The Life And Work Of Georg Heym Poet Of Expressionist Berlin:

Poet of Expressionist Berlin Patrick Bridgwater, 1991 Holderlin Buchner Shelley Keats Baudelaire Van Gogh and Munch Bridgwater ends his study with a discussion of Heym's place in the general topography of neo romanticism and German Expressionism and cautions against too strict a confinement within Expressionist categories of the work of one of the major voices of early twentieth century German literature *A Study Guide for "Expressionism"* Gale, Cengage Learning, 2016 A Study Guide for Expressionism excerpted from Gale's acclaimed Literary Movements for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Literary Movements for Students for all of your research needs **A Companion to the Literature of German Expressionism** Neil H. Donahue, 2005 New essays examining the complex period of rich artistic ferment that was German literary Expressionism *The Cambridge History of German Literature* Helen Watanabe-O'Kelly, 2000-06-12 This is the first book to describe German literary history up to the unification of Germany in 1990 It takes a fresh look at the main authors and movements and also asks what Germans in a given period were actually reading and writing what they would have seen at the local theatre or found in the local lending library it includes for example discussions of literature in Latin as well as in German eighteenth century letters and popular novels Nazi literature and radio plays and modern Swiss and Austrian literature A new prominence is given to writing by women Contributors all leading scholars in their field have re-examined standard judgements in writing a history for our own times The book is designed for the general reader as well as the advanced student titles and quotations are translated and there is a comprehensive bibliography *Longing, Belonging, and the Making of Jewish Consumer Culture* Gideon Reuveni, Nils Roemer, 2010-07-12 Jewish history has been extensively studied from social political religious and intellectual perspectives but the history of Jewish consumption and leisure has largely been ignored The hitherto neglect of scholarship on Jewish consumer culture arises from the tendency within Jewish studies to chronicle the production of high culture and entrepreneurship Yet consumerism played a central role in Jewish life This volume is the first of its kind to deal with the topic of Jewish consumer culture It gives new insights on Jewish belongings and longings and provides multiple readings of Jewish consumer culture as a vehicle of integration and identity in modern times Overall Reuveni and Roemer offer a rich volume that will provoke thought and discussion in a variety of venues It is an important work and I look forward to reading more from the contributing authors Jeffrey Podoshen Franklin Marshall College *Imperial Culture in Germany, 1871-1918* Matthew Jefferies, 2020-10-01 It has often been suggested that artists and writers in Germany's imperial era shunned social engagement preferring instead apolitical introspection However as Matthew Jefferies reveals whether one looks at the painters poets and architects who helped to create an official imperial identity after 1871 the cultural critics and reformers of the later 19th century or the new generation of cultural producers that emerged in the years around 1900 the social political

and cultural were never far apart In this attractively illustrated book Jefferies provides a lively introduction to the principal movements in German high culture between 1871 and 1918 in the context of imperial society and politics He not only demonstrates that Germany's Imperial culture was every bit as fascinating as the much better known Weimar culture of the 1920s but argues that much of what came later has origins in the imperial period Filling a significant gap in the current historiography this study will appeal to all those with an interest in the rich and diverse culture of Imperial Germany The Cabaret Lisa Appignanesi, 2004-01-01 The author presents a comprehensive cultural history of cabaret where the most radical of artists poets writers musicians and theatre directors have gathered since 1881 This edition is enriched with materials that have become more accessible in the post Soviet era German Incertitudes, 1914-1945 Klemens von Klemperer, 2001-03-30 The history of modern Germany has all too readily been seen in terms of an historical process that inevitably led to the horrors of National Socialism As there are no certitudes in life however so there are none in German history In this book historian Klemens von Klemperer focuses on what he terms the German Incertitudes namely the tensions between a realistic acceptance of disenchantment with the modern world and an insistence upon reenchantment Exploring this tension through a critical assessment of the ideas and writings of major German thinkers von Klemperer seeks to account for both the achievements and the failings of German thought society and politics as responses to the challenge of modernity in the first half of the 20th century In addition to individuals such as Nietzsche Weber Spengler J nger Bonhoeffer and Heidegger the author considers broader movements and ideas such as the concept of Gemeinschaft and the German expressionists all in the wider context of Western intellectual currents Rather than belaboring presumed German deviance from the European norms von Klemperer explores the reasons why the sense of crisis in the face of modernity was singularly acute among Germans he traces a spectrum of reactions extending from an acceptance of modern disenchantment to the quest for reenchantment which found an extreme manifestation in National Socialism **Early Modernism** Christopher Butler, 1994 Early Modernism is a uniquely integrated introduction to the great avant garde movements in European literature music and painting at the beginning of this century from the advent of Fauvism to the development of Dada In contrast to the overly literary focus of previous studies of modernism this book highlights the interaction between the arts in this period It traces the fundamental and interlinked re examination of the languages of the arts brought about by Matisse Picasso Schoenberg Eliot Apollinaire Marinetti Ben and many others which led to radically new techniques such as atonality cubism and collage These changes are set in the context both of the art that preceded them and of a new and profound shift in ideas Theories of the unconscious the association of ideas primitivism and reliance upon an expressionist intuition led to a reshaped conception of personal identity and Butler examines the representation of the modernist self in the work of figures including Mann Joyce Conrad and Stravinsky Accessible and wide ranging the book is lavishly illustrated with over sixty illustrations many in color It provides an elegant and incisive guide to a momentous period in the history of European art

Comparative Criticism: Volume 17, Walter Pater and the Culture of the Fin-de-Siècle E. S. Shaffer, 1995-11-16 Addresses literary theory and criticism comparative studies in terms of theme genre movement and influence and interdisciplinary perspectives
