gryden who fed sensational accounts to the national media
during the so called Dodge City War of 1883 Once launched the legend leads the authors through the cultural landscape of
twentieth century America as Dodge City became a useful metaphor in more and more television series and movies
Meanwhile back in the actual Dodge struggling on a lost frontier a mirror image of the mythical city began to emerge as
residents increasingly embraced tourism as an economic necessity Dodge City and the Birth of the Wild West maps a
metaphor for belligerent individualism and social freedom through the cultural imagination from a historical starting point to
its mythical reflection In this the book restores both the reality of Dodge and its legend to their rightful place in the
continuum of American culture *American Trails Revisited* Lyn Wilkerson,2003-07 American Trails Revisited follows in the

proverbial footsteps of the many explorers and pioneers who traveled across the American West Based on the works of the Federal Writers Project in the 1940 s this book organizes updates and enhances the original material to provide an easy to follow historical travel guide to the Western United States Along with the history of the people and places you will find along the way this book also includes information for local state and national parks A portion of the proceeds from this book will be used to support local historical organizations so that the history that you rediscover in your travels will remain for those who follow in your footsteps
