Record Office, 1929 A record of a journey from Bombay to Nootka Sound B C and Prince William s Sound Alaska made in the years 1785 1786 *The Weird South* Melanie Benson Taylor, 2025-06-01 How do we read southern literature in a postplantation postregional and posthuman moment How do we address the urgent contemporary catastrophes of the Anthropocene in these newly leveled landscapes Put simply how do we parse the levels of human responsibility both for apocalypse and for deliverance in contexts where settler colonial and racial capitalist histories dramatically shape our reality Reading modern and contemporary southern literary texts from a variety of perspectives these lectures engage the new materialist object oriented ontologies that critique and decenter human agency while uncovering the lasting determinative haunting realities of humanity s detention within what Timothy Morton calls the weird web of our entwined social racial economic and natural ecologies As a concept in the burgeoning conversation about Anthropocenic disaster and climate emergency the weird is a powerful way to conceptualize not just human hubris but also humility we are no different from no more powerful than any other living or inanimate objects neither the organisms that take up residence in our bodies nor the myriad things that we imagine we create fashion patrol and control Distant Dominion Barry Gough, 2011-11-01 The voyages of Cook and Vancouver heralded a vast influx of irrepressible white men They brought with them their morals ideologies knowledge technology plants and animals They also brought diseases rum and guns powers to build and powers to destroy Until the 1700 s the Northwest Coast of North America stood largely apart from the civilized world Formidable mountain barriers and remoteness from Atlantic sea lanes kept the territory outside the orbit of emerging European empires In the late 18th and early 19th centuries however Britain Spain France Russia and the United States vied for control of this promising new frontier Three of history s greatest mariners Sir Francis Drake Captain James Cook and Captain George Vancouver spearheaded British expeditions of discovery and trade to the Northwest coast Despite competition from her European and American rivals Britains ability to use and control the sea enabled her to establish by the late 1700 s a beachhead of empire in the area now known as British Columbia Gough shows how by outmanoeuvring her Spanish rivals in a skilful game of diplomatic chess Britain concluded the Nootka Agreement Thus she was able to exploit her trading partnership with the coast Indians and cement a lucrative sea borne commerce with the Far East The arrival overland of the Nor westers and other fur trading groups further strengthened Britain s financial and political interests in the area ending forever the isolation of Northwest America and changing beyond measure the culture of its Indian peoples Distant Dominion is the first comprehensive survey to examine Britain s motives for expeditions to this most distant frontier of British maritime development It is also the first to draw the history of the coast into the general realm of Pacific history relating its development to events in Europe the American eastern seaboard

Australia the Falkland Islands and China This entertaining book offers fresh insight into an exciting chapter of North American history The Northwest Coast Barry M. Gough,2011-11-01 The voyages of Cook and Vancouver heralded a vast influx of irrepressible Europeans fur traders whalers administrators visitors missionaries miners botanists and sailors people of every class and distinction They came to conquer the Pacific its islands and its continents for God gold and glory They brought with them their morals ideologies knowledge technology plants and animals They also brought diseases rum and guns They brought with them powers to build and powers to destroy from the Epilogue The Northwest Coast was irrevocably changed the day that Captain James Cook sailed into Nootka Sound in 1778 Cook s discovery of the sea otter population along the coast initiated the maritime fur trade which in turn led to feverish competition among several nations especially Britain Russia and the United States as well as the celebrated rivalry between Spain and Britain for control of Nootka By 1812 a toe hold of British empire was established and the aboriginal way of life was shattered The Northwest Coast documents Britain s rise to pre eminence in this far flung corner of the empire It shows how the relentless activities of its commercial interests the adroit use of its naval power and the steely resolve of its diplomats secured British claims to dominion and rights to trade along the Northwest Coast Written by a leading maritime scholar and based on fresh research into known manuscripts and printed works on Pacific trade and exploration this book incorporates new interpretations on exploration and commercial activity in this area It documents the interaction often violent between British sailors and aboriginal people depicts many of the rivalries among British mariners and examines various claims to the discovery of the Northwest Passage The Northwest Coast significantly expands and updates the author s award winning book Distant Dominion Gough s compelling narrative combined with his extensive use of quotations from the journals and correspondence of explorers and merchant traders provide insights into the motives and attitudes of these early pioneers of the empire
