Strangers In Their Own Land A History Of Mexican Americans:

Strangers in Their Own Land Albert Prago, 1973 An account of the history of Mexican Americans from the time of the Spanish conquistadores to the present and a discussion of the problems and discrimination faced by Chicanos *Mexican and Mexican-American Agricultural Labor in the United States* Martin Howard Sable, 1987 **The Los Angeles Barrio, 1850-1890** Richard Griswold del Castillo, 1982-08-30 An important book which provides the first detailed analysis of the changes that transformed one of the most important Mexican pueblos in the Southwest into a Chicano urban barrio Using quantitative data together with traditional secondary and primary historical sources the author traces the major socio economic political and racial factors that evolved during the post Mexican War decades and that created a subordinate status for Mexican Americans in a burgeoning American city Western Historical Quarterly Griswold del Castillo's history of the Mexican community during the first decades of the American era concentrates on the mechanisms which the community adopted as it was confronted by changes in the economic structure of the region the immigration of Anglo Americans as well as Mexicans and by the effects of racial segregation on the community The aim is to reveal the history of a community undergoing rapid social and economic change not to write the history of one society's domination of another UCLA Historical Journal Los Angeles Chicanos emerge not as the homogeneous passive victims of stereotypical fame but as internally diverse active participants in the simultaneous struggles to maintain their socio cultural fabric and to capture a part of the American Dream The author effectively demonstrates that the Chicano decline occurred not because of cultural weaknesses but as the almost inevitable result of Anglo prejudice numerical domination and control of political and economic institutions an admirable book and a fine piece of scholarship American Historical Review *Hispanic Americans in the United States* United States. Department of Housing and Urban Development. Library, 1974 **Cosmopolitan Strangers in US Latinx Literature and Culture** Esther Álvarez-López, Andrea Fernández-García, 2023-03-30 This book presents a study of the figure of the stranger in US Latinx literary and cultural forms ranging from contemporary novels through essays to film and transborder art activism The focus on this abject figure is twofold first to explore its potential to expose the processes of othering to which Latinxs are subjected and second to foreground its epistemic response to neocolonial structures and beliefs Thus this book draws on relevant sociological literature on the stranger to unveil the political and social processes behind the recognition of Latinxs as out of place On the other hand and most importantly this volume follows the path of neo cosmopolitan approaches to bring to the fore processes of interrelatedness interaction and conviviality that run counter to criminalizing discourses around Latinxs Through an engagement with these theoretical tenets the goal of this book is to showcase the role of the Latinx stranger as a cosmopolitan mediator that transforms walls into bridges **Surviving Mexico** Celeste González de Bustamante, Jeannine E. AEJMC Knudson Latin America Prize Association for Education in Journalism and Mass Communication AEJMC Since 2000 more than 150 journalists have been killed in Mexico Today the country is one of the most dangerous in the world in which to be a reporter In *Surviving Mexico* Celeste Gonz lez de Bustamante and Jeannine E Relly examine the networks of political power business interests and organized crime that threaten and attack Mexican journalists who forge ahead despite the risks Amid the crackdown on drug cartels overall violence in Mexico has increased and journalists covering the conflict have grown more vulnerable But it is not just criminal groups that want reporters out of the way Government forces also attack journalists in order to shield corrupt authorities and the very criminals they are supposed to be fighting Meanwhile some news organizations enriched by their ties to corrupt government officials and criminal groups fail to support their employees In some cases journalists must wait for a green light to publish not from their editors but from organized crime groups Despite seemingly insurmountable constraints journalists have turned to one another and to their communities to resist pressures and create their own networks of resilience Drawing on a decade of rigorous research in Mexico Gonz lez de Bustamante and Relly explain how journalists have become their own activists and how they hold those in power accountable
