The Lay Of The Land:

The Lay of the Land Annette Kolodny, 2017-11-01 An original and highly unusual psycholinguistic study of American literature and culture from 1584 to 1860 this volume focuses on the metaphor of land as woman It is the first systematic documentation of the recurrent responses to the American continent as a feminine entity as Mother as Virgin as Temptress as the Ravished and it is also the first systematic inquiry into the metaphor's implications for the current ecological crisis

Ancient Greece Sean Price, 2000-08 Presents more than twenty activities to teach children in grades 4-8 about ancient Greece including its history daily life culture and government

The Lay of the Land Dallas Lore Sharp, 1908 *Our Public Lands*, 1956 **Writing Environments** Sidney I. Dobrin, Christopher J. Keller, 2005-02-10 Including interviews with several of America's leading environmental writers this volume addresses the intersections between writing and nature

The World Is Always Coming to an End Carlo Rotella, 2019-04-26 An urban neighborhood remakes itself every day and unmakes itself too Houses and stores and streets define it in one way But it's also people the people who make it their home some eagerly others grudgingly A neighborhood can thrive or it can decline and neighbors move in and move out Sometimes they stay but withdraw behind fences and burglar alarms If a neighborhood becomes no longer a place of sociability and street life but of privacy indoors and fearful distrust outdoors is it still a neighborhood In the late 1960s and 1970s Carlo Rotella grew up in Chicago's South Shore neighborhood a place of neat bungalow blocks and desolate commercial strips and sharp sometimes painful social contrasts In the decades since the hollowing out of the middle class has left residents confronting or avoiding each other across an expanding gap that makes it ever harder for them to recognize each other as neighbors Rotella tells the stories that reveal how that happened stories of deindustrialization and street life stories of gorgeous apartments with vistas onto Lake Michigan and of Section 8 housing vouchers held by the poor At every turn South Shore is a study in contrasts shaped and reshaped over the past half century by individual stories and larger waves of change that make it an exemplar of many American urban neighborhoods Talking with current and former residents and looking carefully at the interactions of race and class persistence and change Rotella explores the tension between residents' deep investment of feeling and resources in the physical landscape of South Shore and their hesitation to make a similar commitment to the community of neighbors living there Blending journalism memoir and archival research *The World Is Always Coming to an End* uses the story of one American neighborhood to challenge our assumptions about what neighborhoods are and to think anew about what they might be if we can bridge gaps and commit anew to the people who share them with us Tomorrow is another ending
