Testimonios Sobre El Tlc:

Testimonios sobre el TLC Carlos Arriola, 1994 Papers focus on the implications of integration into a North American trade agreement for Mexico Leading authorities such as Victor Urquidi and Carlos Urentes assess such issues as the legal obstacles to economic integration the effect on companies and the future of the integration process Handbook of Latin American Studies v 57

Globalisation, Trade Liberalisation, and Higher Education in North America C.W. Barrow, S. Didou-Aupetit, J. Mallea, 2012-12-06 Since the mid 1970s economic and educational developments in Canada Mexico and the USA have been influenced by two parallel trends 1 the resurgence of global economic competition and 2 the active promotion of knowledge intensive service based economies Both trends have been reinforced by the liberalisation of international trade under the rubric of the General Agreement on Tariffs and Trade GATT and the World Trade Organisation WTO The North American Free Trade Agreement NAFTA has accelerated these trends in all three countries by providing the framework for an integrated regional economy in North America designed to compete against comparable trading blocs centred in Japan and the European Union The purpose of this study is to examine the developing relationship between trade liberalisation post industrialisation and higher education in Canada Mexico and the USA The larger trends and linkages that we identify are by no means confined to these three countries We have chosen to focus on Canada Mexico and the USA because the adoption of the North American Free Trade Agreement has accelerated the development of economic policies in these countries which identify higher education as a central component of each country's new competitiveness strategy As a consequence government policy makers and higher education decision makers are responding with targeted initiatives to promote the internationalisation of higher education generally and to promote trilateral co operation among North American higher education institutions specifically

Natural Allies? Klepak, 1996-06-15 To what extent are Canada and Mexico natural allies in continental and world affairs How will this relationship unfold in terms of security issues in the aftermath of the Cold War These questions were the focus of a workshop held in Mexico City in 1994 from which this book took its themes historical context American influence and potential cooperative security options A process of redefining security concerns in a changing hemisphere is clearly underway and Natural Allies examines economic factors drug trafficking questions of autonomy and strategic alliance and defence priorities as intersecting interests in the Canada Mexico dialogue This is volume two in CHANGING AMERICAS a series published in collaboration with the Canadian Foundation for the Americas FOCAL

Safeguards and Antidumping in Latin American Trade Liberalization J. Michael Finger, Julio J. Nogues, 2005-12-05 Until the 1990s the main users of safeguards and antidumping laws were Australia Canada the European Union and the United States Since then many countries have implemented such laws leading to a proliferation in antidumping and safeguard activity across the world This timely book documents the political economy surrounding the implementation of these laws in seven Latin American countries and provides details on the institutions created implementation of the laws and

subsequent activity It finds that in the larger political context antidumping and safeguards are a necessary quid pro quo to certain important sectors to obtain much more liberalized trade policies for the general economy Free Traders Malcolm Fairbrother,2020 Today s global economy was largely established by political events and decisions in the 1980s and 90s when scores of nations opened up their economies to the forces of globalization In Free Traders Malcolm Fairbrother argues that politicians embrace of globalization was much less motivated by public preferences than by the agendas of businesspeople and other elites Drawing on over one hundred interviews with decision makers and analyses of archival materials from Canada Mexico and the U S Fairbrother tells the story of how each country negotiated and ratified two agreements that substantially opened and integrated their economies the 1989 Canada U S and trilateral 1994 North American Free Trade Agreement Contrary to what many commentators believe these agreements like free trade elsewhere were based less on mainstream neoclassical economics than on the informal self serving economic ideas of business While the stakes in the globalization debate remain high Free Traders uses a comparative historical approach to sharpen our understanding of how globalization arose in the past to provide us with clearer trajectory for how it will develop in the future

The Shadow of Ulysses José Antonio Aguilar Rivera,2000-01-01 Written by one of the most promising young scholars on the Mexican intellectual scene The Shadow of Ulysses attempts to reconnect the American and Mexican intellectual experiences by exploring historical as well as contemporary issues in both countries The book s first chapters discuss the relationship between American and Mexican intellectuals in the aftermath of the Mexican Revolution and offer a sociological comparison of the 1960s intellectual generations in the United States and Mexico Later chapters provide a critical assessment of two prominent Mexican public intellectuals well known to the American reader Carlos Fuentes and Jorge Castaneda The Shadow of Ulysses the Mexican edition of which was awarded the Alfonso Reyes National Prize offers a rare glimpse into the development of contemporary Mexican thought and reveals the under recognized intellectual ties that existed between our two countries in the first half of the twentieth century Urban Competitiveness and Innovation

Pengfei Ni,Zheng Qiong Jie,2014-01-31 Against the backdrop of today s climate of economic globalization and the rapid development of information this timely book explores the complex concept of competitiveness between cities The expert contributors illustrate that innovation is a **Democratization Without Representation** Kenneth C. Shadlen,2007-08-09 When countries become more democratic new opportunities arise for individuals and groups to participate in politics and influence the making of policy But democratization does not ensure better representation for everyone and indeed some sectors of society are ill equipped to take advantage of these new opportunities Small industry in Mexico Kenneth Shadlen shows is an excellent example of a sector whose representation decreased during democratization Shadlen s analysis focuses on the basic characteristics of small firms that complicate the process of securing representation in both authoritarian and democratic environments He then shows how increased pluralism and electoral competition served to exacerbate the

political problems facing the sector during the course of democratization in Mexico These characteristics created problems for small firms both in acting collectively through interest associations and civil society organizations and in wielding power within political parties The changes that democratization effected in the structure of corporatism put small industry at a significant disadvantage in the policy making arena even while there was general agreement on the crucial importance of this sector in the new neoliberal economy especially for generating employment The final chapter extends the analysis by making comparisons with the experience of small industry representation in Argentina and Brazil Shadlen uses extensive interviews and archival research to provide new evidence and insights on the difficult challenges of interest aggregation and representation for small industry He conducted interviews with a wide range of owners and managers of small firms state and party officials and leaders of business associations and civil society organizations He also did research at the National Archives in Mexico City and in the archives of the most important business organizations for small industry in the post World War II period
