The Legacy Of George Partridgeberry:

The Legacy of George Partridgeberry J. Lansing Shubert, 1990-10-01 *The Legacy of a Red Hills Hunting Plantation* Robert L Crawford, William R Brueckheimer, 2012-10-21 The Red Hills region is an idyllic setting filled with longleaf pines that stretches from Tallahassee Florida to Thomasville Georgia At its heart lies Tall Timbers a former hunting plantation In 1919 sportsman Henry L Beadel purchased the Red Hills plantation to be used for quail hunting As was the tradition he conducted prescribed burnings after every hunting season in order to clear out the thick brush to make it more appealing to the nesting birds After the U S Forest Service outlawed the practice in the 1920s condemning it as harmful for the forest and its wildlife the quail population diminished dramatically Astonished by this loss and encouraged by his naturalist friend Herbert L Stoddard Beadel set his sights on conserving the land in order to study the effects of prescribed burnings on wildlife Upon his death in 1958 Beadel donated the entire Tall Timbers estate to be used as an ecological research station The Legacy of a Red Hills Hunting Plantation traces Beadel s evolution from sportsman and naturalist to conservationist Complemented by a wealth of previously unpublished rare vintage photographs it follows the transformation of the plantation into what its founders envisioned a long term plot study station independent of government or academic funding and control
