Woolf Virginia Woolf, 1979 *Virginia Woolf's Unwritten Histories* Anne Besnault, 2021-11-04 Virginia Woolf's Unwritten
Histories explores the interrelatedness of Woolf's modernism feminism and her understanding of history as a site of
knowledge and a writing practice that enabled her to negotiate her heritage to find her place among the moderns as a female
artist and intellectual and to elaborate her poetics of the new not as radical rupture but as the result of a process of
unwriting and rewriting traditional historiographical orthodoxies Its central argument is that unless we comprehend the
genealogy of Woolf's historical thought and the complexity of its lineage we cannot fully grasp the innovative thrust of her
attempt to think back through our mothers Bringing together canonical texts such as Orlando 1928 A Room of One's Own
1929 Three Guineas 1938 or Between the Acts 1941 and under researched ones among which stand Woolf's essays on
historians and reviews of history books and her pieces on literary history and nineteenth century women's literature this
book argues that Woolf's textual conversations with nineteenth century writers historians and critics many of which remain
unexplored are interwoven with her historiographical poesis and constitute the groundwork for her alternative histories and
literary histories unwritten open textured unacademic and polemical counter narratives that keep track of the past and
engage politically with the future
