The Letters Of Gertrude Stein And Carl Van Vechten 1913 1946:

The Letters of Gertrude Stein and Carl Van Vechten, 1913-1946 Gertrude Stein, Carl Van Vechten, 1986-07-14 This monumental collection of correspondence between Gertrude Stein and critic novelist and photographer Carl Van Vechten provides crucial insight into Stein's life, art, and artistic milieu, as well as Van Vechten's support of major cultural projects such as the Harlem Renaissance. From their first meeting in 1913, Stein and Van Vechten formed a unique and powerful relationship, and Van Vechten worked vigorously to publish and promote Stein's work. Existing biographies of Stein, including her own autobiographical writings, omit a great deal about her experiences and thought. They lack the ordinary detail of what Stein called daily, everyday living: the immediate concerns, objects, people, and places that were the grist for her writing. These letters not only vividly represent those details but also showcase Stein and Van Vechten's private selves as writers. Edward Burns's extensive annotations include detailed cross-referencing of source materials.

The Parisian Avant-Garde in the Age of Cinema, 1900-1923 Jennifer Wild, 2023-04-28 The first decades of the twentieth century were pivotal for the historical and formal relationships between early cinema and Cubism, mechanomorphism, abstraction, and Dada. To examine these relationships, Jennifer Wild's interdisciplinary study grapples with the cinema's expanded identity as a modernist form defined by the concept of horizontality. Found in early methods of projection, film exhibition, and in the film industry's penetration into cultural life by way of film stardom, advertising, and distribution, cinematic horizontality provides a new axis of inquiry for studying early twentieth-century modernism. Shifting attention from the film to the horizon of possibility, around, behind, and beyond the screen, Wild shows how canonical works of modern art may be understood as responding to the changing characteristics of daily life after the cinema. Drawing from a vast popular cultural, cinematic, and art historical archive, Wild challenges how we have told the story of modern artists' earliest encounter with cinema and urges us to reconsider how early projection, film stardom, and film distribution transformed their understanding of modern life, representation, and the act of beholding. By highlighting the cultural, ideological, and artistic forms of interpellation and resistance that shape the phenomenology of a wartime era, *The Parisian Avant-Garde in the Age of Cinema, 1900-1923* provides an interdisciplinary history of radical form. This book also offers a new historiography that redefines how we understand early cinema and avant-garde art before artists.

Lynn Weiss,1998 Gertrude Stein and Richard Wright began their careers as marginals within marginalized groups and their desire to live peacefully in unorthodox marriages led them away from America and into permanent exile in France Still the obvious differences between them in class ethnic and racial origins and in artistic expression beg the question What was there to talk about This question opens a window onto each writer s meditations on the influence of racial ethnic and national origins on the formation of identity in a modern and post modern world

Race and the Modern Artist Heather Hathaway,Josef Ja^D^rab,Jeffrey Melnick,2003-01-16 Definitions of modernism have been debated throughout the twentieth century But both during the height of the modernist era and since little to no consideration has been given to the work of minority writers as part of this movement Considering works by writers ranging from B A Botkin T S Eliot Waldo Frank and Jean Toomer to Pedro Pietri and Allen Ginsberg these essays examine the disputed relationships between modernity modernism and American cultural diversity In so doing the collection as a whole adds an important new dimension to our understanding of twentieth century literature

Another Self Linda W. Rosenzweig,1999-08 From nineteenth century romantic friendships to childhood best friends and idealistic versions of feminist sisterhood female friendship has been seen as an essential sustaining influence on women s lives Women are thought to have a special aptitude for making and keeping friends But notions of friendship are not

constant and neither are women's experiences of this fundamental form of connection In *Another Self* Linda W. Rosenzweig sheds light on the changing nature of white middle class American women's relationships during the coming of age of modern America As the middle class domesticity of the nineteenth century waned a new emotional culture arose in the twentieth century and the intensely affectionate bonds between women of earlier decades were supplanted by new priorities autonomy careers participation in an expanding consumer culture and the expectation of fulfillment and companionship in marriage An increased emphasis on heterosexual interactions and a growing stigmatization of close same sex relationships fostered new friendship styles and patterns Drawing on a wide range of primary sources including diaries journals correspondence and popular periodicals Rosenzweig uncovers the complex and intricate links between social and cultural developments and women's personal experiences of friendship

Jews in an Illusion of Paradise Norman Simms, 2018-01-23

These further six chapters of *Jews in an Illusion of Paradise* now focus on individual exemplary figures and clusters of poets dramatists critics journalists art historians Jews whose achievements were once celebrated but now are almost all but forgotten not because of changes in aesthetic taste or style but because of social political and other ideological issues The book continues to examine the clash between their conscious and unconscious self presentation as Jews in a culture that wilfully or inadvertently misunderstood or rejected this aspect of otherness the men and women represented from the mid nineteenth to the mid twentieth centuries Whereas the first volume concentrated on the themes images and rhetorical motifs of this awkward status of Jewish intellectuals and artists here the ambiguous personalities and repressed anxieties of the exemplary figures are stressed For millennia Jews were considered outside of normal history passive victims of persecution then suddenly with Emancipation they fell into history and out of their mythical place in the scheme of things Everything seemed to crumble into dust and ashes

Sound Recording Technology and American Literature Jessica E. Teague, 2021-05-20

Phonographs tapes stereo LPs digital remix how did these remarkable technologies impact American writing This book explores how twentieth century writers shaped the ways we listen in our multimedia present Uncovering a rich new archive of materials this book offers a resonant reading of how writers across several genres such as John Dos Passos Langston Hughes William S. Burroughs and others navigated the intermedial spaces between texts and recordings Numerous scholars have taken up remix a term co-opted from DJs and sound engineers as the defining aesthetic of twenty first century art and literature Others have examined modernism's debt to the phonograph But in the gap between these moments one finds that the reciprocal relationship between the literary arts and sonic technologies continued to evolve over the twentieth century A mix of American literary history sound studies and media archaeology this interdisciplinary study will appeal to scholars students and audiophiles

Glamour in Six Dimensions Judith Brown, 2018-09-05

Glamour is an alluring but elusive concept We most readily associate it with fashion industrial design and Hollywood of the Golden Age and yet it also shaped the language and interests of high modernism In *Glamour in Six Dimensions* Judith Brown looks at the historical

and aesthetic roots of glamour in the early decades of the twentieth century arguing that glamour is the defining aesthetic of modernism In the clean lines of modernism she finds the ideal conditions for glamour blankness polish impenetrability and the suspicion of emptiness behind it all Brown focuses on several cultural products that she argues helped to shape glamour s meanings the most significant perfume of the twentieth century Chanel No 5 the idea of the Jazz Age and its ubiquitous cigarette the celebrity photograph the staging of primitivism and the invention of a shimmering plastic called cellophane Alongside these artifacts she takes up the development refinement and analysis of glamour in Anglo American poetry film fiction and drama of the period Glamour in Six Dimensions thus asks its reader to see the proximity between the vernacular and elite cultures of modernism and particularly how glamour was animated by artists working at the crossroads of the mundane and the extraordinary Wallace Stevens F Scott Fitzgerald Virginia Woolf Josephine Baker D H Lawrence Gertrude Stein Nella Larsen and others
