Milwaukee's Early Architecture Megan E. Daniels, 2010-07-19 Initially dominated by simple renditions of East Coast architecture Milwaukee developed from three pioneer settlements those of Solomon Juneau Byron Kilbourn and George Walker three hubs from which three villages radiated outward into one city Following the Civil War Milwaukee's growth at the onset of the Industrial Era afforded the city a fanciful array of Victorian streetscapes The 1890s followed with an era of ethnic architecture in which bold interpretations of German Renaissance Revival and Baroque designs paid homage to Milwaukee's overwhelming German population At the turn of the century Milwaukee's proximity to Chicago influenced the streetscape with classicized civic structures and skyscrapers designed by Chicago architects World War I and the ensuing anti German sentiment as well as Prohibition inevitably had adverse effects on Brew City By the 1920s Milwaukee's architecture had assimilated to the national aesthetic suburban development was on the rise and architectural growth would soon be stunted by the Great Depression
