Terrifying Tornadoes Kristen Rajczak Nelson, 2012-01-01 The terrible damage caused by tornadoes has been a focus of many newspapers and TV news programs Tornadoes strike quickly violently and almost everywhere on Earth The United States has more tornadoes each year than any other country One part of the nation experiences tornadoes so often it's called Tornado Alley In this book readers will learn how tornadoes are formed and what to do when a tornado warning is issued They'll see astonishing photographs of twisters and the destruction that these terrifying winds can cause *Terrifying Tornadoes* Louise Spilsbury, Richard Spilsbury, 2010 This book explores tornadoes and their devastating effects **Tornado Rips Up City** Louise Spilsbury, Richard Spilsbury, 2017-12-15 It's important for students to understand how tornadoes form their structure and when and where they're likely to strike Perhaps even more important is learning the damage they cause and how they affect communities around the world This book offers readers both important STEM content they'll need for science class as well as real stories of recent tornadoes including eye-opening photographs of the devastation they may cause and statistics boxes quantifying the damage A news magazine style layout makes each section seem fresh and exciting while also allowing for the inclusion of witness quotes and headlines *When Tornadoes Touch Down* Therese M. Shea, 2015-07-15 For years people in Tornado Alley were the ones who had to worry most about tornadoes occurring near their homes However as climate change occurs tornadoes have become more common around the United States Tornado prediction and tracking has gotten increasingly better too Readers learn how tornadoes happen how they are measured and what to do if a tornado watch or warning is issued Real life stories of tornado devastation such as those that occurred in Joplin Mississippi in 2011 emphasize how serious this weather event can be Full color photographs and sidebars offer additional perspectives about tornado chasing destruction and preparation *Surviving Tornadoes* Elizabeth Raum, 2011-07 Surviving Tornadoes will look at children who experienced tornadoes around the world through history and up to the present day Terrifying Tornadoes Kristen Rajczak Nelson, 2012 The terrible damage caused by tornadoes has been a focus of many newspapers and TV news programs Tornadoes strike quickly violently and almost everywhere on Earth The United States has more tornadoes each year than any other country One part of the nation experiences tornadoes so often it's called Tornado Alley In this book readers will learn how tornadoes are formed and what to do when a tornado warning is issued They'll see astonishing photographs of twisters and the destruction that these terrifying winds can cause **1,001 Facts that Will Scare the S#*t Out of You** Cary McNeal, 2010-03-18 Fact Chocolate contains the alkaloid theobromine which in high doses can be toxic to humans and in even small amounts can kill dogs parrots horses and cats This means that despite its name the Kit Kat candy bar is not a recommended snack for your kitty cat I wonder how many cats have died because of this confusion Fact The most germ laden place on your toilet isn't the seat or even the bowl it's the handle The solution Don't flush Let the next guy worry about it There are just the facts and then there are just the facts that will frighten the bejeezus
