Strategic Air Power:

Strategic Air Power in Desert Storm John Andreas Olsen, 2013-11-05 In response to the Iraqi invasion of Kuwait on the second of August 1990 a small group of air power advocates in the Pentagon proposed a strategic air campaign Operation Desert Storm designed to drive the Iraqi army from Kuwait by a sustained effort against the major sources of Iraqi national power John Andreas Olsen provides a coherent and comprehensive examination of the origins evolution and implementation of this campaign His findings derive from official military and political documentation interviews with United States Air Force officers who were closely involved with the planning of the campaign and Iraqis with detailed knowledge and experience of the inner workings of the Iraqi regime SAC, a Primer of Modern Strategic Airpower Bill Yenne, 1985 **Strategic Air Power, the Pattern of Dynamic Security** Stefan Thomas Possony, 1949 **Air Power in the Age of Total War** John Buckley, 2006-05-09 Warfare in the first half of the 20th century was fundamentally and irrevocably altered by the birth and subsequent development of air power This work assesses the role of air power in changing the face of battle on land and sea Utilizing late 1990s research the author demonstrates that the phenomenon of air power was both a cause and a crucial accelerating factor contributing to the theory and practice of total war For instance the expansion of warfare to the homefront was a direct result of bombing and indirectly due to the extent of national economic mobilization required to support first rate air power status In addition the move away from the principle of total war with the onset of the Cold War and the replacement of air power by ICBMs is thoroughly examined This work should provide students of international history war studies defence and strategic studies with an insight into 20th century warfare **Strategic Air Warfare** Richard H. Kohn, Joseph P. Harahan, 1988 The ability of the American air forces to wage war independently and to carry the battle to the enemy's heartland has played a critical role in American air doctrine and military strategy since the 1930s Generals LeMay Johnson Burchinal and Catton explain their roles in flying and commanding bombing missions and campaigns during World War II in creating the atomic force in the immediate postwar years and in building the Strategic Air Command in the 1950s The Cuban Missile Crisis and the Vietnam War are also discussed *How Strategic Airpower has Changed the World Order* Nigel David MacCartan-Ward, Anthony Wells, 2025-11-04 The authors have provided an interesting and often eye opening read They argue how an effective maritime deterrence strategy is critically supported by enhanced strategic naval air power the points they make are worth the read and provide a starting point for discussions of how best to employ strategic air power The Journal of the Air Force Historical Foundation In this book the history and utility of land and carrier based strategic airpower is brought to life by the gallant exploits and photographs of B 17 aircraft Quittin Time and of its Navigator Fred Julian in the Second World War and by the unforgiving and unswerving dedication of Sharkey Ward and his Sea Harrier team in the Falklands war The overarching message is that the strategic airpower lessons of the past eight decades underpin the urgent need for the UK government to invest more wisely in its Fleet so that the latter may work

effectively in conjunction with the US Navy on the global mission to deter those that would harm us and to maintain the freedom of passage of all shipping throughout the global commons The authors show how a maritime deterrence strategy in a challenging world is critically underpinned by strategic air power at sea and on land Beginnings of Strategic Air Power Neville Jones,2003 Using official records the author traces the origins and early development of strategic bombing and examines its organs in the operations and staff planning of the First World War The experiences of the First World War should have been a valuable legacy to those who devised the counter offensive strategy in the years between the war Unfortunately the lessons learnt were soon forgotten and many of the operational and technical problems which the planners had begun to tackle in 1918 were not even seen to exist by the Air Staff during the 1920s and early 1930s **Airpower for Strategic Effect** Colin S. Gray,Director of National Security Studies Colin S Gray,2012-04 Airpower for Strategic Effect is intended to contribute to the understanding of airpower what it is what it does why it does it and what the consequences are This is the plot airpower generates strategic effect Airpower s product is strategic effect on the course of strategic history Everything about military airpower is instrumental to the purpose of securing strategic effect **How Effective is Strategic Bombing?** Gian P. Gentile,2001 As such it has for decades been used as an objective primary source and a guiding text a veritable Bible for historians of air power In this revisionist volume Gian Gentile examines afresh this influential document to reveal how it reflected to its very foundation the American conceptual approach to strategic bombing In the process he exposes the survey as largely tautological and thereby throwing into question many of the central tenets of American air power philosophy and strategy Airpower John Gooch,2013-11-05 The nine contributors to this volume study the rapid development of airpower during the twentieth century as well as the methodological problems involved in assessing such change
