The Laws Of The Sun The Revelation Of Buddha That Enlightens The New Age:

The Laws of the Sun Ryūhō Ōkawa, 1990 The Laws of the Sun Ryuho Okawa, 2024-12-18 Life's Questions Answered Why and how did God create this world? What are the universal spiritual laws that shape this world and how can we learn to live in harmony with them? What is the nature of spirit and soul? For what purpose are we born here and how can we find true happiness and meaning in life? In *The Laws of the Sun* Ryuho Okawa, based on his miraculous ability to see the past, present and future, answers these essential questions by offering his remarkable account of the framework of the Laws that govern the universe. He explains how and why the Creator designed the universe and all things within it and shows us how living in accord with the Truths gives us the power to change our lives and transform our planet, turning it away from catastrophe toward love and acceptance between people of all religions and races. When Jews, Christians, Muslims, and Buddhists alike discover their common spiritual source, their hearts will be inspired to let go of millennia of conflict and finally forgive and embrace one another. As we come together as one people from one source on one planet, we will build a new era of spirituality based on the Truths as they are revealed here in this transformative book. The essence of love is in giving. Giving means to live every day thinking of ways to make as many people as possible happy. It means to shine the light of love onto the minds of as many wanderers as possible. It is also to help as many people as possible recover from the difficulties and setbacks of life and to help them live their everyday lives in wisdom and courage. *The Laws of the Sun* is a mystical book that Ryuho Okawa has written entirely using automatic writing. This book describes the origin of the soul and the creation of the universe, the stages of love and enlightenment, the hidden history of lost civilizations, and the path to ultimate self-realization. It has become Okawa's most well-known, prominent, and influential book that has changed the lives of millions. **Japanese New**

Religions in Global Perspective Peter B. Clarke, Peter B. Clarke, 2013-11-05 Since the 1960s, virtually every part of the world has seen the arrival and establishment of Japanese new religious movements, a process that has followed quickly on the heels of the most active period of Japanese economic expansion overseas. This book examines the nature and extent of this religious expansion outside Japan. **Encyclopedia of New Religious Movements** Peter Clarke, 2004-03 An essential companion to both research and scholarship upon which undergraduates, postgraduates, lecturers, and researchers can all be expected to draw.

Japanese new religions (shinshūkyō) have used various media forms for training, communicating with members, presenting their messages, reinforcing or protecting the image of the leader, and potentially attracting converts. In this book, the complex and dual relationship between media and new religions is investigated by looking at the tensions groups face between the need for visibility and the risks of facing attacks and criticism through media. Indeed, media and new technologies have been extensively used by religious groups not only to spread their messages and to

try to reach a wider audience but also to promote themselves as a highly modern and up to date form of religion appropriate for a modern technological age In 1980s and early 1990s some movements such as Agonsh K fuku no Kagaku and Aum Shinriky came into prominence especially via the use of media initially publications but also ritual broadcasts advertising campaigns and public media events This created new modes of ritual engagement and new ways of interactions between leaders and members The aim of this book is to develop and illustrate particular key issues in the wider new religions and media nexus by using specific movements as examples In particular the analysis of the interaction between media and new religions will focus primarily on three case studies predominantly during the first period of development of the groups
