

Background of the English Poor laws

The English Poor Laws were a body of laws undertaking to provide relief for the poor in England and Wales that developed in the 16th century. Whilst there were much earlier medieval ordinances and Tudor laws that were concerned with the problems caused by vagrants and beggars, the first legislation to deal with the poor was passed in the 1530s.

In 1349, Edward III issued the **Ordinance of Labourers** in response to the outbreak of Black Death in England during the period that led to a rapid decline in population. There was a great demand and competition for surviving workers in the agricultural economy, driving wages and prices up across the economy. This worsened the shortage conditions. Workers took this opportunity to flee employers and become freemen. As a result, additional laws were passed to punish escaped workers.

In 1388, Richard II passed the **Statute of Cambridge**, which placed restrictions on the movement of labourers and beggars. Any labourer was prohibited from leaving the borough or county where he was living without the permission of the Justice of the Peace. 'Impotent poor' were to remain in the towns in which they were living. This forced each county to be responsible for relieving its own impotent poor. Lack of enforcement limited the effect of the statute.

In 1495, during the reign of Henry VII, the **Vagabonds and Beggars Act** was passed, granting officers the authority to arrest and hold vagabonds and to punish the poor of England for simply being poor.

In 1530, during the reign of Henry VIII, the **Vagabonds Act** decreed that strong vagabonds should be whipped and returned to the place of their birth. Repeat offenders could be mutilated or even executed. Additionally, the act directed the Justices of the Peace to assign to the impotent poor an area within which they were to beg.
