Texas Passions:

Dishonorable Passions William N. Eskridge Jr.,2008-05-01 From the Pentagon to the wedding chapel there are few issues more controversial today than gay rights As William Eskridge persuasively demonstrates in Dishonorable Passions there is nothing new about this political and legal obsession The American colonies and the early states prohibited sodomy as the crime against nature but rarely punished such conduct if it took place behind closed doors By the twentieth century America s emerging regulatory state targeted degenerates and later homosexuals The witch hunts of the McCarthy era caught very few Communists but ruined the lives of thousands of homosexuals The nation s sexual revolution of the 1960s fueled a social movement of people seeking repeal of sodomy laws but it was not until the Supreme Court s decision in Lawrence v Texas 2003 that private sex between consenting adults was decriminalized With dramatic stories of both the hunted Walt Whitman and Margaret Mead and the hunters Earl Warren and J Edgar Hoover Dishonorable Passions reveals how American sodomy laws affected the lives of both homosexual and heterosexual Americans Certain to provoke heated debate Dishonorable Passions is a must read for anyone interested in the history of sexuality and its regulation in the United States

The Mother of All Booklists William Patrick Martin,2014-12-24 The Mother of All Booklists The 500 Most Recommended Nonfiction Reads for Ages 3 to 103 is written for parents grandparents and teachers unfamiliar with the bewildering array of award and recommended reading lists This book is a long overdue composite of all the major booklists It brings together over 100 of the most influential book awards and reading lists from leading magazines newspapers reference books schools libraries parenting organizations and professional

groups from across the country The Mother of All Booklists is to reading books what the website Rotten Tomatoes is to watching movies the ultimate one stop synthesizing resource for finding out what is best Mother is not the opinion of one book critic but the aggregate opinion of an army of critics Organized into five age group lists each with one hundred books preschoolers ages 3 5 early readers ages 5 9 middle readers ages 9 13 young adults ages 13 17 and adults ages 18 The Mother of All Booklists amalgamates the knowledge of the best English language booklists in the United States including a few from Canada and Great Britain Each of the 500 books is annotated describing the contents of the book and suggesting why the book is unique and important Each includes a picture of the book cover **Winning Passion** Laurance L.

Priddy,1994 Tall handsome Bobby Thompson attains a cherished goal when he accepts the job as head football coach at Comanche Springs Texas As the Comanche Springs team seems headed for its first district championship in years Bobby confronts racism and corruption in the high school athletic program along with his own personal demons **The Fourth Amendment** Michael J. Z. Mannheimer,2023-08-22 Police are required to obey the law While that seems obvious courts have lost track of that requirement due to misinterpreting the two constitutional provisions governing police conduct the Fourth and Fourteenth Amendments The Fourth Amendment forbids unreasonable searches and seizures and is the source of most constitutional constraints on policing Although that provision technically applies only to the federal government the Fourteenth Amendment ratified in the wake of the Civil War has been deemed to apply the Fourth Amendment to the States This book contends that the courts misinterpretation of these provisions has led them to hold federal and state law enforcement mistakenly to the same constitutional standards The Fourth Amendment was originally understood as a federalism or states rights provision that in effect required federal agents to adhere to state law when searching or seizing Thus applying the same constraint to the States is impossible Instead the Fourteenth Amendment was originally understood in part as requiring that state officials 1 adhere to state law 2 not discriminate and 3 not be granted excessive discretion by legislators These principles should guide judicial review of modern policing Instead constitutional constraints on policing are too strict and too forgiving at the same time In this book Michael J Z Mannheimer calls for a reimagination of what modern policing could look like based on the original understandings of the Fourth and Fourteenth Amendments **Passion's Child**
